**Teachers! How to Win the Job You Want** Billie Enz, 2000-08-01      *How to Get the Teaching Job You Want* Robert Feirsen, Seth Weitzman, 2023-07-03

Competition for the best teaching jobs is becoming more intense Since publication of the first edition when it was mainly the most desirable schools that were deluged by applications the economic climate has made the teacher market more competitive across the board and is changing hiring practices Now extensively revised this book maintains its place as the most up to date book available on job hunting for teachers The authors cover changes in the educational marketplace the new mandates about standardized testing and public reporting of student achievement and what they mean for applicants how new certification standards and schools requirements affect career changers the growing acceptance of on line applications and electronic portfolios and provide additional advice for teachers applying to change schools or districts This is also the only guide written by school administrators Offering the insights and experience of two authors who do the hiring it details a step by step program for taking charge of your teaching career *How to Get the Teaching Job You Want* enables you to Match your unique talents to the needs of a particular school Craft effective cover letters and resumes using models that address the specific needs of college graduates teachers changing schools returning teachers and career changers Make effective on line applications Leverage your achievements as an experienced teacher or for graduates or career changers student teaching substitute teaching volunteer work or content knowledge into a job offer Locate jobs on line and discover valuable information about schools including test results educational philosophy and names of key administrators Design a portfolio in book or electronic format to showcase your abilities Practice interview skills using 100 questions taken from real job interviews Apply proven strategies for a variety of interview formats including high stress interviews and performance interviews Address controversial questions during interviews This book covers procedures for applying to elementary middle and high schools public independent and parochial schools as well as international and boarding schools Anecdotes recounting the experiences of real candidates looking for jobs illustrate key points Access to the authors web site ensures that you will stay current in a changing job market This is a vital book for teachers and aspiring teachers who want to achieve their career goals It will also be invaluable for guidance counselors psychologists librarians and other school professionals

**How To Get Any Job You Want** Shane Cuthbert, It would be nice to think that job positions are based on merit But deep down I think we all know that this is not entirely true The job market is not fair even though especially in the public service put a lot of effort into pretending that it is Its competitive Its just that the rules of the competition are more obvious to some than they are to others The only difference between the people who have worked their way up further than you is that they know the rules better than you do That s what gives them the upper hand but its about to be what gives you the upper hand instead They may know the right people as well mind you But the main benefit they get by knowing the right people is when those right people share the right insider knowledge that others are not privy to And

when they have the right knowledge they know the right things to say especially during an interview Most importantly when you know things that others don't you think differently And it's the way that more successful people think that leads them to opportunities that others miss out on This in turn makes them more confident which in turn makes them more appealing to employers especially when it comes to the more competitive jobs In my own companies I've had to employ a lot of people I have reviewed hundreds of job applications and have trained my own HR staff how to look for the hidden red or green predictor flags that indicate how someone thinks which we can use to predict how they will act The red flags mean that no matter what the person's experience we should steer clear of them The green flags mean we should chase after them and compete for them to snatch them up before another employer gets to them first Even if it's in a different industry that other employer becomes our competitor They may not be competing for our customers but they're competing for human talent And the talents that employers crave the most tends to be rare So when we see them we pounce As you read this book you'll learn a few simple tricks and unspoken rules that will make you a green flag candidate in any job you go for This means that employers will be chasing you rather than you chasing them **Get a Teaching Job NOW** Mary C. Clement, 2013-03-11

There ARE jobs for teachers and this step by step guide will help college students and career changers find those jobs and get them Whether you seek a job as a substitute teacher or full time pre school elementary middle or high school teacher the strategies needed to win a job are here The job market has changed and teachers no longer get jobs just by just student teaching in a school Today's candidates need to use online search engines to find openings and then produce a cover letter resume and portfolio that showcases their training Interviewing is much more than answering the question Tell me about yourself Teacher candidates must master the art of the behavior based interview to sell their experience and expertise to employers When a candidate's Facebook page can make or break hiring everything a potential new teacher does is important
