Roney,Mark Beekey,2022-11-16 This multi authored study explores how the natural sciences and the humanities together can understand the connections between the natural environment the built environment and the cultural heritage of communities along the west coast of Ireland Knowledge of the sea and marine life and what they mean to humanity is dependent on both scientific study and local knowledge which in turn can lead to a greater commitment to sustainability Until the 1950s there was little government support for scientific research nor an interest in helping fisheries beyond near shore catch Irish fisheries remained small underfunded and had difficulty accessing international markets However as this book shows Ireland s cultural heritage demonstrates a deep appreciation for the coastal environment and a sense of place This is preserved in the Irish language in poetry story and music and in the ways the Irish lived with an often wild coastal topography     *Catholic Teaching Brothers* T. O'Donoghue,2012-09-14 O'Donoghue s book which is written as a traditional historical narrative while also utilizing a comparative approach is concerned with the life of Catholic religious teaching brothers across the English speaking world especially for the period 1891 to 1965 which was the heyday of the religious orders     [Grotesque Anatomies](#) David Musgrave,2014-10-16 *Grotesque Anatomies* is a study of Menippean satire in English

since the Renaissance It consists of revisionist close readings of canonical works such as Eliot's *The Waste Land* and Pope's *Dunciad* among others and investigates how identifying them as Menippean satires changes our understanding of them The initial chapter offers a comprehensive account of the form from antiquity to the present day identifying its bifurcated development in the shorter form Seneca Lucian Julian and the longer more encyclopedic form Varro Petronius Boethius and their subsequent fusion during the Renaissance It also contains an account of the critical reception of the genre with the term Menippean satire first being used by Justus Lipsius in 1581 Finally Menippean satire is described as a literary version of the grotesque and a brief theory of the grotesque in the modern period as radical heterogeneity is outlined This is also the foundation of a new definition of Menippean satire drawing on previous definitions by Frye Bakhtin and Kirk and revising them for the modern period The following chapters examine iconic works as examples of Menippean satire and of the grotesque Chapter 2 offers an overview of the nose in Menippean satire and comic literature generally and reads Rushdie's *Midnight's Children* in this context It also gives an account of metaphor as a grotesque transformation Chapter 3 examines the figure of the stomach in Menippean satire and symposiastic literature and reads Peacock's *Gryll Grange* in this context The link between the stomach as a figure of thinking in comic literature is the basis for an account of symbolic structuring as grotesque association Chapter 4 is a close reading of the scatological imagery of Pope's *Dunciad* and how scatology generally tends towards a cyclical metaphysics It also relates changes in print technology and copyright laws to the reticular scatological structure of the *Dunciad* Chapter 5 argues for Eliot's *The Waste Land* as a Menippean satire focusing on the rhetorical figure of the enthymeme as a missing premise as an example of under mindedness and as an ironic aspect of the fragmentation typical of late Romantic Menippean satires Chapter 6 examines Urquhart's eccentric *The Jewel* as a satire on the referential function of language reading it in the context of projections for a universal language from this period The final chapter identifies some key works by Derrida and Barthes as Menippean satires noting the resurgence of the form in some postmodern and deconstructive writing
