The Fragmentaries:

Romantic Poetry and the Fragmentary Imperative Christopher A. Strathman, 2012-02-01 Romantic Poetry and the Fragmentary Imperative locates Byron and to a lesser extent Joyce within a genealogy of romantic poetry understood not so much as imaginative self expression or ideological case study but rather as what the German romantics call *romantische poesie* an experimental form of poetry loosely based on the fragmentary flexibility and acute critical self consciousness of Socratic dialogue The book is therefore less an attempt to present yet another theory of romanticism than it is an effort to recover a more precise sense of the relationship between Byron's fragmentary or workless poetic and romantic poetry generally and to articulate connections between romantic poetry and modern literature and literary theory The book also argues that the exigency or imperative of the fragmentary works of Schlegel Byron Joyce and Blanchot is not so much the expression of a style as it is an acknowledgment of what remains unthought in thinking Maurice Blanchot and Fragmentary Writing Leslie Hill, 2012-07-05 Writing in fragments is often held to be one of the most distinctive signature effects of Romantic modern and postmodern literature But what is the fragment and what may be said to be its literary philosophical and political significance Few writers have explored these questions with such probing radicality and rigorous tenacity as the French writer and thinker Maurice Blanchot For the first time in any language this book explores in detail Blanchot's own writing in fragments in order to understand the stakes of the fragmentary within philosophical and literary modernity It attends in detail to each of Blanchot's fragmentary works *Awaiting Forgetting The Step Not Beyond* and *The Writing of the Disaster* and reconstructs Blanchot's radical critical engagement with the philosophical and literary tradition in particular with Hegel Nietzsche Heidegger Heraclitus Levinas Derrida Nancy Mallarmé Char and others and assesses Blanchot's account of politics Jewish thought and the Shoah with a view to understanding the stakes of fragmentary writing in Blanchot and within philosophical and literary modernity in general **The Fragmentary History of Priscus** Priscus of Panium, 2015-10-10 Attila king of the Huns is a name universally known even 1 500 years after his death His meteoric rise and legendary career of conquest left a trail of destroyed cities across the Roman Empire At its height his vast domain commanded more territory than the Romans themselves and those he threatened with attack sent desperate embassies loaded with rich tributes to purchase a tenuous peace Yet as quickly he appeared Attila and his empire vanished with startling rapidity His two decades of terror however had left an indelible mark upon the pages of European history Priscus was a late Roman historian who had the ill luck to be born during a time when Roman political and military fortunes had reached a nadir An eye witness to many of the events he records Priscus's history is a sequence of intrigues assassinations betrayals military disasters barbarian incursions enslaved Romans and sacked cities Perhaps because of its gloomy subject matter the History of Priscus was not preserved in its entirety What remains of the work consists of scattered fragments culled from a variety of later sources Yet from these fragments emerge the most detailed and insightful first hand account of

the decline of the Roman Empire and nearly all of the information about Attila's life and exploits that has come down to us from antiquity. Translated by classics scholar Professor John Givens of East Carolina University, this new translation of the Fragmentary History of Priscus arranges the fragments in chronological order, complete with intervening historical commentary to preserve the narrative flow. It represents the first translation of this important historical source that is easily approachable for both students and general readers.

The Fragmentary Demand Ian James, 2006. This introduction to the philosophy of Jean-Luc Nancy gives an overview of his philosophical thought to date and situates it within the broader context of contemporary French and European thinking. The book examines Nancy's philosophy in relation to five specific areas: his account of subjectivity, his understanding of space and spatiality, his thinking about the body and embodiment, his political thought, and his contribution to contemporary aesthetics. In each case, it shows the way in which Nancy develops or moves beyond some of the key concerns associated with phenomenology, post-structuralism, and what could broadly be termed the post-modern.

The Romantic Fragment Poem Marjorie Levinson, 2017-11-01. The fragment poem, long regarded as a peculiarly Romantic phenomenon, has never been examined outside the context of thematic and biographical criticism. By submitting the unfinished poems of the English Romantics to both a genetic investigation and a reception study, Marjorie Levinson defines the fragment's formal character at various moments in its historical career. She suggests that the formal determinancy of these works, hence their expressive or semantic affinities, is a function of historical conditions and projections. The English Romantic fragment poems share not so much a particular mode of production as a myth of production. Levinson pries apart these two dimensions and analyzes each independently to consider their relationship. By reconstructing the contemporary reception of such works as Wordsworth's "Nutting," Coleridge's "Christabel," and "Kubla Khan," Shelley's "Julian and Maddalo," and Keats's "Hyperion" fragments, and juxtaposing this model against dominant twentieth-century critical paradigms, Levinson discriminates layers, phases, and kinds of intentionality in the poems and considers the ideological implications of this diversity. This study is the first to investigate the English Romantic fragment poem by identifying the assumptions, contemporary and belated, that govern interpretative procedures. In a substantial summary chapter, Levinson reflects upon the meaning and effects of these assumptions with respect to the facts and fictions of literary production in the period and to the processes of canon formation. The Fragment Camelia Elias,2004 This monograph is an interdisciplinary study of the concept of fragment in literature and in critical and literary theory It discusses the fragment s performativity and function within a historical perspective stretching from Heraclitus via the German Romantics and European writers of the Modernist period to American postmodern manifestations of the fragment This is the first history of the fragment to appear in English and it is also the first attempt at producing a consistent taxonomy of literary and critical fragments The fragments are categorised according to function not author intention and the study addresses a number of questions What constitutes the fragment when the fragment can only be defined a posteriori Does the fragment begin on its own or is it begun by others writers and critics Does it acquire a name of its own or is it labelled by others All these questions revolve around issues of agency and they are best discussed in terms of performativity which means seeing fragments as acts acts of literature acts of reading acts of writing The book demonstrates how a poetics of the fragment as a performative genre can be created situating the fragment both as literature and as a phenomenon within postmodern criticism against the background of philosophy art history and theology
