Creating Fear David L. Altheide, 2018-05-04 The creative use of fear by news media and social control organizations has produced a discourse of fear the awareness and expectation that danger and risk are lurking everywhere Case studies illustrates how certain organizations and social institutions benefit from the exploitation of such fear construction One social impact is a manipulated public empathy We now have more victims than at any time in our prior history Another more troubling result is the role we have ceded to law enforcement and punishment we turn ever more readily to the state and formal control to protect us from what we fear This book attempts through the marshalling of significant data to interrupt that vicious cycle of fear discourse Report to the Nation on Crime and Justice United States. Bureau of Justice Statistics, 1983

Sex Differences in Fear Response Anne Campbell, Lee T Copping, Catharine P Cross, 2021-04-10 This book reviews the evolutionary forces behind sex differences in fear responses and crucially delves into the mechanisms through which sexual selection might have driven sex differences in connection with fear Fear is an evolved mechanism that helps us stay alive but is also an emotion experienced more intensely more frequently and longer in women than in men This book therefore asks the following question Why might evolution have made women more motivated than men to avoid danger It provides an overview of the brain areas underpinning the experience of fear and evaluates the evidence that these areas manifest sex specific differences in their structure and function Given its scope the book will be essential reading for anyone interested in an evolutionary perspective on psychological sex differences Communication Yearbooks Vols 6-33 Set Various, 2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training Leadership and Relationships Media Performance Assessment Cognitive Approaches to Communication

Handbook of Clinical Behavior Therapy with Adults Alan S. Bellack,Michel Hersen,2012-12-06 Despite the occasional outcries to the contrary the field of behavior therapy is still growing and the asymptote has not been reached yet The umbrella of behavior therapy continues to enlarge and still is able to encompass new theories new concepts new research new data and new clinical techniques Although the number of new behavioral journals now has stabilized we still see a proliferation of books on the subject In the past few years however we have seen considerable specialization within behavior therapy No longer is it possible to be a generalist and remain fully abreast of all the relevant developments Thus we see behavior therapists who deal with adults those who deal with children those whose specialty is hospital psychiatry and those who see themselves as practitioners of behavioral medicine Even within a subarea such as behavioral medicine specialization runs supreme to the extent that there are experts in the specific addictions adult medical problems and child medical problems Given the extent of specialization there are numerous ways to skin the proverbial cat We therefore have chosen to look at the contemporary work in behavior therapy that is being carried out with adults in part of course because of our long standing interest in this area as teachers researchers and clinicians In so doing we have chosen to highlight the clinical aspects of the endeavor but not at the expense of the rich research heritage for each of the specific adult disorders
