Contemporary American Jewelry Design Ettagale Blauer,2013-06-29 The Phenomenon of Studio Goldsmithing When the history of art in the 1980s is written much of it will be etched in gold This is the time of the contemporary goldsmith an artist who chooses to work in precious metals rather than oils or marble The contemporary jeweler as artist has only recently become a recognized force With rare exceptions the whole field is little more than thirty years old But it is only within the past fifteen years that these jewelers have entered the jewelry mainstream The phenomenon of contemporary goldsmithing embraces an eclectic group of artists each with a unique vision each taking a personal path to jewelry producing They have as little relationship to the typical mass produced jewelry as a champagne maker has to a bottler of orange soda They approach a piece of art not a piece of metal The work is personal and a perfect expression of the back to the land movement that spawned it Many of these goldsmiths were looking not merely for a way to make a living but for a way to make a life that was worthy of living Running a business while trying to remain a creative metalsmith at the same time is the ongoing challenge The jeweler artists have solved or resolved these often conflicting needs in slightly different ways and in a beautiful variety of techniques and styles Their methods their growth and their work are discussed here [The Thoughtful Teacher's Guide to Thinking Skills](#) Gary A.
