

2023 HARBOUR REPORT CARD RELEASE

The Gladstone Healthy Harbour Partnership (GHHP) celebrated the launch of its ninth annual Gladstone Harbour Report Card on Thursday 1st February containing new results for environmental and economic health of the harbour, and continued results for social and cultural components.

Gladstone Harbour's annual Report Card offers a comprehensive assessment of its environmental, social, economic, and cultural well-being across 33 different indicators, graded from 'very good' (A) to 'very poor' (E).

According to the report, the environmental health of Gladstone Harbour remained stable, maintaining an overall 'satisfactory' (C) grade. Economic performance retained its 'very good' (A) rating, while economic stimulus held a 'satisfactory' (C) grade, mirroring previous years. Social and cultural indicators reused their 2022 grades due to stable trends.

GHHP's Independent Science Panel Chair, Professor John Rolfe, explained that while there haven't been any changes in the overall results, the results obtained for individual indicators such as Water and Sediment Quality, Mud Crabs and Economic Performance show promising signs for the region.

"From an environmental perspective, we're pleased to see that, overall,

the harbour's Water and Sediment Quality received a 'very good' (A) grade for the seventh year in a row, despite the higher-than-average rainfall recorded in the second half of 2022.

"What is perhaps most encouraging is the improvement we've seen in Mud Crabs results this year," continued John. "After five years of receiving a 'poor' (D) grade, the overall grade has finally improved to a 'satisfactory' (C).

Some indicators experienced slight declines, with Seagrass dropping from 'good' (B) to 'satisfactory' (C) and Fish Recruitment slipping from 'satisfactory' (C) to 'poor' (D) in 2023.

From an economic standpoint, the harbour maintains robust performance, achieving a 'good' (B) grade for the ninth consecutive year. Economic performance receives a 'very good' (A) rating, reflecting the continued strength of shipping and tourism.

The report also includes results from the Urban Water Stewardship Management framework review, indicating that Gladstone Regional Council's urban water management practices align with current standards.

GHHP Independent Chair, Professor Iain Gordon, commended the ongoing support and collaboration of partners. The report underscores the combined efforts of government, industry, Traditional Owners, research, and the community in ensuring the harbour's sustained health and vitality.
