Teachers Behaving Badly? Kate Myers, 2004-10-21 Behaviour that involves an abuse of a teacher's position of trust or a breach of the standards of propriety is regarded as misconduct and may lead to a teacher being barred from the teaching profession. This book offers the school leader advice on making decisions arising from misconduct or alleged misconduct of their staff. It addresses issues such as how to deal with an allegation of a teacher's sexual misconduct, how to judge when a relationship between a pupil and teacher becomes abusive, how to decide what to do about drug abuse, how to support an outed gay or lesbian teacher, how to decide when private matters become public ones, how to deal with the media. Often there are no clear cut answers or easy solutions but this book will raise the dilemmas and explain the employment and criminal law in jargon free language. School leaders have to make important decisions about such incidents considering their responsibility to their staff, to the local community and to their pupils. Leadership training rarely includes exposure to these issues but most people working in schools may have to face them at some point in their career. *Teachers Behaving Badly* draws on real cases and explores the dilemmas faced, offering practical and legal advice to help school leaders prepare for such critical incidents.

**The Fear of Child Sexuality** Steven Angelides,2019-08-28 Continued public outcries over such issues as young models in sexually suggestive ads and intimate relationships between teachers and students speak to one of the most controversial fears of our time the entanglement of children and sexuality In this book Steven Angelides confronts that fear exploring how emotional vocabularies of anxiety shame and even contempt not only dominate discussions

of youth sexuality but also allow adults to avoid acknowledging the sexual agency of young people. Introducing case studies and trends from Australia, the United Kingdom, and North America, he challenges assumptions on a variety of topics including sex education, age of consent laws, and sexting. Angelides contends that an unwillingness to recognize children's sexual agency results not in the protection of young people but in their marginalization. The Spirit of the School Julian Stern, 2011-11-03. Recent interest in personalized learning and the issues raised by Every Child Matters have led to renewed enthusiasm for the more personal and holistic aspects of schooling. This fascinating monograph draws on empirical evidence from schools across the world to answer key questions such as: What is the spirit of the school? How does it differ from school ethos? What can teachers and pupils do to contribute to the spirit of the school? Drawing heavily on research into learning theories from the social constructivist tradition, community from the philosophy of John Macmurray, and dialogue from the philosophy of Martin Buber, Julian Stern's unique and illuminating book will stimulate fresh thinking about spiritual education.

School Leadership - Heads on the Block? Pat Thomson, 2009-05-07. Most teachers become heads for idealistic reasons, but heads are leaving work and there is a shortage of applicants for school leadership roles. Arguing that pressure needs to be lifted from heads if this is to be redressed, this book considers initial moves that could precipitate such change. *American Educational Research Association Annual Meeting Program* American Educational Research Association, 2005. **The New School Leader for the 21st Century** Edward H. Seifert, James A. Vornberg, 2002-10-16. Veteran educators Seifert and Vornberg utilize the six standards created by the Interstate School Leaders Consortium (ISLLIC) and used in developing and redesigning preparation programs and state certification examinations to discuss those issues faced by practicing elementary and secondary school principals. Each chapter begins with a short case study emanating from a fictitious school district and culminates with student activities that address the concepts discussed in the chapter. Questions and activities follow and provide the reader with an opportunity to apply the concepts discussed. This design makes it an ideal text for use with principal certification programs offered by higher education units and other alternative certification programs. The practice of the principalship is viewed by the authors as a systematic process that addresses the operation of a school as a set of interrelated parts and skills that work together to create a self-correcting model of student learning, teaching, and stakeholder participation. An instructor's manual is available as a separate publication. *Cases on Leadership Dilemmas in Special Education* DeSimone, Janet R., Roberts, Laura A., 2023-09-28.
