Video Art Historicized Malin Hedlin Hayden, 2016-03-03 Video art emerged as an art form that from the 1960s and

onwards challenged the concept of art hence art historical practices From the perspective of artists critics and scholars engaged with this new medium art was seen as too limiting a notion Important issues were to re think art as a means for critical investigations and a demand for visual reconsiderations Likewise art history was argued to be in crisis and in need of adapting its theories and methods in order to produce interpretations and thereby establish historical sense for moving images as fine art Yet as this book argues video art history has evolved into a discourse clinging to traditional concepts ideologies and narrative structures manifested in an increasing body of texts Video Art Historicized provides a novel insightful and also challenging re interpretation of this field by examining the discourse and its own premises It takes a firm conceptual approach to the material examining the conceptual theoretical and methodological implications that are simultaneously contested by both artists and authors yet intertwined in both the legitimizing and the historicizing processes of video as art By engaging art history s most debated concepts canon art and history this study provides an in depth investigation of the mechanisms of the historiography of video art Scrutinizing various narratives on video art the book emphasizes the profound and widespread hesitations towards but also the efforts to negotiate traditional concepts and practices By focusing on the politics of this discourse theoretical issues of gender nationality and particular themes in video art Malin Hedlin Hayden contests the presumptions that inform video art and its history
