Of course you have. Perhaps you couldn't resist having one more piece of birthday cake. Maybe your brother or sister made you so mad that you couldn't help yelling. Everyone experiences uncontrollable impulses like these sometimes. But what if these impulses happened to you all the time? How would you interact with your family, do your work at school, or make friends if you couldn't control your impulses? Jeremiah, for instance, loved fire. He loved everything about it: the way it looked, the way it smelled, how its heat enveloped everything. Even though he knew it was wrong, Jeremiah lit fires and watched them incinerate, eat, and destroy everything in their paths. Jeremiah also liked the smoke detectors in his house. He loved taking them apart. Sometimes after school, Jeremiah would sit in his room, dismantle the smoke detector piece by piece, and then put it back together. Once the smoke detector was reassembled, Jeremiah would light a match beneath it and time how many seconds it took before the detector let out its high-pitched squeal. People like Jeremiah cannot control all the impulses they feel. Some people may get uncontrollably angry, steal, light fires, gamble, pull their own hair, or perform other impulsive actions that are harmful to themselves, their families, and their friends. When a person has repetitive impulses like these, he may be suffering from a psychiatric condition known as an impulse control disorder. The stories and information in this book will tell you more about impulse control disorders, how they affect people's lives, and how they can be treated. **Child and Adolescent Psychopathology** Linda A. The book features current trends in assessment, diagnosis, treatment, and research. It is an ideal hands-on resource for a child and adolescent psychopathology course. The Fifth Edition includes a new case study on depression, expanded coverage of trauma-related disorders, a new glossary, and updated assessment materials and references throughout. *Take Control of OCD* Bonnie Zucker, 2021-09-23 *Take Control of OCD: A Kid's Guide to Conquering Anxiety and Managing OCD* is a must-have guide for kids and teens ages 10-16 with Obsessive Compulsive Disorder to help them take control and use their strengths to find success in school and in life.
