Miller, 1998 A Light in Dark Times Maxine Greene and the Unfinished Conversation features a list of extraordinary contributors who have been deeply influenced by Professor Greene s progressive philosophies While Maxine Greene in the focus for this collection each chapter is an encounter with her ideas by an educator concerned with his or her own works and projects In essence each featured author

takes off from Maxine Greene and then moves forward Just as Maxine Greene herself has this unique and fascinating collection of essays will influence a wide range of worlds arts and aesthetics literature and literacy studies cultural studies school change and improvement the teaching of literacy teacher education peace and social justice women s studies and civil rights

Handbook of Instructional Practices for Literacy Teacher-educators Joyce E. Many, 2001-01-01 This volume offers a unique glimpse into the teaching approaches and thinking of a wide range of well known literacy researchers and the lessons they have learned from their own teaching lives The contributors teach in a variety of universities programs and settings Each shares an approach he or she has used in a course and introduces the syllabus for this course through personal reflections that give the reader a sense of the theories prior experiences and influential authors that have shaped their own thoughts and approaches In addition to describing the nature of their students and the program in which the course is taught many authors also share key issues with which they have grappled over the years while teaching their course others discuss considerations that were relevant during the preparation of this particular syllabus or describe how it evolved in light of student input The book is organized by areas within literacy education reading English language arts literature emergent literacy content area literacy literacy assessment and instruction literacy and technology and inquiries into literacy theory and classroom practice It is accompanied by an interactive Web site <http://msit.gsu.edu/handbook> This online resource provides additional information about the authors courses including complete syllabi recommended readings grading rubrics and sample assignments Readers are invited to respond and contribute their own syllabi and teaching experiences to the discourse generated by the volume

Object Lessons Caren Holtzman, Lynn Susholtz, 2024-11-15 When Caren Holtzman and Lynn Susholtz look around a classroom they see a veritable goldmine of mathematical investigations involving number measurement size shape symmetry ratio and proportion They also think of the ways great artists have employed these concepts in their depictions of objects and space for example Picasso s use of geometric shapes in his Cubist still lifes or contemporary artist Tara Donovan s room sized sculptures of everyday items In their new book *Object Lessons* Caren a math educator and Lynn an artist and art educator use a highly visual approach to show students and teachers the art in math and the math in art Integrating visual arts into math experiences makes the lessons accessible engaging and meaningful for a wide range of students In each chapter the authors use everyday objects to create rigorous hands on activities that address key mathematics standards and concepts Each lesson provides an introduction to the featured object that explains how it connects to key mathematical concepts a discussion of the artists art styles and techniques featured activities organized by grade level and math content area the basic materials required to prepare and teach each lesson a clear picture of what the lesson will look like in a classroom and a list of resources The book and its accompanying CD feature a wonderful gallery of images including art photos and student work and a collection of links to art education organizations museums and Web sites that focus on the work of forty major artists
