Breure, Rob Pincus, 2012-07-27 Some Comments from Lens Students I want you to know that in my many years of being a student you easily rank as the best teacher I have ever had Your skill and patience has made me infinitely more comfortable with my weapons and myself The next class you teach I ll be there in a heartbeat I m sure you don t have to be reminded of the multitude of people you have touched and the positive impact you have had on firearms training overall Bob Patridge Len has taught me to effectively and safely use a handgun and rifle and for that I will always be grateful I look forward to the time I spend once or twice a week under his instruction Len has created a wide range of firearms training programs out of virtually nothing and trained a sizeable and competent cadre of firearms instructors who like me greatly respects the man He is engaged with his students and always approachable Students who have shot much longer than me comment on his great depth of knowledge and ability to improve their shooting He clearly loves to teach the material and his enthusiasm is contagious He has a great sense of humor and makes his classes a lot of fun But in spite of all of this the safety of his students is always his first concern Dr Noel Pillman MD I am a retired police officer and a former police firearms instructor for over 20 years I have been to numerous firearms training classes over the years but have not had any instructors more professional knowledgeable and dedicated to what they do then Len Breure Maurice Merabella Len was my first real tactical instructor a few years ago He is a thorough safe and well versed instructor His teaching style is unique in a way that clearly conveys lessons and makes them easy to understand for experienced shooters and novices alike Len brings a wealth of prior been there done that experience to the table that s an asset to his teaching and is rarely found in many of the new instructors that have come to the arena since most states have enacted concealed carry laws I continue to train with a variety of tactical

instructors and am always amazed by how much of the information Len taught me is still the foundation upon which I build Mike VanMeeteren I have been fortunate enough to receive numerous training courses that were being taught by Len Breure In my opinion Len is one of the best in the business It is very rewarding to be able to learn from someone who has the experience and knowledge to take tactical training to the next level Jim Bryant I first meet Len while taking my Minnesota Concealed Carry Course in 2005 Since that time I have taken every course that Len teaches In my opinion Len is the consummate professional who teaches with passion and an incredible degree of knowledge I would strongly urge anyone interested in personal protection to take Len's courses Mike Pingel

Haberfeld, 2020-12-08 This Brief describes a reality based approach to use of force training in law enforcement an area of growing importance It explains what scenario based training is how it works to improve police community relations and provides a guide for how the training can be implemented This brief will be of value to researchers working to understand the negative impact of use of force on police community relations and interested in alternative approaches that integrate academic research with tactical experience The traditional use of force training paradigm is based on relatively brief training sessions with high student to instructor ratios In scenario based training officers listen to social science based lectures develop a set of scenarios to be tested in a training environment and conclude with a debriefing session that brings together the theoretical with the practical including the consequences of the shooting from the tactical emotional psychological social and economic angles This work will be of interest to researchers in criminology criminal justice sociology psychology and related fields policy makers particularly with interest in police legitimacy and police community relations as well as practitioners in police organization and training

The Survival Code and Situational Awareness
Tony Lee Burleson Phd, 2012-04-20 When it comes to the defensive use of firearms the skill of not being shot is at least as important as the skill of shooting Moving to cover and shooting from cover should be a constant part of Handgun drilling but unfortunately most exercises don't emphasize this aspect of defense In a perfect world the first shots a beginner fires would be from behind cover Seeking cover while drawing or firing should be an instinct you are training yourself every time you handle a gun and if you stand out in the open when shooting drills you are training yourself to stand out In the open when returning fire an immobile and easy target as is very often observed in law enforcement shootings The antidote is to shoot from cover from the very outset and keep it a constant part of your training As law enforcement training shifts to this

paradigm they observe that officers who come up for qualification are uneasy firing in the open they instinctively prefer to shoot from Behind cover when it is available There is very little use of cover in these drills which is why I mention it here They can however be adapted It is up to you to give yourself the kind of training you want to have *Women & Guns* ,2006
