Taxation For Decision Makers:

Taxation for Decision Makers, 2020 Shirley Dennis-Escoffier, Karen A. Fortin, 2019-08-13 Taxation 2020 introduces all relevant tax topics covered in the CPA exam to undergraduate or graduate students in one semester introductory tax courses. Offering a decision making approach to the material, this comprehensive yet accessible text maintains the appropriate balance between concepts and specifics. Twelve concise student friendly chapters supply sufficient details to build upon for future careers in taxation and consulting while avoiding the minutiae rarely seen in everyday practice. The new tenth edition covers basic taxation of individuals, corporations, S corporations, partnerships, and fiduciary entities. An emphasis on tax planning helps students understand the effect taxation has on decisions for both individuals and entities. Thoroughly updated for the coming tax year, this textbook covers fundamental areas of taxation and its environment including business and property concepts, property dispositions, business and wealth taxation, and income, expenses, and individual taxes. A wealth of instructor resources includes two solutions manuals, one of which provides solutions to the Research and Tax Return problems, an extensive test bank, and PowerPoint slides. Engaging, highly readable text enables instructors to assign students out of class readings and spend classroom time on more complex topics.

Fortin,2017-09-12 Accounting: Business Reporting for Decision Making, 9th Edition Jacqueline Birt,Keryn Chalmers,Suzanne Maloney,Albie Brooks,David Bond,Judy Oliver,2025-11-24 Birt s Accounting Business Reporting for Decision Making 9th Edition is the market leading text for core accounting units in business and commerce degrees specifically designed for first year students across all business disciplines including marketing and HRM What sets this text apart is its focus on the connection between accounting and business decision making presented from a management and stakeholder perspective rather than a technical accounting view **Taxation for Decision Makers, Evaluation Copy** Shirley Dennis-Escoffier,Karen A. Fortin,2016-07-12 **Handbook of Behavioural Economics and Smart Decision-Making** Morris Altman,2017-05-26 This Handbook is a unique and original contribution of over thirty

chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging ethics and public policy

The Rule of Law and Automated Decision-Making Markku Suksi, 2023-07-24 The book presents observations concerning automated decision making from a general point of view at the same time as it analyses the manner in which praxis in some jurisdictions has evolved as concerns automated decision making and how the requirements that are placed by the legal orders on it are formulated The principle of the rule of law should apply in the context of automated decision making of public authorities just as much as when the decision makers are physical persons In sync with increasing automatization of decision making in public authorities problematizing questions about the appropriate legal basis for algorithmic decision making have started emerge How should the principle of the rule of law apply within the area of automated decision making how should automated decision making be regulated so that it satisfies the requirements created by the principle of the rule of law and how should the principle of the rule of law be made concrete in decision making that is based on algorithms The proposal for an AI Act launched by the European Commission in April 2021 including an identification of high risk uses of algorithmic techniques raises further questions concerning practices and interpretations related to automated decision making The state based on the rule of law proceeds from the maxim that public powers are exercised within a legal frame that makes the exercise of public powers foreseeable in light of legal norms Also a state based on the rule of law requires that the contents of the exercise of public powers is regulated by legal norms which means that the citizens must be able to know everything that is relevant about how the powers will be exercised not only who it is that will exercise the powers Because of rules and principles of this kind including non discrimination and proportionality the exercise of powers will not become arbitrary
