The Canadian Teacher ... Gideon E. Henderson,Matthew Parkinson,1898 **Practice and Profile** Johan Hegeman,Margaret Edgell,Henk Jochemsen,2011-02-28 Too many students are disappointed They want to make a difference in their chosen professions They are inspired by successful visionaries but they have little idea how to follow in their oversized footsteps Their colleges and universities promise more professional development than they can possibly deliver especially in terms of moral development for the professions Experts coming from a range of perspectives in higher education agree that moral formation for the professions must increasingly take place in higher education Tragically the recent evolution of teaching has stripped educators of much of the rationale for moral formation The recent record of moral lapses by managers testifies to this crisis of moral education The authors call for a revival of moral formation in higher education for the professions They supply the needed resources to redesign classic as well as cutting edge teaching and learning toward practical moral education in the

professions This book is carefully designed to apply traditional Christian principles appropriately to evolving professional practices The authors strategies address the problems surrounding calling vocation and the growing need for virtue training in the professions In particular the authors provide clear direction for how to meet the need for professional profiles that meet the standards of the marketplace Practice and Profile provides the reader with a tested and proven model of faith formation appropriate to the professions It also goes into specific useful detail as to how the model mobilizes learning in classroom and professional settings It aids institutions of higher learning in their struggle with demands for new learning environments and new moral competencies Foremost it gives students a grasp of how to become dedicated professionals who make a difference

The Training of Teachers in England and Wales Peter Sandiford,1910 *Prominent Internal Possessors* András Bárány,Oliver Bond,Irina Nikolaeva,2019-03-28 This volume is the first to provide a comprehensive cross linguistic overview of an understudied typological phenomenon the clause level argument like behaviour of internal possessors In some languages adnominal possessors or a subset thereof figure more prominently than expected in the phrase external syntax by controlling predicate agreement and or acting as a switch reference pivot in same subject relations There is no independent evidence that such possessors are external to the possessive phrase or that they assume head status within it This creates a puzzle for virtually all syntactic theories as it is generally believed that agreement and switch reference target phrasal heads rather than dependents Following an introduction to the typology of the phenomenon and an overview of possible syntactic analyses chapters in the volume offer more focussed case studies from a wide range of languages spoken in the Americas Eurasia South Asia and Australia The contributions are largely based on novel data collected by the authors and present thorough discussions of the syntactic semantic and pragmatic properties of prominent internal possessors in the relevant languages The volume will be of interest to researchers and students from graduate level upwards in the fields of comparative linguistics syntax typology and semantics

Sandu Dughi,Jesus de la Fuente,2023-11-08 The question of what makes a good teacher has been asked by practitioners policymakers and researchers Teachers are important drivers of student success in the immediate term such as academic success Nowadays the education process is influenced by various factors which can all have a strong effect on the quality of teaching and learning Having the intention to create high quality teaching and learning it is very important to clearly determine what those factors are and what kind of effect they have on the education process Different teacher characteristics and competencies have been distinguished in the literature as being relevant predictors of their instructional quality Even though educational psychology has emphasized the significance of the personality role in the education process the empirical evidence on the relationship between teacher characteristics and instructional quality is not yet conclusive Certainly there is much more to find out
