The Fight To Save The Redwoods:

The Fight to Save the Redwoods Susan R. Schrepfer, 2003-04-01 This is not a simple or ordinary history of a conservation crusade Schrepfer very ably traces the changes in scientific wisdom from nineteenth century romanticism and teleological evolutionism to more current ecological dynamism and the influence of those intellectual developments on political history The subject is important much broader than the title suggests and so is the book *American Historical Review* *Fight to Save the Redwoods : a History of Envir...* Susan R. Schrepfer, Eugenic Nation Alexandra Minna Stern, 2016 With an emphasis on the American West *Eugenic Nation* explores the long and unsettled history of eugenics in the United States This expanded second edition includes shocking details that demonstrate that the story is far from over Alexandra Minna Stern explores the unauthorized sterilization of female inmates in California state prisons and ongoing reparations for North Carolina victims of sterilization as well as the topics of race based intelligence tests school segregation the U S Border Patrol tropical medicine the environmental movement and opposition to better breeding Radically new and relevant this edition draws from recently uncovered historical records to demonstrate patterns of racial bias in California s sterilization program and to recover personal experiences of reproductive injustice Stern connects the eugenic past to the genomic present with attention to the ethical and social implications of emerging genetic technologies Provided by publisher **Historic**

Resource Study for Muir Woods National Monument John Eric Auwaerter, John F. Sears, 2006 *The Politics of Persuasion*, 2018 This project is an environmental and political analysis of the 1968 creation of Redwood National Park in northwestern California As the most expensive public lands acquisition ever authorized by Congress Redwood National Park represents a crucial point in the evolution of the American conservation movement This paper examines the cause and nature of the conflict that arose between the Sierra Club and the Save the Redwoods League two of California s oldest and most influential conservation organizations over the location and scope of a Redwood National Park and what effect that conflict had upon the final iteration of the Park once it was signed into law on October 2 1968 It will examine the methods of political influence through which the Club and the League each fought for the Park that they believed to be most essential to the continued protection of *Sequoia sempervirens* This paper will build on the framework established by Susan Schrepfer in her 1983 book *The Fight to Save the Redwoods* and examine the conflict through the dual lenses of the Sierra Club s populist driven approach and the Save the Redwoods League s elitist driven approach Finally this paper will delineate how the last remaining old growth redwood stands on Earth were held hostage to a political standoff and shall prove that the creation of Redwood National Park represents a pivotal point in the evolution of the American conservation movement Through an examination of political influence and environmental agency this paper contributes to our understanding of the modern conservation movement in the United States **Who Saved the Redwoods** Laura and James Wasserman, 2019-05-01 Powerful lumber interests stood in the way of the first campaigns to save the redwood trees of Humboldt County California

but they were boldly opposed and pushed back This history of the early 1900s recalls the Progressive Era crusades of women and men who prevailed against great odds protecting the best of California s northern redwood forests This book tells the forgotten dramatic story of early 20th century Californians and other Americans who were the first group to preserve an important span of California s northern redwood forests a story never told before in one place Numerous books have been published about battles to save the redwoods particularly during the California redwood wars of the 1960s 1970s and 1990s But no book exclusively details the first fights during the 1920s and 1930s and portrays the significant role of women By successfully fending off the logging industry they paved the way for the modern environmental movement The book incorporating archived material that highlights for the first time the prominent role of women covers the most formative period of early efforts to save the redwoods the 21 years from 1913 through 1934 The story recounts a colorful moment in time when a paradigm firmly shifted toward preservation and a new generation of native Californians successfully faced down Eastern lumber interests over destruction of their beautiful ancient forests The storyline follows a trajectory of initial failure and ridicule then limited successes and the determination that overcame the entrenched intransigence of lumber interests Finally a historic rush of stunning preservation victories established Humboldt Redwoods State Park as the largest expanse of surviving old growth redwoods on earth This book offers a definitive account of a pivotal moment in environmentalism and a new explanation of how forceful determined people a century ago preserved the great California redwood forests that are now enjoyed by millions of visitors from every corner of earth This book tells the forgotten dramatic story of early 20th century Californians and other Americans who were the first group to preserve an important span of California s northern redwood forests a story never told before in one place By successfully fending off the logging industry they paved the way for the modern environmental movement The book incorporating archived material that highlights for the first time the prominent role of women covers the most formative period of early efforts to save the redwoods the 21 years from 1913 through 1934 The story recounts a colorful moment in time when a paradigm firmly shifted toward preservation and a new generation of native Californians successfully faced down Eastern lumber interests over destruction of their beautiful ancient forests The storyline follows a trajectory of initial failure and ridicule then limited successes and the determination that overcame the entrenched intransigence of lumber interests Finally a historic rush of stunning preservation victories established Humboldt Redwoods State Park as the largest expanse of surviving old growth redwoods on earth This book offers a definitive account of a pivotal moment in environmentalism and a new explanation of how forceful determined people a century ago preserved the great California redwood forests that are now enjoyed by millions of visitors from every corner of earth

City of Wood James Michael Buckley, 2024-11-19 2025 John Brinckerhoff Jackson Prize Association of American Geographers How San Franciscans exploited natural resources such as redwood lumber to produce the first major metropolis of the American West California s 1849 gold rush triggered creation of the instant city of San

Francisco as a base to exploit the rich natural resources of the American West City of Wood examines how capitalists and workers logged the state's vast redwood forests to create the financial capital and construction materials needed to build the regional metropolis of San Francisco Architectural historian James Michael Buckley investigates the remote forest and its urban core as two poles of a regional city This city consisted of a far reaching network of spaces produced as company owners and workers arrayed men and machines to extract resources and create human commodities from the region's rich natural environment Combining labor urban industrial and social history City of Wood employs a variety of sources including contemporary newspaper articles novels and photographs to explore the architectural landscape of lumber from backwoods logging camps and company towns in the woods to busy lumber docks and the homes of workers and owners in San Francisco By imagining the redwood lumber industry as a single community spread across multiple sites a City of Wood Buckley demonstrates how capitalist resource extraction links different places along the production value chain The result is a paradigm shift in architectural history that focuses not just on the evolution of individual building design across time but also on economic connections that link the center and periphery across space The Ecocentrists Keith Makoto Woodhouse, 2018-06-05 Disenchanted with the mainstream environmental movement a new more radical kind of environmental activist emerged in the 1980s Radical environmentalists used direct action from blockades and tree sits to industrial sabotage to save a wild nature that they believed to be in a state of crisis Questioning the premises of liberal humanism they subscribed to an ecocentric philosophy that attributed as much value to nature as to people Although critics dismissed them as marginal radicals posed a vital question that mainstream groups too often ignored Is environmentalism a matter of common sense or a fundamental critique of the modern world In The Ecocentrists Keith Makoto Woodhouse offers a nuanced history of radical environmental thought and action in the late twentieth century United States Focusing especially on the group Earth First Woodhouse explores how radical environmentalism responded to both postwar affluence and a growing sense of physical limits While radicals challenged the material and philosophical basis of industrial civilization they glossed over the ways economic inequality and social difference defined people's different relationships to the nonhuman world Woodhouse discusses how such views increasingly set Earth First at odds with movements focused on social justice and examines the implications of ecocentrism's sweeping critique of human society for the future of environmental protection A groundbreaking intellectual history of environmental politics in the United States The Ecocentrists is a timely study that considers humanism and individualism in an environmental age and makes a case for skepticism and doubt in environmental thought **Defending Giants** Darren Frederick Speece, 2016-10-14 Giant redwoods are American icons paragons of grandeur exceptionalism and endurance They are also symbols of conflict and negotiation remnants of environmental battles over the limits of industrialization profiteering and globalization Since the middle of the nineteenth century logging operations have eaten away at the redwood forest particularly areas covered by ancient giant redwoods

Today such trees occupy a mere 120 000 acres Their existence is testimony to the efforts of activists to rescue some of these giants from destruction Very few conservation battles have endured longer or with more violence than on the North Coast of California behind what locals call the Redwood Curtain Defending Giants explores the long history of the Redwood Wars focusing on the ways rural Americans fought for control over both North Coast society and its forests Activists defended these trees not only because the redwood forest had dwindled in size but also because by the late twentieth century the local economy was increasingly dominated by multinational corporations The resulting conflict the Redwood Wars pitted workers and environmental activists against the rising tide of globalization and industrial logging in a complex war over endangered species sustainable forestry and of course the fate of the last ancient redwoods Activists perched in trees and filed lawsuits while the timber industry led by Pacific Lumber fought the lawsuits and used their power to halt reform efforts Ultimately the Clinton administration sidestepped Congress and the courts to negotiate an innovative compromise In the process the Redwood Wars transformed American environmental politics by shifting the balance of power away from Congress and into the hands of the executive branch

Lady Bird Johnson and the Environment Lewis L. Gould, 2021-10-08 In the 1960s Lady Bird Johnson sought to improve the natural appearance of Washington D C to make the nation s highways less cluttered with billboards and junkyards and to advance the environmental agenda of Lyndon Johnson s presidency The popular understanding of what she did remains incomplete and her role as a woman conservationist has not been well understood In this the first book to example her accomplishments as First Lady Lewis Gould shows Lady Bird Johnson as a catalyst for environmental ideas and as a powerful and persuasive force within her husband s administration Although passage of the Highway Beautification Act in 1965 was the legislative apex of her efforts Lady Bird Johnson also articulated a wide range of conservation issues framing policy initiatives and focusing public opinion She instilled conservation and ecological ideas in the national mind Gould argues with a skill and adroitness that puts Mrs Johnson in the front rank among modern First Ladies Indeed in his view only Eleanor Roosevelt surpasses her in importance This book is the result of Gould s extensive research in the LBJ Library and draws on his interviews with such key figures as Interior Secretary Stewart Udall Press Secretary Liz Carpenter District of Columbia Mayor Walter Washington and Lady Bird Johnson herself

Defending the Master Race Jonathan Spiro, 2009 astonishing feat of detective work reveals how a founder of the Bronx Zoo wound up writing The passing of the Great Race 1916 the book that the Nazis later used to justify the exterminationist policies of the Third Reich Book Jacket

Hoover, Conservation, and Consumerism Kendrick A. Clements, 2000 To some extent Hoover s policies anticipated directions that would be pursued by modern environmentalists The National Conference on Outdoor Recreation brought together wilderness advocates and urban planners and passage of the first federal law to limit oil pollution in navigable waters marked the beginning of an ongoing effort to control the effects of industrialization on the environment Hoover s advocacy of pleasant affordable housing introduced the idea that our everyday environment is the

starting point for environmental concerns BOOK JACKET *Saving the Redwoods* William S. Yaryan, 2002 **The Man Who Built the Sierra Club** Robert Wyss, 2016-06-07 David Brower 1912 2000 was a central figure in the modern environmental movement His leadership vision and elegant conception of the wilderness forever changed how we approach nature In many ways he was a twentieth century Thoreau Brower transformed the Sierra Club into a national force that challenged and stopped federally sponsored projects that would have dammed the Grand Canyon and destroyed hundreds of millions of acres of our nation s wilderness To admirers he was tireless passionate visionary and unyielding To opponents and even some supporters he was contentious and polarizing As a young man growing up in Berkeley California Brower proved himself a fearless climber of the Sierra Nevada s dangerous peaks After serving in the Tenth Mountain Division during World War II he became executive director of the Sierra Club This uncompromising biography explores Brower s role as steward of the modern environmental movement His passionate advocacy destroyed lifelong friendships and at times threatened his goals Yet his achievements remain some of the most important triumphs of the conservation movement What emerges from this unique portrait is a rich and robust profile of a leader who took up the work of John Muir and along with Rachel Carson made environmentalism the cause of our time *The American Legion Weekly* American Legion, 1924 Bulletin , 1914 Bulletin ... California. State Department of Education, 1927 **Congressional Record** United States. Congress, 1978 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Southern Florist and Nurseryman** , 1923 American Forestry , 1923
