Armstrong, Gilbert Rozman, Samuel S. Kim, Stephen Kotkin, 2016-09-16 The common images of Korea view the peninsula as a long standing battleground for outside powers and the Cold War's last divided state But Korea's location at the very center of Northeast Asia gives it a pivotal role in the economic integration of the region and the dynamic development of its more powerful neighbors A great wave of economic expansion driven first by the Japanese miracle and then by the ascent of China has made South Korea an economic powerhouse in its own right the hub of the region once again a natural corridor for railroads and energy pipelines linking Asiatic Russia to China and Japan And over the horizon an opening of North Korea with multilateral support would add another major push toward regional integration Illuminating the role of the Korean peninsula in three modern historical periods the eminent international contributors to this volume offer a fresh and stimulating appraisal of Korea as the key to the coalescence of a broad open Northeast Asian regionalism in the twenty fifth century      China and Japan in the Russian Imagination, 1685-1922 Susanna Soojung Lim, 2013-03-05 Throughout the centuries as Russia strove to build itself into an imperial power equal to those in the West China and Japan came to occupy a special place in Russians view of the orient Never colonised by Russia or the West China and Japan were linked not only to the greatest of Russian imperial fantasies but also conversely to a deep sense of insecurity regarding Russia's place in the world a sense of insecurity which deepened as China and Japan began to modernise in the later nineteenth century Drawing on a wide range of works by Russian writers and thinkers Lim sets out

**Aesthetics** Jinyi Chu, 2024-08-30 Many are familiar with European modernists' interest in Chinese art and poetry; however, less well known is that Russian literature and art at the turn of 20th century also flourished in a sustained dialogue with China. In *Fin de siècle Russia and Chinese Aesthetics*, Jinyi Chu reconsiders the place of Russia in the genealogy of global modernism by exploring the enduring impact of China on pre-revolutionary Russian culture. This book argues that fin de siècle Russian ideas about increasing global cultural and socioeconomic interconnectedness emerged from their unsettling encounters with China. Drawing on literary texts, paintings, advertisements, official documents, and archival work in Russia, China, France, and the United States, Chu reconstructs surprising stories about cultural interactions: From Innokenty Annensky's encounter with a Tibetan monk in Paris, Aleksei Remizov's adaptations of Chinese ghost stories, and Lev Tolstoy's translations of the Daoist canon to Ilya Mashkov's fauvist painting of a Chinese fairy, this book presents a new cultural history of fin de siècle Russia in relation to the East. *Fin de siècle Russia and Chinese Aesthetics* casts new light on the intricate relationships between geopolitics and transnational aesthetics. It moves beyond the idea that Russian literary and artistic representations of China were simply manifestations of Russia's imperial ideology and Eurasian cultural identity. Instead, Chu shows that literature and art actively renegotiate and destabilize the preconceived world order at a time of intensifying geopolitical and cultural transformation when China shifted from Russia's rival in Inner Asia to a target in the competition of global imperialist powers. [The Opening of Japan, 1853-1855](#) William McOmie, 2021-11-15

Sub-titled *A comparative study of the American, British, Dutch, and Russian naval expeditions to compel the Tokugawa shogunate to conclude treaties and open ports to their ships*, this highly informed and widely researched study provides for the first time a more complete picture of the competition and cooperation, distrust and open hostility of the four protagonists involved in this joint Western enterprise. In 1852, the news of the US government's plan to send a large naval expedition to Japan to demand the opening of its ports to American ships excited public interest and elicited differing responses among the European powers. For Russia, Japan was a neighbouring empire to whose ports it had itself long sought access; now its jealousy aroused and its own strategic interests seemingly under threat, Russia could not permit the United States to possibly exclude it from Japanese ports. In the wake of the Opium War, the Dutch king had urged the shogun to peacefully open its ports to the other Western powers; now the king and his ministers feared that the US expedition would take an overly aggressive approach that might involve the Netherlands in a war with Japan. Having previously opened Chinese ports to the West, Britain was occupied there and willing to take a wait-and-see attitude, temporarily conceding a leading role to the United States in Japan. France had also previously made approaches to Japan and, in case of a successful outcome, would not lag far behind in sending its own warships to make arrangements with Japan. Thus the stage was set for the race between America and Russia to open closed

Japan and the surrounding seas while the Netherlands worked quietly behind the scenes and Britain and France waited in the wings This volume documents in detail the plans and outcomes of each of the four powers negotiations with Japan lists the clauses of the resulting treaties and offers a comparative analysis of their merits and demerits at the same time it provides a fascinating commentary on the way business was done by the Japanese with each country and its representatives

Russian Warships in the Age of Sail 1696-1860 Eduard Sozaev, John Tredrea, 2010-06-23 Peter the Great created a navy from nothing but it challenged and soon surpassed Sweden as the Baltic naval power while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe In battle it was surprisingly successful and at times in the eighteenth century was the third largest navy in the world yet its history and especially its ships are virtually unrecorded in the West This major new reference work handsomely fills this gap with a complete and comprehensive list of the fleet with technical detail and career highlights for every ship down to small craft However because the subject is so little recorded in English the book also provides substantial background material on the organisation and administration of the navy its weapons personnel and shipbuilding facilities as well as an outline of Russia's naval campaigns down to the clash with Britain and France known as the Crimean War Illustrated with plans paintings and prints rarely seen outside Russia it is authoritative reliable and comprehensive the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit JOHN TREDREA his translator editor and long term collaborator is an American ship enthusiast with a life long interest in the Russian navy
