The Formation Of The Of The Twelve:

Perspectives on the Formation of the Book of the Twelve Rainer Albertz, James D. Nogalski, Jakob Wöhrle, 2012-07-04 The formation of the Book of the Twelve is one of the most vigorously debated subjects in Old Testament studies today This volume assembles twenty four essays by the world s leading experts providing an overview of the present state of scholarship in the field The book s contributors focus on questions of method history as well as redactional and textual history

God's Enduring Love in the Book of Hosea Joy Philip Kakkanattu, 2006 Joy Philip Kakkanattu provides an exegetical and theological analysis of an important and difficult text of the Old Testament through a synchronic and diachronic reading Detailed critical notes which discuss the textual difficulties accompany the translation of the text from Hebrew In the detailed exegesis special attention is given to study of the key terms theologically significant in Hos 11 1 11 against the context of the whole book The exegesis shows that in Hos 11 8 9 it is not the repentance of Yahweh that causes the withholding of His anger against Israel but Yahweh s constancy in His election of Israel as His son More than a change of heart the decision not to execute the deserved judgement witnesses Yahweh s divine nature Special attention is dedicated to the parent metaphor employed in Hos 11 1 11 It is concluded that more than expressing the Yahweh Israel relationship as a father son relationship the text speaks of it in terms of parent child relationship In the diachronic analysis the author deals with the origin and formation of Hos 11 1 11
