The Fate Of Desire

Christopher Scott McClure

The Fate Of Desire:

The Fate of Desire James S. Hans, 1990-07-05 The Fate of Desire examines the problems of living in a decentered world. Assuming that the poststructuralist declaration of the end of man is an essential aspect of our current ways of thinking, the book focuses on the positive values inherent in this shift. In substituting multiplicity and fields of play for identity and hierarchy and in distinguishing between desire as fullness and desire as lack, Hans argues for a vision of existence that is based on the difficulties Nietzsche posited as an inevitable part of fully affirming the rich but tragic nature of life. These reconceptions of the human scene redefine self-discipline in terms of understanding and loving one's fate. Instead of providing yet one more critique of the flawed values through which the Western world has constituted itself, The Fate of Desire takes up the task of weighing the things of the world anew, revaluing them in terms of our present understanding of our positions in the world. Hans suggests that if we are fated to be driven by desire and if we are led to accept the ways in which our desire manifests itself according to our own individual fates, there is still every reason to believe that humans can find a productive way of understanding and fully occupying their place in the world.

But when a wounded succubus stumbles into his sanctuary, everything changes. Perfect for fans of dark fantasy, slow burn romance, and epic world building, Fate's Desire is the first chapter in a thrilling new saga where gods and monsters collide and desire may shape the fate of an entire world.

The Chronicles of Alina: Fate's Desire Part One: The God and the Succubus by Anthony Jackson Jr. In a world shaped by magic war and the eternal struggle between chaos and order, destiny weaves a tale of forbidden encounters and cosmic consequences. Differences Emily Parker,Anne M. Van Leeuwen,2018 Simone de Beauvoir and Luce Irigaray famously insisted on their philosophical differences and this mutual insistence has largely guided the reception of their thought What does it mean to return to Simone de Beauvoir and Luce Irigaray in light of questions and problems of contemporary feminism including intersectional and queer criticisms of their projects How should we now take up amplify and surpass the horizons opened by their projects Seeking answers to these questions the essays in this volume return to Beauvoir and Irigaray to find what the two philosophers share And as the authors make clear the richness of Beauvoir and Irigaray's thought far exceeds the reductive parameters of the Eurocentric bourgeois second wave debates that have constrained interpretation of their work The first section of this volume places Beauvoir and Irigaray in critical dialogue exploring the place of the material and the corporeal in Beauvoir's thought and in doing so reading Beauvoir in a framework that goes beyond a theory of gender and the humanism of phenomenology The essays in the second section of the volume take up the challenge of articulating points of dialogue between the two focal philosophers in logic ethics and politics Combined these essays resituate Beauvoir and Irigaray's work both historically and in light of contemporary demands breaking new ground in feminist philosophy

Rising from the Ruins Garth Jackson Gillan,2012-02-01 Rising from the Ruins is an assessment of reason being and the good in a world fractured by the passage of the Shoah or Holocaust The historical character of evil that appeared in the Shoah damaged the relationship of human existence to being creating a time when the confidence of reason to possess the truth no longer exists Rising from the Ruins relocates the relationships among being reason and the good in terms of a metaphysics ethics and politics that derive from faith and heteronomy Rather than another attempt to document the horror of the Shoah this book chronicles what the world is like for those who have read and listened to previous accounts Rising from the Ruins doesn't celebrate surviving the Holocaust instead it speaks of a rationality that sees truth and the good through the eyes of suffering and the silence of death Such a rationality Gillan suggests looks more like faith and it takes its place among the sweat and tears of common men and women who are dedicated to building a human city populated with children the poor the sick and the aged *Desire's Direction* Jayson Sherrod,2006-03 *New Essays on American Drama* Gilbert Debusscher, Henry I. Schvey, Marc Maufort,1989 **Modernity at Sea** Cesare Casarino,2002 At once a literary philosophical meditation on the question of modernity and a manifesto for a new form of literary criticism Modernity at Sea argues that the nineteenth century sea narrative played a crucial role in the emergence of a theory of modernity as

permanent crisis In a series of close readings of such works as Herman Melville's *White Jacket* and Moby Dick Joseph Conrad's *The Nigger of the Narcissus* and *The Secret Sharer* and Karl Marx's *Grundrisse* Cesare Casarino draws upon the thought of twentieth century figures including Giorgio Agamben Louis Althusser Walter Benjamin Leo Bersani Gilles Deleuze Félix Guattari and Antonio Negri to characterize the nineteenth century ship narrative as the epitome of Michel Foucault's heterotopia a special type of space that simultaneously represents inverts and contests all other spaces in culture Elaborating Foucault's claim that the ship has been the heterotopia par excellence of Western civilization since the Renaissance Casarino goes on to argue that the nineteenth century sea narrative froze the world of the ship just before its disappearance thereby capturing at once its apogee and its end and producing the ship as the matrix of modernity [The Abyss of Freedom](#) Slavoj Žižek, 1997 An essay by philosopher Slavoj Žižek with an English translation of Schelling's beautiful and evocative *Ages of the World* second draft

Self-Interest Vs. Altruism in the Global Era Michael Laitman, 2011-01-01 Self Interest vs Altruism in the Global Era regards the world's challenges as necessary consequences of humanity's growing egotism rather than a series of errors The book suggests ways to use our egos for society's benefit rather than trying to suppress them The book offers a novel understanding of humanity's existence on this planet a bird's eye view of history as a record of humankind's growing egotism as well as a solution to our current social challenges [The Slayers of Moses](#) Susan A. Handelman, 2012-02-01 In this groundbreaking study Susan Handelman examines the theological roots of the modern science of interpretation She defines current structures of thought and patterns of organizing reality clearly distinguishes them from previously reigning Hellenic modes of abstract thought and connects them with important elements of the Rabbinic interpretive tradition Hers is the first comprehensive treatment of the undeniable and undeniably significant influence of Jewish religious thought on contemporary literary criticism Dr Handelman shows how they provide a crucial link among several of the most influential modern theories of textual interpretation from Freud to the Deconstructionist School of Lacan and Derrida as well as current literary theorists who revive Rabbinic hermeneutics such as Harold Bloom and Geoffrey Hartman

Peripheral Desires Robert Deam Tobin, 2015-10-29 In *Peripheral Desires* Robert Deam Tobin charts the emergence from the 1830s through the early twentieth century of a new vocabulary and science of human sexuality in the writings of literary authors politicians and members of the medical establishment in German speaking central Europe and observes how consistently these writers thinkers and scientists associated the new nonnormative sexualities with places away from the German metropolises of Berlin and Vienna In the writings of Aim e Duc and Lou Andreas Salom Switzerland figured as a place for women in particular to escape the sexual confines of Germany The sexual ethnologies of Ferdinand Karsch Haack and the popular novels of Karl May linked nonnormative sexualities with the colonies and in particular with German Samoa Same sex desire was perhaps the most centrifugal sexuality of all as so called Greek love migrated to numerous places and peoples a curious connection between homosexuality and Hungarian nationalism emerged in the writings of Adalbert Stifter and Karl Maria Kerbeny Arnold Zweig built on a long and extremely well developed gradation of associating homosexuality with Jewishness projecting the entire question of same sex desire onto the physical territory of Palestine and Thomas Mann of course famously associated male male desire with the fantastically liminal city of Venice lying between land and sea Europe and the Orient As Germany and German speaking Europe became a fertile ground for homosexual subcultures in the nineteenth and early twentieth centuries what factors helped construct the sexuality that emerged *Peripheral Desires* examines how and why the political scientific and literary culture of the region produced the modern vocabulary of sexuality

The ^AWallflower Avant-Garde Brian Glavey, 2015-11-02 *The Wallflower Avant Garde* argues for the importance of a strain of modernist formalism based in ekphrasis the literary imitation of the visual arts **Politics, Desire, and the Hollywood Novel** Chip Rhodes, 2008-09 The story of what happens when a serious writer goes to Hollywood has become a cliché the writer is paid well but underappreciated treated like a factory worker and forced to write bad formulaic movies Most fail become cynical drink to excess and at some point write a bitter novel that attacks the film industry in the name of high art Like many too familiar stories this one neither holds up to the facts nor helps us understand Hollywood novels Instead Chip Rhodes argues these novels tell us a great deal about the ways that Hollywood has shaped both the American political landscape and American definitions of romance and desire Rhodes considers how novels about the film industry changed between the studio era of the 1930s and 1940s and the era of deregulated film making that has existed since the 1960s He asserts that Americans are now driven by cultural rather than class differences and that our mainstream notion of love has gone from repressed desire to abnormal desire to finally strictly business *Politics Desire and the Hollywood Novel* pays close attention to six authors Nathanael West Raymond Chandler Budd Schulberg Joan Didion Bruce Wagner and Elmore Leonard who have toiled in the film industry and written to tell about it More specifically Rhodes considers both

screenplays and novels with an eye toward the different formulations of sexuality art and ultimately political action that exist in these two kinds of storytelling
