The Fractured Image Fiction Topics And Types:

American Book Publishing Record ,1999 **Forms of Modern British Fiction** Alan Warren Friedman,2014-07-03

In *Forms of Modern British Fiction* six individualistic and strongminded critics delineate the age of modernism in British fiction Dating the age and the movement from later Hardy works through the deaths of Joyce and Woolf they present British fiction as a cohesive self contained unit of literary history Hardy appears as the first of the modern British novelists Lawrence as the central and Joyce and Woolf as the last The writers and the modern movement are framed by precursors such as Galsworthy and by successors Durrell Beckett and Henry Green the postmoderns The pattern of the essays suggests a growing self consciousness on the part of twentieth century writers as they seek not only to refine their predecessors but also to deny and sometimes obliterate them The moderns thus deny the novel itself a genre once firmly rooted in history and forms of social life Their works do not assume that comfortable mimetic relationship between the fictive realities of art and life Consequently there has now evolved a poetics of the novel that is virtually identifiable with modern fiction a poetics still highly problematical in its attempt to denote a medium in whose name eclectic innovativeness and incessant revitalizing are proclaimed *Forms of Modern British Fiction* refines and advances the discussion of the modern novel and the world it and we inhabit *Power and Literature* Florin Opreescu,2018-08-21

At the core of this book lies the relation between Power as socio political phenomenon and the novel as literary discourse It shows that in a society facing the excess of power in its various forms novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them The first part of the study is theoretical it presents some of the most prominent theories of Power from Plato Machiavelli Nietzsche to Weber Dahl Lukes Parsons Bourdieu or Foucault After offering a critical approach to the concepts of Power defined in the social political and philosophical fields it articulates the relations of Power imprinted in literary discourse within a typology of four categories In the second part of the book this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads showing how novelistic fiction not only assume a critical and subversive position against the excess of Power but also unveils our fragility when experiencing History **Crafting Poems and**
