Readers will learn startling truths of these amazing paranormal locations and uncanny hot spots. Included are eerie haunts scattered across the United States, Russia, Canada and just about everywhere in between including such infamous locales as Death Valley, the Bermuda Triangle, Loch Ness and even the New York City subway. Also addressed are the various theories that have been posited to explain why such places have become so infinitely weird in the first place. This is a wild tour of the world and its many rich cultures and folklore that reveals the top twenty-five places on Earth that are well incredibly weird and mysterious.

[Of This Earth](#) Rudy Wiebe, 2009-06-12

A beautiful moving memoir of a boy's coming of age infused with a deep love of the land from one of Canada's most cherished and acclaimed writers. In *Of This Earth* Rudy Wiebe gives vivid life again to the vanished world of Speedwell, Saskatchewan, an isolated poplar forested mostly Mennonite community and Rudy's first home. Too young to do heavy work, Rudy witnessed a way of life that was soon to disappear. And we experience with him the hard labour of clearing the stony silty bushland, the digging out of precious wells, one bucket of dirt at a time, sorrow at the death of a beloved sister, the disorienting searches for grazing cattle in the vast wilderness, sloughs and the sweet discovery of the power of reading. Rare personal photographs reproduced throughout the book and the fragile memories of those who are left give shape to the story of Mennonite immigrants building a life in Canada, the growth and decline of the small Speedwell community, the sway of religion and a young boy's growing love of the extreme beauty of the aspen forests as well as how all these elements came to inform his destiny as a writer. A hymn to a lost place and a distant time, *Of This Earth* follows the best of memoirs in the tradition of Sharon Butala's *The Perfection of the Morning* and W. G. Sebald's *Austerlitz*. It is an evocation of the Canadian west that only a writer of Rudy Wiebe's powers could summon.

The Depths of the Sea Jamie Metzl, 2014-02-04 It's 1979 and Morgan O'Reilly, a dispirited CIA desk officer, is desperately trying to bury his memories. Sent to Cambodia as a Marine and then as a CIA operative during the Vietnam War, he had been given the unlikely task of pulling together a secret spy unit of orphaned street children. At the end of the war, he was only able to get one child out of the country: his surrogate son, Sophal. Years later, Sophal, now a CIA agent, disappears on a secret mission in the Cambodian refugee camps in Thailand. Tom Dillon, the dashing young superstar of the White House foreign policy staff, asks O'Reilly to find Sophal and bring him home. O'Reilly's search takes him deeper and deeper into the politics of the Thai-Cambodian border and finally into the deadly Khmer Rouge zone, a place where all foreigners are forbidden from entering and where cruelty and death are omnipresent. Filled with the fascinating workings of the refugee camps, the life-or-death politics of Washington DC, and the inner workings of the personalities that are drawn to such extreme circumstances, Jamie Metzl's *The Depths of the Sea* is a thriller that both entertains and educates.

Salt of the Earth Michael Wilson, 1978 This 1954 film, made in New Mexico by blacklisted Hollywood people and members of a progressive union, was denied distribution during the McCarthy era. The film documents an actual strike and is narrated by a Mexican American woman who grows in consciousness and effectiveness through her participation in the community struggle. With the publication of this book, the Feminist Press reprints Wilson's screenplay and introduces an original work by Deborah Silverton Rosenfelt, an analysis of the background history and significance of both the strike and the film. Based partly on recent interviews, Rosenfelt's work includes a discussion of the change in status of the women who took part in this strike for better conditions.

THE MAKING OF ALIEN: EARTH Jimmy J. Smart, For decades the Alien franchise has stalked our collective nightmares. But for the first time in Noah Hawley's acclaimed series *Alien: Earth*, the terror comes home. This unofficial guide, *The Making of Alien: Earth*, is the definitive companion to the series that rewrote the rules of the genre. Go behind the scenes of a creative odyssey that began as a rejected pitch and evolved into a critical phenomenon praised for its stylistically bold and scary-as-hell approach. Inside, you will explore the meticulously crafted world of 2120, a corporate dystopia where five mega-corporations rule the planet and humanity is trapped between a ruthless past and an uncertain future. This book unearths the creative decisions that shaped the series from Hawley's artisanal filmmaking philosophy to his audacious choice to disregard the mythology of the prequel films, restoring the Xenomorph as an unfathomable cosmic horror. Discover the secrets of the show's groundbreaking production, including the extensive use of practical effects and the immersive filming experience in Thailand that gave the creatures a visceral, tangible presence. Uncover the deeper thematic layers of the show's Peter Pan transhuman story, which explores the terrifying commodification of consciousness through human-synthetic hybrids. With insightful analysis of critical and audience reception, which placed the series on par with the original 1979 classic, and a comprehensive breakdown of the world-building, casting, and technical achievements, this guide is your key to understanding a television event that redefined the boundaries of science-fiction horror.
