an unknown race from beyond our galaxy created a series of interstellar gates shortcuts across our universe and then disappeared leaving behind no clues to their fate or the operation of their system Twice before the Enterprise has used the system to traverse the galaxy and returned each time no wiser to the gates operation Now it is imperative that they find out For the gates are breaking down taking the very stars in the sky with them The fate of the galaxy rests in the hands of the Enterprise crew and their ability to communicate not only with creatures from another world but from another universe as well **Star Trek III: The Search for Spock** Vonda N. McIntyre,2000-09-22 No one on the Enterprise can believe that Mr

Spock is gone As the crew grieves for Mr Spock the awesome Genesis Device now controlled by the Federation has transformed an inert nebula into a new planet teeming with life But Genesis can also destroy existing worlds The creators of the Device want it given freely to the Galaxy But Starfleet Command fears that it will become a force for evil And the enemies of the Federation will not rest until they seize it as their most powerful weapon in the battle to conquer the Galaxy

Forthcoming Books Rose Arny,1989-05 **Gateways #5** Christie Golden,2001-11-01 A thrilling Star Trek Voyager novel featuring Captain Janeway leading a fleet of vessels into certain danger Throughout the galaxy an ancient network of interstellar portals has been reactivated instantly linking distant planets and civilizations Back home in the Alpha Quadrant Starfleet can devote all its considerable resources to coping with the Gateways crisis but in the Delta Quadrant there is only the USS Voyager Just as Voyager enters an unusually hazardous region of space the ship and its crew are confronted with a flood of lost and disoriented starships from all over the galaxy Accidentally transported incredible distances by the unpredictable Gateways the diverse alien castaways regard each other and Voyager with hostility and suspicion Captain Kathryn Janeway suddenly finds herself struggling to hold together an extremely fractious fleet of dislocated alien vessels even as the newly awakened Gateways hold open the prospect of finally bringing her own ship home The Writer's Directory, 1998-2000 Miranda H. Ferrara,1995 Information on more than 17 500 living authors from English speaking countries **The Star Trek: Deep Space Nine: The Search** Diane Carey,1994-10-01 The Dominion The mysterious rulers

of the worlds on the other side of the wormhole The Dominion a ruthless planet conquering race unknown even to those they rule The Dominion the most dangerous foe the Federation may ever face At the edge of the wormhole the space station Deep Space Nine and the planet Bajor sit on what will be the front line in any Dominion attack To try and prevent the conflict Commander Benjamin Sisko and his crew take a never tested Federation warship through the wormhole to track down and confront the Dominion If Commander Sisko fails not only the Federation but the Klingons Romulans Cardassians and all the worlds of the Alpha Quadrant will face an interstellar war they cannot win **Prototype Nation** Silvia M.

Lindtner,2020-09-15 A vivid look at China's shifting place in the global political economy of technology production How did China's mass manufacturing and copycat production become transformed in the global tech imagination from something holding the nation back to one of its key assets Prototype Nation offers a rich transnational analysis of how the promise of democratized innovation and entrepreneurial life has shaped China's governance and global image With historical precision and ethnographic detail Silvia Lindtner reveals how a growing distrust in Western models of progress and development including Silicon Valley and the tech industry after the financial crisis of 2007-8 shaped the rise of the global maker movement and the vision of China as a new frontier of innovation Lindtner's investigations draw on more than a decade of research in experimental work spaces makerspaces coworking spaces innovation hubs hackathons and startup weekends in China the United States Africa Europe Taiwan and Singapore as well as in key sites of technology investment and industrial production tech incubators corporate offices and factories She examines how the ideals of the maker movement to intervene in social and economic structures served the technopolitical project of prototyping a new optimistic assertive and global China In doing so Lindtner demonstrates that entrepreneurial living influences governance education policy investment and urban redesign in ways that normalize the persistence of sexism racism colonialism and labor exploitation Prototype Nation shows that by attending to the bodies and sites that nurture entrepreneurial life technology can be extricated from the seemingly endless cycle of promise and violence Cover image Courtesy of Cao Fei Vitamin Creative Space and Spr th Magers
