Siege Weapons of the Far East (2) Stephen Turnbull, 2012-08-20 From the 11th century AD East Asian armies made increasing use of exploding missiles and siege cannon to reduce the fortifications of their enemies Some of these weapons were very similar to those used in Europe for example the heavy siege cannon used in the siege of Pyongyang during the Japanese invasion in the late 16th century Others like the Korean hwacha carts mounting over a hundred rockets that were used to bombard the Japanese at Haengju in 1593 were very different from their European contemporaries This book details the design and use of the wide range of weaponry available during this period

Pilgrims' Castle ('Atlit), David's Tower (Jerusalem) and Qal'at ar-Rabad ('Ajlun) C.N. Johns, Denys Pringle, 2019-05-23 First published in 1997 this collection includes papers on Crusader era architecture in Palestine with a focus on Atlit the castle of Ajlun and on the Citadel of Jerusalem both the papers and sites of which have previously been

difficult to access The volume is presented partly to repair the very real deficit in the literature on Crusader architecture and partly as a fitting memorial to the author who died in 1992 Atlit in particular held a special significance for C N Johns being the site of his first major project as a field archaeologist His Guide to Atlit a masterly summary of his findings remains the most complete and comprehensive account of the castle and its suburb The studies collected here pay tribute to their author s enduring contribution to the medieval archaeology of the Near East The first part of the book deals with the Pilgrim s Castle the great Templar fortress and town at Atlit The significance of Johns excavations at this site has been relatively neglected because it remains in a military area inaccessible to visitors and because almost the entire stock of his major publication was lost in 1947 This Guide to Atlit a synthesis of historical archaeological and architectural research on the monument is reprinted here together with all the interim reports relating to the medieval period Also included are Johns studies on the Citadel of Jerusalem the Tower of David and on the Islamic castle of Ajlun Together they represent a fundamental contribution to the study of the period of the Crusades and to the military architecture of the Middle Ages The notes by Denys Pringle bring the accounts up to date in the light of recent research
