document of the anti apartheid struggle and the Cold War period depicting the Soviet model from an African perspective and the specific meaning it held for those envisioning a future South Africa For many members of the African National Congress and the South African Communist Party the Soviet Union represented a political system that had achieved political and economic justice through socialism a point of view that has since been lost with the collapse of the USSR and the end of the Cold War This new edition of *A Soviet Journey* the first since 1978 restores this vision to the historical record highlighting how activist intellectuals like La Guma looked to the Soviet Union as a paradigm of self determination decolonization and postcolonial development The introduction by Christopher J Lee discusses these elements of La Guma s text in addition to situating La Guma more broadly within the intercontinental spaces of the Black Atlantic and an emergent Third World Presenting a more expansive view of African literature and its global intellectual engagements *A Soviet Journey* will be of interest to readers of African fiction and non fiction South African history postcolonial Cold War studies and radical political thought

Jews Against Themselves Edward Alexander, 2017-07-05 This volume features powerful essays by Edward Alexander on the phenomenon of anti Zionism on the part of the Jewish intelligentsia It also analyses the explosive growth of traditional anti Semitism especially in Europe among intellectuals and Muslims Alexander notes that anti Zionism has established a presence even in Israel where it frequently takes the form of intellectuals sympathizing with their country s enemies and perversely apologizing for their own existence Alexander begins with an examination of the origins of Jewish self hatred in nineteenth century Europe He then explores the mindset of disaffected Jews in reacting or failing to react to the two events that shape modern Jewry the Holocaust and the founding of the State of Israel The book concludes with a focus on contemporary anti Zionism including three essays about the role played by Jews in the Boycott Divestment and Sanctions Movement to expel Israel from the family of nations A final essay addresses the need for American Jews to decide whether they are going to judge Judaism by the standards of The New York Times or The New York Times by the standards of Judaism

Earth Piet Rooy,2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the *Prinsjesboekenprijs* for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the nineteenth and twentieth centuries **Surveillance, the Cold War, and Latin American**

The Citizen's Voice Michael Keren,2003 Michael Keren traces the political lives and messages of some of the twentieth century s greatest literary characters in this insightful and jargon free book of literary criticism He observes the infamous characters ranging from Joseph K from Franz Kafka s The Trial to Ralph from William Golding s Lord of the Flies to Chauncey Gardiner from Jerzy Kosinski s Being There and beyond while they struggle through their lives and world events The Citizen s Voice is a refreshing contribution to civil society theory that makes a pioneering effort to cross the boundaries between politics literature and culture A study of the human condition via literature this book expounds the key features of a good citizen while offering a perfect discussion piece for courses in political theory politics and literature and history

The Bourgeois Epoch Richard F. Hamilton,2017-10-06 Richard Hamilton provides an in depth critique of the writings of Karl Marx and Friedrich Engels on Britain France and Germany Hamilton contends that the validity of their principal historical claims has been assumed more often than investigated and he reviews the logic of their historical arguments citing relevant sources that challenge many of the assertions they used to build their theory of inexorable historical change Although Marx emphasized the need for systematic empirical research into historical events he and Engels in fact relied on impressionistic evidence to support their claims of how fault lines were forming in capitalist society Marxist theory Hamilton concludes is poorly supported in the historical analysis supplied by its original formulators In showing that the historical record points to alternative readings of the course of social economic and political development in Western society Hamilton argues that class boundaries tend to be fluid and that major change is more often than not the product of evolutionary rather than revolutionary forces Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

British Propaganda and News Media in the Cold War John Jenks,2006-04-19 This is a study of the British state s generation suppression and manipulation of news to further foreign policy goals during the early Cold War Bribing editors blackballing unreliable journalists creating instant media experts through provision of carefully edited inside information and exploiting the global media system to plant propaganda disguised as news around the world these were all methods used by the British to try to convince the international public of Soviet deceit and criminality and thus gain support for anti Soviet policies at home and abroad Britain s shaky international position heightened the importance of propaganda The Soviets and Americans were investing heavily in

propaganda to win the hearts and minds of the world and substitute for increasingly unthinkable nuclear war The British exploited and enhanced their media power and propaganda expertise to keep up with the superpowers and preserve their own global influence at a time when British economic political and military power was sharply declining This activity directly influenced domestic media relations as officials used British media to launder foreign bound propaganda and to create the desired images of British public opinion for foreign audiences By the early 1950s censorship waned but covert propaganda had become addictive The endless tension of the Cold War normalized what had previously been abnormal state involvement in the media and led it to use similar tools against Egyptian nationalists Irish republicans and British leftists Much more recently official manipulation of news about Iraq indicates that a behind the scenes examination of state propaganda s earlier days is highly relevant John Jenks draws heavily on recently declassified archival material for this book especially files of the Foreign Office s anti Communist Information Research Department IRD propaganda agency and the papers of key media organisations journalists politicians and officials Readers will therefore gain a greater understanding of the depth of the state s power with the media at a time when concerns about propaganda and media manipulation are once again at the fore
