Rinehart, 1997-10-30 An interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies China Mexico and Iran that were profoundly impinged upon by European and American imperialism The study explores the role of apocalyptic beliefs in radical movements bent on sociopolitical transformation It concludes that millennial expectations performed important and similar preparatory leadership and therapeutic functions in each case Millenarian movements are powerful and emotional social movements that expect an immediate collective total this worldly supernatural salvation and transformation of society They anticipate the complete destruction of the existing sociopolitical and economic order which they assert will be followed by a new and perfect society This study provides an interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies that were profoundly impinged upon by European and American imperialism It seeks to explore the functional role of millenarianism in these three revolutions In all three cases millenarianism prepared the way for revolutionary transformation It acted as a catalyst for action among that group of the most ardent revolutionists who were willing to pay any price to achieve what they were convinced was the inevitable goal of a utopian society Millenarianism created the potential for charismatic leadership to emerge It functioned as a doctrinal platform that awaited the opportunity to elevate a prophetic revolutionary leader to take control Finally millenarianism performed a therapeutic identity and cathartic function by providing the doctrinal foundation and an effective organization for a social healing process to take place A challenge to conventional arguments on the origins and outcomes of revolutions this study will be of great interest to scholars and researchers in comparative politics sociology and religion **Gloryland** H. B. Cavalcanti, 2007-10-30 Christian conservatism has changed drastically in the last 25 years From the working class faith of small autonomous rural churches or storefront sanctuaries to the megachurches of the suburbs and the halls of power Congress and the White House the faith is no longer at the margins of American religion Rather it is a dominant force in the American public square For the first time in its history Christian conservatism boasts an expanded network of born again clubs and services that closely follow secular trends in the American consumer market A veritable Christian suburbia has been created that parallels its secular counterpart This Christian conservative co optation of

suburbia is unprecedented in the history of the movement Their embrace of modernity and middle class lifestyle is a stark contrast to Christian conservatives who avoided engaging with modernity earlier in the 20th century How did conservative Christianity change and how is this change affecting its relationship with the larger society Influenced by middle class values power and education Christian conservatism has opted to engage with modern political life allying itself with the Republican Party and developing an extensive political agenda of its own This book documents the transformation of Christian conservatism into a middle class faith and argues that the changes experienced by Christian conservatism are part of a larger religious realignment in American Christianity Conservative Christianity once home primarily to working class religious communities greatly benefited from the migration of conservative Christians from other denominations as a result of the 1960s Cultural Revolution The final goal of the movement is of course the creation of a biblically based society one whose laws are defined by a conservative reading of the Scriptures and whose public mores are more akin to its newly gained middle class status The push to restore a Christian America raises questions about the conservative Christian faith Cavalcanti answers those questions as he traces the growth of the movement and its goals

Rupture and Reconstruction Haym Soloveitchik, 2021-09-10 The essay that forms the core of this book is an attempt to understand the developments that have occurred in Orthodox Jewry in America in the last seventy years and to analyse their implications The prime change is what is

often described as the swing to the right a marked increase in ritual stringency a rupture in patterns of behaviour that has had major consequences not only for Jewish society but also for the nature of Jewish spirituality For Haym Soloveitchik the key feature at the root of this change is that as a result of migration to the New Worlds of England the US and Israel and acculturation to its new surroundings American Jewry indeed much of the Jewish world had to reconstruct religious practice from normative texts observance could no longer be transmitted mimetically on the basis of practices observed in home and street In consequence behaviour once governed by habit is now governed by rule This new edition allows the author to deal with criticisms raised since the essay long established as a classic in the field was originally published and enables readers to gain a fuller perspective on a topic central to today's Jewish world and its development *Bulletin of the Atomic Scientists*, 1973-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Victorian Visions of Suburban Utopia Nathaniel Robert Walker, 2020-11-17 The rise of suburbs and disinvestment from cities have been defining features of life in many countries over the course of the twentieth century In Victorian Visions of Suburban Utopia Nathaniel Walker asks why did we abandon our dense complex urban places and seek to find the best of the city and the country in the flowery suburbs While looking back at the architecture and urban design of the 1800s offers some answers Walker argues that a great missing piece of the story can be found in Victorian utopian literature The replacement of cities with high tech suburbs was repeatedly imagined and breathlessly described in the socialist dreams and science fiction fantasies of dozens of British and American authors Some of these visionaries such as Robert Owen Edward Bulwer Lytton Edward Bellamy William Morris Ebenezer Howard and H G Wells are enduringly famous while others were street vendors or amateur chemists who have been all but forgotten Together they fashioned strange and beautiful imaginary worlds built of synthetic gemstones lacy metal colonnades and unbreakable glass staffed by robotic servants and teeming with flying carriages As varied as their futuristic visions could be Walker reveals how most of them were unified by a single desperate plea for humanity to have a future worth living we must abandon our smoky poor chaotic Babylonian cities for a life in shimmering gardens

Religious Currents and Cross-Currents: Essays on Early Modern Protestantism and the Protestant Enlightenment Johannes van den Berg, 2021-11-01 The religious history of seventeenth and eighteenth century Protestantism was marked by a twofold movement On the one hand there were attempts to consolidate and if necessary to reaffirm the heritage of the Reformation on the other hand we meet a growing critical evaluation of the legacy of mainstream orthodox thought which could lead to a process of gradual renewal and reorientation but also to forms of more radical and controversial criticism Conservative as

well as critical tendencies can be discerned in the religious landscape on both sides of the North Sea In spite of differences in the historical framework and spiritual culture the developments in Great Britain and on the Continent often present remarkable parallels and the water of the North Sea was not too deep for creative interaction This volume contains a number of essays which deal with various aspects of English and Dutch church history and theology in the seventeenth and eighteenth centuries Special attention is given to the problems surrounding the Calvinist doctrine of predestination to English Puritanism and its impact on the Netherlands to Jewish Christian relations and polemics in the seventeenth century to seventeenth century millenarianism in particular in the circle of the Cambridge Platonists to the attitude of Dutch Reformed theologians to the Church of England to eighteenth century English and Dutch orientalist studies and to the development of enlightened ideas in the circles of English and Dutch Protestantism **Future Survey Annual 1986**
