Mackey, 2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey in human employs is consistent with the current treatment of topics development This approach which is grounded in a variety of diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so **Hunger and Work in a Savage Tribe** Audrey Richards, 2013-12-16 *Hunger and Work in a Savage Tribe* examines the cultural aspects of food and eating among the Southern Bantu taking as its starting point the bold statement nutrition as a biological process is more fundamental than sex When it was first published in 1932 with a preface by Malinowski it laid the groundwork for sociological theory of nutrition Richards was also among the first anthropologists to establish women s lives and the social sphere as legitimate subjects for anthropological study **Sex and Repression in Savage Society** Bronislaw Malinowski, 2003-09-02 Part of the new Routledge Classics series Malinowski was one of the founders of social anthropology and one of the first to become involved in ethnographic fieldwork A core primary text for undergraduates in anthropology philosophy and psychology *Crime and Custom in Savage Society* Bronislaw Malinowski, 1926 **Violence and the Sacred** René Girard, 1979 His fascinating and ambitious book provides a fully developed theory of violence as the heart and secret soul of the sacred Girard s fertile combative mind links myth to prophetic writing primitive religions to classical

tragedy Lost and Found Paul Florsheim, David Moore, 2020-01-02 Over the past six decades there have been dramatic changes in the dynamics of family life in the United States Today about half of all babies born to mothers under the age of 25 will not live with their fathers for much of their childhood From the perspective of many social scientists and politicians this change has wreaked havoc on society by trapping women and children in poverty and loosening the civilizing bond between men and their families But what is causing the phenomenon Some place blame at the feet of the young men themselves together with eroding cultural and family values Others point to systemic failures in our economy or social support programs Rather than assign blame the first goal of *Lost and Found* is to tell the stories of young men as they struggle with varying degrees of success to become fathers The second goal is to outline a strategy for helping young fathers remain constructively involved with their partners and children Drawing from their research with over 1 000 young parents in Chicago and Salt Lake City Paul Florsheim and David Moore focus on a group of about 20 young fathers whose stories conveyed in their own words help the reader make sense of what is happening to fatherhood in America Having interviewed young fathers and their partners before and after their children were born these accounts provide a dynamic perspective on the development of young men and their relationships Young mothers the partners of these young men both corroborate and sometimes offer alternative or contradictory perspectives Oriented to undo stereotypes the authors introduce the notion of good enough fathering tempering the tendency to think simply in terms of good or bad fathers They go on to provide concrete recommendations for strengthening fathers roles and helping young fathers and mothers create stable home environments for their children whether the parents are together or not
