Parliament. House of Commons, 1824 *Robert Owen's Experiment at New Lanark* Ophélie Siméon, 2017-10-16 This book provides an account of how in the years 1800-1825 enlightened entrepreneur and budding reformer Robert Owen used his cotton mill village of New Lanark, Scotland as a test bed for a set of political intuitions which would later form the bedrock of early socialism in Britain. Drawing from previously unpublished archival sources, this study shows that New Lanark was not merely on the receiving end of Owen's innovative brand of industrial paternalism but also acted as a major source of inspiration for many aspects of his social system, including his desire to remodel society along communitarian lines. This book therefore reaffirms the centrality of New Lanark as the cradle of socialism in Britain and provides a contextualised social history of Owen's ideas, tracing direct continuities between his early years as a paternalistic businessman and his later career as a radical political leader. In doing so, it eschews the myth of New Lanark as a unidimensional model village and addresses the ambiguities of Owen's journey from paternalism to socialism. By selecting Wakefield and Huddersfield as contrasting types of northern towns and examining in detail their systems of medical care, Dr Marland has written a local history that says something important about the country as a

whole Wakefield and Huddersfield contrasted in their economic demographic and social development during the late eighteenth and early nineteenth centuries allowing an effective comparative analysis of medical facilities in the two communities By drawing on diverse sources from Poor Law and philanthropy to self help organisations fringe medicine and medical practice the book places the development of medical services against the backdrop of the communities in which they evolved their class structure organization and social civic and economic developments **Governing Risks Pat**
