The Needlepoint Scraps Book Jo Ippolito Christensen, 1982 **Needlepoint** Jo Ippolito Christensen, 1979 **Index to Handicraft Books, 1974-1984** Carnegie Library of Pittsburgh. Science and Technology Department, 1986 Handicrafts and do it yourself projects have always been a library's most popular and heavily requested subject. And for more than a decade a definitive index to handicraft books has not been published. To fill this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the Index to Handicraft Books listing more than 900 books and over 12,400 subject entries covering books published from 1974 to 1984. The Index to Handicraft Books is an essential reference tool for librarians who want to help someone find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books have listed. Each entry in the index consists of a subject heading, the name of the project as listed in the book, the author and title of the book, and the page numbers on which the project can be found. The author and title correspond to those in the List of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through interlibrary loan. Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974, the list concentrates mainly on medium priced books that most libraries buy. In ancient times it was used to make needlework designs which were beautiful, imaginative and creative. All one needed was plenty of time and the will to make something beautiful which would be passed on in the family as an heirloom. And that is why when I was at school it was necessary for all of us students to learn how to embroider a fine seam, do crusted samplers and learn other fine needlework arts and crafts like lace making which were traditionally taught to the nuns in their convents. As they were our teachers we learned how to make Irish lace and other needlepoint projects using a large number of stitches like Florentine stitch, basket weave stitch, Cashmere stitch, chain stitch, Continental stitch, diamond eyelet stitch, cross stitch, French knots, cross stitch frame, reverse basket weave stitch, mosaic stitch, slanting goblin stitch, Smyrna stitch, straight goblin stitch, tent stitch, upright cross stitch, triple cross stitch, tent stitch etc. Many of these stitches are traditional and many of them have been forgotten because people really do not have the time, energy or the inclination to sit for hours doing embroidery on a hoop like a lady of leisure or like Mary Queen of Scots with

her 4 Mary's her ladies in waiting who were her constant companions at court and during her long years of imprisonment where they just sat quietly throughout the day embroidering pieces of fine art Needlepoint is normally done on canvas which is a sturdy fabric built to last It is an open weave fabric It is used as a basic framework for the stitches that you are going to work into it It is available in a large number of weaves and the sizes are arranged according to the number of threads present vertically per inch
