Seals, 2018-08-06 This book develops a general theory of autonomous teaching by examining a mysterious educational idea the teachable moment By formulating an understanding of the teachable moment as predicated upon educational energy this book takes up John Dewey's view of teaching to articulate a law like scientifically oriented pedagogical theory By offering a testable hypothesis about effective teaching through an innovative reading of Dewey's law this book also provides insights into changes in school practice and schooling policy consonant with an understanding of teaching as a science The End of the World and Other Teachable Moments Michael Naas, 2014-10-15 A Derrida scholar traces the evolution of the philosopher's final seminar in Paris as he contemplates the state of the world and his own mortality For decades philosopher Jacques Derrida held weekly seminars in Paris spending years at a time on a single complex theme From 2001 to 2003 he delivered the final work in this series entitled The Beast and the Sovereign As this final seminar progressed its central theme was diverted by questions of death mourning memory and especially the end of the world Now philosopher and Derrida scholar

Michael Naas takes readers through the remarkable itinerary of Derrida's final seminar in *The End of the World and Other Teachable Moments*. The book begins with Derrida's analyses of the question of the animal in the context of his other published works on that subject. It then follows Derrida as a very different tone begins to emerge, one that wavers between melancholy and extraordinary lucidity with regard to the end of life. Focusing the entire second year on Daniel Defoe's novel *Robinson Crusoe* and Martin Heidegger's seminar *The Fundamental Concepts of Metaphysics*, Derrida explores questions of the end of the world and of an originary violence that is both creative and destructive. *The End of the World and Other Teachable Moments* follows Derrida from week to week as he responds to these emerging questions as well as to important events unfolding around him, both world events (the aftermath of 9/11, the American invasion of Iraq) and more personal ones (from the death of Maurice Blanchot to intimations of his own death less than two years away). **Teachable Moments** Hank Wagner, 2009-11. In 2004, a fourth-generation dairy farmer from Wisconsin embarked on a ten-day journey to Togo, Africa, which changed his life forever. This is his story and the lessons learned from an unforgettable pilgrimage to the other side of the world. Encouraged by his mentor's words, "all great men and women make a habit of doing something greater than themselves," Hank Wagner took off on an eighteen-hour flight to Africa and began recording his thoughts and observations in a travel diary. From the moment he awakened in his hotel room and looked out the window to see guards armed with machine guns patrolling the parking lot to the potholes on the dirt roads that were large enough to swallow an entire vehicle to the sobering realization that he would rarely be able to use a real bathroom in Africa, Wagner shares his eye-opening experiences and life-changing lessons from his journey through some of the poorest parts of Africa. For those who are ready to begin living every day with love, joy, and purpose, *Teachable Moments* shares a compelling glimpse into another part of the world that will help others be thankful for every moment and instill positive changes in their own lives. **Teachable Moments** James V. Colubiale, 2023-10-12. While preparing his classroom for his first day as a teacher, Jason discovered his deceased predecessor's 180-day digital lesson plan journal on a computer file entitled *A Classroom Compendium to Whimsy and Delirium* and the *5 Other Dwarfs*. Out of sheer curiosity, he began to read from the log and quickly realized that he was learning more about teaching from this journal than from any college education class he ever took. **Teachable** **Monuments** Sierra Rooney, Jennifer Wingate, Harriet F. Senie, 2021-03-11. Monuments around the world have become the focus of intense and sustained discussions, activism, vandalism, and removal. Since the convulsive events of 2015 and 2017, during which white supremacists committed violence in the shadow of Confederate symbols, and the 2020 nationwide protests against racism and police brutality, protesters and politicians in the United States have removed Confederate monuments as well as monuments to historical figures like Christopher Columbus and Dr. J. Marion Sims, questioning their legitimacy as present-day heroes. That their place in the public sphere reinforces the essays included in this anthology offer guidelines and case studies tailored for students and teachers to demonstrate how monuments can be used to deepen civic

and historical engagement and social dialogue Essays analyze specific controversies throughout North America with various outcomes as well as examples of monuments that convey outdated or unwelcome value systems without prompting debate

Teachable Moments Johnny White, 2021-05-18 Teachable Moments is a personal reflection on the world's most familiar prayer taken from the lips of Jesus Himself repeated in every language on a weekly basis in churches throughout the world Written in a readable and thought provoking style Teachable Moments will prompt new thoughts about Jesus's radical theology of God as Abba Father When Jesus taught his disciples this brief prayer he had an agenda much larger than just the words we pray He was addressing our understanding of God and the nature of our relationship with God He was teaching about the nature of citizenship in God's Kingdom on earth as it is in heaven Kingdom citizens practice forgiveness breaking the unhealthy cycle of revenge and retaliation Jesus warned about temptation and the nature of pervasive evil in the world Jesus's goal was to correct all the wrong-headed misconceptions the world has accumulated about the one true God who He understood as Abba Father Finally this provocative book asks the all-important question What kind of Jesus says and teaches things like these Who is the Jesus we are following

A Sincere and Teachable Heart Richard Bellon, 2015-01-27 In *A Sincere and Teachable Heart* Self-Denying Virtue in British Intellectual Life 1736-1859 Richard Bellon demonstrates that respectability and authority in eighteenth and nineteenth-century Britain were not grounded foremost in ideas or specialist skills but in the self-denying virtues of patience and humility Three case studies clarify this relationship between intellectual standards and practical moral duty The first shows that the Victorians adapted a universal conception of sainthood to the responsibilities specific to class gender social rank and vocation The second illustrates how these ideals of self-discipline achieved their form and cultural vigor by analyzing the eighteenth-century moral philosophy of Joseph Butler John Wesley Samuel Johnson and William Paley The final reinterprets conflict between the liberal Anglican Noetics and the conservative Oxford Movement as a clash over the means of developing habits of self-denial
