The Locust Years Frank Giles, 1991 The Fourth Republic inaugurated in the autumn in 1946 after de Gaulle's resignation as head of the provisional post war government was one of the most turbulent and fascinating periods of modern French history Under a succession of short lived governments battling with seemingly intractable problems at home and abroad and with a fragile balance of power among the leading parties that almost pre-supposed political instability were laid the foundations of modern France In this account Frank Giles charts the complexities of post war French politics focusing on both the men and the issues which dominated the Fourth Republic Chief among the latter were German rearmament and nationalist uprisings in France's former colonies notably Indochina and Algeria and among the former Jean Monet who revitalized the French economy and established with the European Coal and Steel Community the beginnings of the EEC and Charles de Gaulle whose brooding presence dominated French politics until he was swept back to power during the extraordinary events of May 1958 when France found itself on the brink of civil war

The Government of the French Republic Walter Rice Sharp,1939 *The Sword of Honor* Eugène Sue,1911 **Dynamics in the French Constitution** David Marrani,2013-10-08 The promulgation of the Fifth French Republic Constitution in 1958 marked the end of a complex constitutional history that has since 1789 seen more than twenty constitutions and five Republics Lasting now for more than fifty years the Fifth Republic Constitution has proven to be the right settlement for the French people a consensual text However while offering the appearance of stability the Fifth French Republic Constitution has often been reconsidered and changed not least in the year of its fiftieth anniversary when the Constitution was modernised These dynamics of the Fifth Republic Constitution are neither a recent matter nor entirely the result of the successive constitutional amendments Instead the history of the Constitution has involved the resurgence of repressed archaic elements from the ancient regime while the social economic and environmental contexts have penetrated not only the text itself but more extensively its spirit and behind it the philosophy and our perception of the Republic In Dynamics in the French Constitution David Marrani questions the foundations of the French Fifth Republic In using specific themes current and traditional debates contemporary and archaic factors that have enlightened the road of long lasting Republic the book explores some of the changes of the last fifty years and the tensions that are present within the constitutional text In combining theoretical concepts of constitutional law with key contemporary and historical developments such as the European integration the response to environmental challenges the practice of human rights and the pillars supporting French republicanism this book offers varied and creative tools for a better understanding of the Republic of today
