Ulrich, 2024 Jeffrey Ulrich's *The Shadow of an Ass* addresses fundamental questions about the reception and aesthetic experience of Apuleius' *Metamorphoses* popularly known as *The Golden Ass* by situating the novel in a contemporaneous literary and philosophical discourse emerging in the Second Sophistic This unique Latin novel follows a man who is accidentally turned into a donkey because of his curiosity viewing the world through a donkey's eyes until he is returned to human form by the Egyptian goddess Isis In the end he chooses to become a cult initiate and priest instead of a debased and overindulgent ass On the one hand the novel encourages readers to take pleasure in the narrator's experiences as he relishes food sex and forbidden forms of knowledge Simultaneously it challenges readers to reconsider their participation in the story by exposing its donkey narrator as a failed model of heroism and philosophical investigation Ulrich interprets the *Metamorphoses* as a locus of philosophical inquiry positioning the act of reading as a choice of how much to invest in this tale of pleasurable transformation and unanticipated conversion *The Shadow of an Ass* further explores how Apuleius as a North African philosopher translating an originally Greek novel into a Latin idiolect transforms himself into an intermediary of Platonic philosophy for his Carthaginian audience Situating the novel in a long history of philosophical and literary conversations

Ulrich suggests that the *Metamorphoses* anticipates much of the philosophical burlesque we tend to associate with early modern fiction from Don Quixote to Lewis Carroll

Global Russian Cultures Kevin M. F. Platt, 2019-01-15 Is there an essential Russian identity What happens when Russian literature is written in English by such authors as Gary Shteyngart or Lara Vapnyar What is the geographic home of Russian culture created and shared via the internet *Global Russian Cultures* innovatively considers these and many related questions about the literary and cultural life of Russians who in successive waves of migration have dispersed to the United States Europe and Israel or who remained after the collapse of the USSR in Ukraine the Baltic states and the Central Asian states The volume's internationally renowned contributors treat the many different global Russian cultures not as displaced elements of Russian cultural life but rather as independent entities in their own right They describe diverse forms of literature music film and everyday life that transcend and defy political geographic and even linguistic borders Arguing that Russian cultures today are many this volume contends that no state or society can lay claim to be the single or authentic representative of Russianness In so doing it contests the conceptions of culture and identity at the root of nation building projects in and around Russia
