## **The Garden Of Venus:**

**Gardens in Art** Lucia Impelluso, 2007 Impelluso analyzes the constituent elements of gardens both real and imagined and uncovers their often hidden symbolic meanings Paintings and the nearly 400 works presented here provide a continuous visual record of the myriad forms of gardens **EcoGothic gardens in the long nineteenth century** Sue

Edney, 2020-11-24 EcoGothic gardens in the long nineteenth century provides fresh approaches to contemporary ecocritical and environmental debates providing new compelling insights into material relationships between vegetal and human beings Through twelve exciting essays the collection demonstrates how unseen but vital relationships among plants and their life systems can reflect and inform human behaviours and actions In these entertaining essays human and vegetal agency is interpreted through ecocritical and ecoGothic investigation of uncanny manifestations in gardens hauntings psychic encounters monstrous hybrids fairies and ghosts with plants greenhouses granges mansions lakes lawns flowerbeds and trees as agents and sites of uncanny developments The collection represents the forefront of ecoGothic critical debate and will be welcomed by specialists in environmental humanities at every level as a timely innovative inclusion in ecoGothic studies **Sculpture and the Garden** Patrick Eyres, 2017-07-05 Although the integration of sculpture in gardens is part of

a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth century modernism and the late twentieth century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture s placement and suggests that the garden can itself be read as a sculptural landscape Fountains, Statues, and Flowers Elisabeth B. **The Garden**, 1902 **Literature and the Renaissance Garden from Elizabeth I to Charles II** Amy L. Tigner, 2016-05-13 Spanning the period from Elizabeth I s reign to Charles II s restoration this study argues the garden is a primary site evincing a progressive narrative of change a narrative that looks to the Edenic as obtainable ideal in court politics economic prosperity and national identity in early modern England In the first part of the study Amy L Tigner traces the conceptual forms that the paradise imaginary takes in works by Gascoigne Spenser and Shakespeare all of whom depict the garden as a space in which to imagine the national body of England and the gendered body of the monarch In the concluding chapters she discusses the function of gardens in the literary works by Jonson an anonymous masque playwright and Milton the herbals of John Gerard and John Parkinson and the tract writing of Ralph Austen Lawrence Beal and Walter Blithe In these texts the paradise imaginary is less about the body politic of the monarch and more about colonial pursuits and pressing environmental issues As Tigner identifies during this period literary representations of gardens become potent

discursive models that both inspire constructions of their aesthetic principles and reflect innovations in horticulture and garden technology Further the development of the botanical garden ushers in a new world of science and exploration With the importation of a new world of plants the garden emerges as a locus of scientific study hybridization medical investigation and the proliferation of new ornamentals and aliments In this way the garden functions as a means to understand and possess the rapidly expanding globe

**Spenser's Allegory of Love** James W. Broaddus,1995 Spenser's Allegory of Love approaches the major characters in Books III IV and V of *The Faerie Queene* as fictional personages who function psychically according to Renaissance sexual psychology and physically according to Renaissance sexual physiology This approach enables readings of the quests in their own peculiar allegorical way as imitations of actions For each of the questers Britomart Florimell Scudamour and Timias union with a loved one is the goal and that goal is achieved however problematically in each of the quests When the interwoven quests which begin in Book III continue through Book IV and with Britomart's quest into Book V are separated out and explicated these three books of Spenser's *Faerie Queene* can be read so as to constitute a social vision
