*The Holy Bible in Verse: the Maiden's Best Adorning: with Other Moral and Religious Pieces. A New Edition [of "Miscellanies in Prose and Verse, in Two Parts"]*, 1834. **Readiness or resistance?** Afrah Abdulla, 2017-11-13. This thesis is about newly arrived adult migrants meaning making and learning in Swedish society during the two years introduction period after they have received the residence permit. I have specifically studied Arabic speaking adults meaning making and learning by carrying out observations and individual in-depth interviews with 12 migrants. The introduction period consists mainly of three so-called introduction measures: the civic orientation course, Swedish for immigrants (SFI), and different work-related activities such as internship at different work places. The results show that etablering is about shaping the newly arrived adult migrants into good citizens through the introduction measures among other things in the civic orientation course, which is regulated through the policy documents and which so to say provides meaning to the newly arrived. The good citizen has some specific characteristics which roughly are that he or she is independent and advocates individuality, free equality, thinking secularized, law-abiding, which includes being honest, responsible and a good parent. These characteristics are expressed in different ways in the civic orientation course for instance through the course material. The Swedish society is described as something desirable and different from what is implied to be Arabic values and ways of thinking. The idea of the good citizen appears to aim at constructing the adult migrants and their families' identity, something which many of the study's respondents make a resistance to. As concerns the migrant's new experiences, it is for example those which the migrant get through the contact with the Swedish Public Employment Service (SPES) that affect the meaning making in the new society. The meaning which most of the respondents have made of the SPES's measures for them is that this authority

only offers prepackaged solutions and does not provide the help or support that they need. Also the experiences which the migrant has in the civic orientation course and the meaning which old migrants give to him or her play a role when he or she makes meaning of Sweden and Swedes and of his or her new life situation. Further it has been shown that it is those experiences that the adult individual has been socialized through and those which he or she has gained through work or education in his or her country of origin which affect his or her meaning making in Sweden. It is mostly values which concern child upbringing and religion that lead to a certain understanding and construction of one's new life. These values when related to the values which are included in the good citizen idea also lead to either a resistance or a readiness towards the meaning giving that is embedded in the good citizen notion. Denna studie handlar om nyanlända vuxna migranternas meningsskapande och livande i det svenska samhället under deras tvåriga introduktionsperiod efter att de har fått uppehållstillstånd. Jag har specifikt studerat arabisktalande vuxnas meningsskapande och livande genom observationer och enskilda djupintervjuer med 12 nyanlända. Introduktionsperioden består för mest av tre särskilda etableringsinsatser: kursen i samhällsorientering för svenska för invandrare (SFI) samt olika arbetsrelaterade och arbetsfremjande insatser såsom praktik på olika arbetsplatser. Resultatet visar att etablering handlar om att förmedla de vuxna nyanlända till goda medborgare genom etableringsinsatserna både i samhällsorienteringskursen som regleras genom policydokumenten och som sås tillhandahåller mening för de nyanlända. Den goda medborgaren har vissa specifika kännetecken vilka i grova drag är att han eller hon är självständig och förespråkar individualitet, frijämlikhet, sekulariserad laglydighet vilket inkluderar religiös ansvarsfullhet och en god förlider. Dessa karaktärsdrag kommer på olika sätt till uttryck i samhällsorienteringskursen exempelvis genom kursmaterialet. Det svenska samhället framställs också som något eftersträvat och skilt från det som antyds vara arabiska värderingar och tänkesätt. Förstärkningen om den goda medborgaren verkar syfta till att konstruera den vuxna nyanländas och dennas familjs identitet något som många av studiens respondenter gör motstånd mot. Vad gäller migrantens nya erfarenheter är det exempelvis de som migranten har fått genom kontakt med Arbetsförmedlingen som påverkar meningsskapandet i det nya samhället. Den mening som de flesta av respondenterna har gjort om Arbetsförmedlingens insatser för dem är att denna myndighet enbart erbjuder dem förpackade lösningar och inte tillhandahåller den hjälp eller det stöd som de behöver. Vissa erfarenheter som migranten gör i samhällsorienteringskursen samt den mening som gamla migranter förmedlar till honom eller henne spelar roll för hur vederbörande skapar mening om Sverige och svenskar och om sin nya livssituation. Dessutom har det visat sig att det är de erfarenheter som den vuxna har blivit socialiserad genom samt de som han eller hon har fått genom utbildning eller arbete i ursprungslandet som påverkar migrantens meningsskapande i Sverige. Det är för mest värderingar som är knutna till barnuppfostran och religion som leder till en viss förståelse och konstruktion av ens nya liv. Dessa värderingar leder också när det stöts mot de värderingar som ingår i förstärkningen om den goda medborgaren antingen till ett motstånd mot eller en beredvillighet inför det meningsgivande som ingår i den goda medborgaren.
