every staff room      **Foundations of Education: History and theory of teaching children and youths with visual impairments** M. Cay Holbrook, Alan J. Koenig, 2000      *Raising and Teaching Children for Their Tomorrows* Albert H. Yee, 2011-02 Why are mental developments during childhood so important to children's futures? The leading premise of this book is that children's early life experiences forever shape their ability to learn, think, and conduct their adult lives. International tests consistently disgrace the schooling and achievement of U.S. students. The public is either unaware of the disaster or hasn't taken it seriously, even though it's equivalent to the catastrophes of Pearl Harbor and 9/11. According to Wayne H. Holtzman, PhD, Dean, College of Education, retired President, Hogg Foundation for Mental Health, retired The University of Texas at Austin, Al's keen insight into the emotional socialization, learning, and creative thinking of a developing child in our ever more complex world is indeed impressive. Any parent or teacher could profit from a careful reading of this thought-provoking book. Albert Yee, EdD, 1965. Stanford has served as a distinguished classroom teacher for seven years in California and 30 years as professor of psychology and education and academic dean in America and East Asia. For his outstanding service and original research and publications, he has been elected a Fellow of the American Association for the Advancement of Science, American Psychological Association, American Psychological Society, and Society for the Psychological Study of Social Issues. Al is proud of his children's success and having raised them. His daughter is a surgery professor specializing in breast cancer, and his son is a State Dept Foreign Service Officer whose recent posts have been consul general in Greece and Director, Provisional Reconstruction Teams in Afghanistan.      *Primary Education*, 1927

Kent Chrisman, 2016-03-15 The general public often views early childhood education as either simply babysitting or as preparation for later learning. Of course, both viewpoints are simplistic. Deep understanding of child development, best educational practices based on development, emergent curriculum, cultural competence, and applications of family systems are necessary for high-quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research, accurate practical applications of research, historical foundations, and key facts from the field of contemporary early childhood education. Through approximately 425 entries, this work includes all areas of child development: physical, cognitive, language, social,

emotional aesthetic as well as comprehensive review of best educational practices with young children effective preparation for early childhood professionals and policy making practices and addresses such questions as How is the field of early childhood education defined What are the roots of this field of study How is the history of early childhood education similar to yet different from the study of public education What are the major influences on understandings of best practices in early childhood education

*Overview: MELQO* UNESCO, UNICEF, World Bank, Brookings Institution (USA). Center for Universal Education, 2017-08-14 The Measuring Early Learning Quality and Outcomes MELQO initiative began in 2014 as part of the global emphasis on early childhood development ECD Led by UNESCO the World Bank the Center for Universal Education at the Brookings Institution and UNICEF the initiative aims to promote feasible accurate and useful measurement of children's development and learning at the start of primary school and of the quality of their pre primary learning environments Items are designed for children between the ages of 4 and 6 years Following the premise that many existing tools include similar items the leading organizations core team worked with a consortium of experts non governmental organizations NGOs and multilaterals to build upon current measurement tools to create a common set of items organized into modules for measuring 1 early childhood development and learning and 2 the quality of pre primary learning environments The MELQO core team and experts also collaborated to outline a process for context specific adaptation of the measurement modules resulting from lessons learned from field testing in several countries in 2015 and 2016 The modules are designed to be implemented at scale with an emphasis on feasibility for low and middle income countries LMICs A key question addressed by MELQO was the balance between a global tool suitable for use everywhere and local priorities and goals for children's development
