The Gurdjieff Inheritance:

The Gurdjieff Inheritance John Hereward Reyner, 1984 **Knowing Yourself and Others: The Eastern Enneagram Way**, **Gurdjieff: The Key Concepts** Sophia Wellbeloved, 2013-04-15 This unique book offers clear definitions of Gurdjieff's teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff's cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann **G.I. Gurdjieff** Colin Wilson, 2019-02-21 Presents the life and work of one of the most influential psychological theorists of modern times George Ivanovitch Gurdjieff This examination of a psychologist and teacher of genius also provides an introduction to the philosophy of Gurdjieff This work presents the life and work of one of the most influential psychological theorists of modern times George Ivanovitch Gurdjieff is one of the most enigmatic figures of our time He attracted legends as easily as disciples But behind the Gurdjieff myth lies a solid corpus of thought the importance of which is only now being generally recognized At its heart was the idea of the war against sleep the fact that man in Colin Wilson's words is like a grandfather clock driven by a watch spring This brilliant and much praised examination of a psychologist and teacher of genius has established itself as the most important and accessible account for the general reader of Gurdjieff's life and work This edition has been revised and expanded providing the definitive introduction to the philosophy of Gurdjieff *Initiates of Theosophical Masters* K. Paul Johnson, 1995-07-20 Examines the careers of the most distinguished disciples of the Theosophical Masters profiled in *The Masters Revealed* including George Ivanovitch Gurdjieff Alexandra David Neel Anagarika Dharmapala and Isabelle Eberhardt **Beyond 2012: Catastrophe or Awakening?** Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence

McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around **Inherit the Holy Mountain** Mark Stoll, 2015 Inherit the Holy Mountain puts religion at the center of the history of American environmentalism rather than at its margins demonstrating how religion provided environmentalists with content direction and tone for the environmental causes they espoused **Gurdjieff and Orage** Paul Beekman Taylor, 1969-12-31 A fascinating look at the introduction of the Gurdjieff work into North America and an intimate view of the relationship between G I Gurdjieff and A R Orage the two people most prominently responsible for its migration from Europe Filled with deeply insightful material about these two unique and highly influential men and the nature and origins of the spiritual path that they taught Bibliography Index Transnational Perspectives ,1988
