The Four-Gated City Doris Lessing, 2010-10-19 I read the Children of Violence novels and began to understand how a person could write about the problems of the world in a compelling and beautiful way and it seemed to me that was the most important thing I could ever do Barbara Kingsolver The Children of Violence series a quintet of novels tracing the life of Martha Quest from her childhood in Africa to a post nuclear Britain of AD 2000 first established Doris Lessing winner of the Nobel Prize for Literature as a great radical writer In this the fifth and final volume Martha now middle aged leaves Africa for post war London As housekeeper to the Coldridge family she watches the children in her care the new children of violence grow up in a disintegrating world a world careering toward nuclear disaster

Madness and Sexual Politics in the Feminist Novel Barbara Hill Rigney,1978 A greater part of the feminist movement has considered traditional psychology to be both a product and a defense of the status quo a patriarchal society Here Barbara Hill Rigney explores emerging feminist psychology by applying it to literary works by women who have depicted the relationship between madness and the female condition The result is a fascinating and illuminating exposition certain to be welcomed by students and scholars in literature and women's studies as well as those in sociology and psychology whose interests include feminism and problems of women and society Among the works Rigney considers are Charlotte Brontë's *Jane Eyre* Virginia Woolf's *Mrs Dalloway* Doris Lessing's *The Four Gated City* and Margaret Atwood's *Surfacing* all of which depict insanity in relation to sexual politics These authors portray a patriarchal social system which in itself manifests symptoms of collusive madness in the form of war or sexual oppression and is thereby seen as threatening to female psychological survival Each of Rigney's author subjects sees her protagonist as tragically divided between male society's prescribed roles for women and a sense of an authentic self Thus emerges a pattern common to all works in which the divided self is reflected by the inevitable juxtaposition of the protagonist to a doppelgänger an insane self an extension of the protagonist who herself can be regarded as sane only by degree A return to true sanity is traced through the patterns found in the selected works Rigney explores the literary metaphor of the return of Demeter or the Amazon mother to restore the alienated female protagonists In order to begin the return from psychosis Rigney concludes they must find the mother within themselves in the form of a feminist consciousness of self worth *Romanticism and the City* L. Peer,2011-04-25 *Romanticism and the City* explores how late eighteenth and early nineteenth century literature conceptualized urban space Fresh readings of key texts show how Romantic concerns with urban life shaped both individual works and broad theoretical issues in European Romanticism at large *Imagining the Modern City* James Donald,1999 Paris Berlin London Singapore New York Chicago Los Angeles these define the city in the world's consciousness James Donald takes us on a psychic journey to these places that have inspired artists writers architects and filmmakers for centuries Considering the cultural and political implications of the urban imaginary Donald explores the pleasures and challenges of modern living contending that the imagined city remains the best lens for a future of democratic community How can we think of Chicago without recalling the grittiness of *The Asphalt Jungle*'s back alleys or of London without the dank foggy atmosphere so often evoked by Dickens When de Certeau explores what it means to walk through a city or Foucault dissects the elements of the modern attitude what are they telling us about modernity itself Through a discussion of these and many other questions about urban thought

Donald demonstrates how artists and social critics have seen the city as the locus not just of vanity squalor and injustice but also of civilized society's highest aspirations. *Imagining the modern City* also looks at how artists have shaped cities through their creation of public spaces sculpture and architecture art forms that help determine our ideas about our place in the urban environment. Planners and architects such as Otto Wagner Le Corbusier and Bernard Tschumi present us with real and possible cities showing a way forward to alternative social futures. Donald asserts The modern city provides both a culturally resonant imagined space and a physical place for the everyday life of its residents. *Imagining the Modern City* is a rich and dazzling exploration of the ways cities stir and shape our consciousness. *Doris Lessing* Alice Ridout, Susan

Watkins, 2011-10-20 Despite winning the Nobel Prize for Literature Doris Lessing has received relatively little critical attention. One of the reasons for this is that Lessing has spent much of her lifetime and her long published writing career crossing both national and ideological borders. This essay collection reflects and explores the incredible variety of Lessing's border crossings and positions her writing in its various social and cultural contexts. Lessing crosses literal national borders in her life and work but more controversial have been her crossings of genre borders into sci fi and space fiction and her crossing of ideological borders such as moving into and out of the Communist Party and from a colonial into a post colonial world. This timely collection also considers a number of the most interesting recent critical and theoretical approaches to Lessing's writing including work on maternity and abjection in relation to *The Fifth Child* and *The Grass is Singing* eco criticism in Lessing's *Ifraikan* novels and postcolonial re-writings of landscape in her *African Stories*. **Politics and the**

British Novel in the 1970s J. Russell Perkin, 2021-06-15 The 1970s in Britain saw a series of industrial disputes a referendum on membership in the European Economic Community conflict about issues of immigration and citizenship and emergent environmental and feminist movements. It was also a decade of innovation in the novel and novelists often addressed the state of the nation directly in their works. In *Politics and the British Novel in the 1970s* Russell Perkin looks at social novels by John Fowles and Margaret Drabble the Cold War thrillers of John le Carr Richard Adams's best selling fable *Watership Down* the popular campus novels of Malcolm Bradbury and David Lodge Doris Lessing's dystopian visions and V S Naipaul's explorations of post colonial displacement. Many of these highly regarded works sold in large numbers and have enjoyed enduring success a testament to the power of the political novel to explain a nation to itself. Perkin explores the connections between the novel and politics situating the works it discusses in the rich context of the history and culture of the decade from party politics to popular television shows. *Politics and the British Novel in the 1970s* elucidates a period of literary history now fifty years in the past and offers a balanced perspective on the age revealing that these works not only represented the politics of the time but played a meaningful role in them. **Blake 2.0** Steve Clark, T. Connolly, 2012-01-24 Blake said of his works 'Tho I call them Mine I know they are not Mine'. So who owns Blake? Blake has always been more than words on a page.
