Taxation Of Individual Income Analysis And Skills Series

George R. Zodrow

Taxation Of Individual Income Analysis And Skills Series:

Taxation of Individual Income J. Martin Burke, 1994 *Analytical Skill Exercises for Economics Iv' 2002 Ed. ,*

Taxation of Individual Income J. Martin Burke, Michael K. Friel, 2007 **Globalization and Inequality in Advanced**

Economies Joël Hellier, 2023-06-23 This volume surveys and combines the different dimensions of globalization so as to propose a general diagnosis of the way they interact to explain growing inequality in advanced economies The extant economic literature has widely analyzed i the impact on inequality of trade between advanced and emerging countries North South Trade particularly offshoring ii the impact of tax base mobility on tax competition and iii the globalization driven constraints on social policies and labor market institutions Those three strands of analysis and the related literature have been reviewed in a number of surveys but have not been combined to provide an extensive study of the impact of their interactions on inequality This volume fills that gap Providing a general diagnosis of the globalization inequality nexus within advanced economies and opening new avenues for research and potential reforms this book will be of interest to researchers and students of economics and the social sciences **Fundamentals of Taxation for Individuals and Business Entities,**

with eBook Access Code Gregory A. Optimal Redistributive Taxation Matti Tuomala, 2016-01-21 Tax systems raise large amounts of revenue for funding public sector's activities and tax transfer policy together with public provision of education health care and social services play a crucial role in treating the symptoms and the causes of poverty The normative analysis is crucial for tax transfer design because it makes it possible to assess separately how changes in the redistributive criterion of the government and changes in the size of the behavioural responses to taxes and transfers affect the optimal tax transfer system Optimal tax theory provides a way of thinking rigorously about these trade offs Written primarily for graduate students and researchers this volume is intended as a textbook and research monograph connecting optimal tax theory to tax policy It comments on some policy recommendations of the Mirrlees Review and builds on the authors work on public economics optimal tax theory behavioural public economics and income inequality The book explains in depth the Mirrlees model and presents various extensions of it The first set of extensions considers changing the preferences for consumption and work behavioural economic modifications such as positional externalities prospect theory paternalism myopic behaviour and habit formation but also heterogeneous work preferences besides differences in earnings ability The second set of modifications concerns the objective of the government The book explains the differences in optimal redistributive tax systems when governments instead of maximising social welfare minimise poverty or maximise social welfare based on rank order or charitable conservatism social welfare functions The third set of extensions considers extending the Mirrlees income tax framework to allow for differential commodity taxes capital income taxation public goods provision public provision of private goods and taxation commodities that generate externalities The fourth set of extensions considers incorporating a number of important real word extensions such as tagging of tax schedules to certain groups of tax payers In all extensions the book illustrates the main mechanisms using advanced numerical simulations

Advanced Introduction to Taxation George R. Zodrow, 2025-01-09 George Zodrow offers a fresh look at taxation from a public economics perspective focusing on how taxes affect economic behaviour and impact the decisions of both households and businesses

The Economics of Taxation Henry Aaron, Michael J. Boskin, 2011-07-01 This volume brings together the contributions of twenty four economists and lawyers on tax policy Five papers build on the work of Joseph A Pechman in analyzing the distribution of tax burdens A B Atkinson relates the analysis of redistribution of income through the tax system to horizontal equity James Buchanan and Geoffrey Brennan demonstrate that a full analysis of tax burdens must encompass

tax induced inefficiencies and Boris I Bittker examines how tax inequities become resource misallocation In separate papers Joseph J Minarik and Benjamin A Okner elaborate on and extend Pechman s analyses of tax burdens Three papers address the concept of tax expenditures Stanley S Surrey and Paul R McDaniel trace the development of the idea Martin S Feldstein demonstrates that some use of tax expenditures is necessary for the sake of economic efficiency and Gerard M Brannon examines the relations between tax expenditures and the distribution of income Michael J Boskin Richard Goode Peter Mieszkowski and John B Shoven and Paul Taubman examine alternative tax bases Harvey E Brazer and Alicia H Munnell in separate papers argue that the basic unit subject to the personal income tax should be the individual rather than the family David F Bradford and Arnold C Harberger analyze changes that would reduce present biases in the tax treatment of investment income George F Break and Charles E McLure Jr consider possible improvements in the personal and corporation income taxes imposed by states E Cary Brown Richard A Musgrave and Emil M Sunley deal with fiscal policy Brown draws lessons from U S History since 1945 Musgrave confronts Marxian and other theories of fiscal crises with the facts Sunley describes the many pitfalls between proposals for even modest tax change and final congressional action
