The Feathered Shield:

The Feathered Shield Huey E. Nichols, 2001-07 *Handbook to Life in the Aztec World* Manuel Aguilar-Moreno, 2007
Describes daily life in the Aztec world including coverage of geography foods trades arts games wars political systems class structure religious practices trading networks writings architecture and science **Technique of Some South American Feather-work** Charles Williams Mead, 1908 **Insignia of Rank in the Nahua World** Justyna Olko, 2014-06-15 This significant work reconstructs the repertory of insignia of rank and the contexts and symbolic meanings of their use along with their original terminology among the Nahuatl speaking communities of Mesoamerica from the fifteenth through the seventeenth centuries Attributes of rank carried profound symbolic meaning encoding subtle messages about political and social status ethnic and gender identity regional origin individual and community history and claims to privilege Olko engages with and builds upon extensive worldwide scholarship and skillfully illuminates this complex topic creating a vital contribution to the fields of pre Columbian and colonial Mexican studies It is the first book to integrate pre and post contact perspectives uniting concepts and epochs usually studied separately A wealth of illustrations accompanies the contextual analysis and provides essential depth to this critical work Insignia of Rank in the Nahua World substantially expands and elaborates on the themes of Olko s *Turquoise Diadems and Staffs of Office* originally published in Poland and never released in North America Collecting Mesoamerican Art before 1940 Andrew D. Turner, Megan E. O'Neil, 2024-02-13 The untold chronicles of the looting and collecting of ancient Mesoamerican objects This book traces the fascinating history of how and why ancient Mesoamerican objects have been collected It begins with the pre Hispanic antiquities that first entered European collections in the sixteenth century as gifts or seizures continues through the rise of systematic collecting in Europe and the Americas during the nineteenth and twentieth centuries and ends in 1940 the start of Europe s art market collapse at the outbreak of World War II and the coinciding genesis of the large scale art market for pre Hispanic antiquities in the United States Drawing upon archival resources and international museum collections the contributors analyze the ways shifting patterns of collecting and taste including how pre Hispanic objects changed from being viewed as anthropological and scientific curiosities to collectible artworks have shaped modern academic disciplines as well as public private institutional and nationalistic attitudes toward Mesoamerican art As many nations across the world demand the return of their cultural patrimony and ancestral heritage it is essential to examine the historical processes events and actors that initially removed so many objects from their countries of origin **Clothing the New World Church** Maya Stanfield-Mazzi, 2021-02-15 The book provides the first broad survey of church textiles of Spanish America and demonstrates that while overlooked textiles were a vital part of visual culture in the Catholic Church When Catholic churches were built in the New World in the sixteenth century they were furnished with rich textiles known in Spanish as church clothing These textile ornaments covered churches altars stairs floors and walls Vestments clothed priests and church attendants and

garments clothed statues of saints The value attached to these textiles their constant use and their stunning visual qualities suggest that they played a much greater role in the creation of the Latin American Church than has been previously recognized In *Clothing the New World Church* Maya Stanfield Mazzi provides the first comprehensive survey of church adornment with textiles addressing how these works helped establish Christianity in Spanish America and expand it over four centuries Including more than 180 photos this book examines both imported and indigenous textiles used in the church compiling works that are now scattered around the world and reconstructing their original contexts Stanfield Mazzi delves into the hybrid or mestizo qualities of these cloths and argues that when local weavers or embroiderers in the Americas created church textiles they did so consciously with the understanding that they were creating a new church through their work The chapters are divided by textile type including embroidery featherwork tapestry painted cotton and cotton lace In the first chapter on woven silk we see how a silk standard was established on the basis of priestly preferences for this imported cloth The second chapter explains how Spanish style embroidery was introduced in the New World and mastered by local artisans The following chapters show that in select times and places spectacular local textile types were adapted for the church reflecting ancestral aesthetic and ideological patterns *Clothing the New World Church* makes a significant contribution to the fields of textile studies art history Church history and Latin American studies and to interdisciplinary scholarship on material culture and indigenous agency in the New World

M.**

McAllen, 2014-01-08 In this new telling of Mexico s Second Empire and Louis Napol on s installation of Maximilian von Habsburg and his wife Carlota of Belgium as the emperor and empress of Mexico Maximilian and Carlota brings the dramatic interesting and tragic time of this six year siege to life From 1861 to 1866 the French incorporated the armies of Austria Belgium including forces from Crimea to Egypt to fight and subdue the regime of Mexico s Benito Ju rez during the time of the U S Civil War France viewed this as a chance to seize Mexican territory in a moment they were convinced the Confederacy would prevail and take over Mexico With both sides distracted in the U S this was their opportunity to seize territory in North America In 1867 with aid from the United States this movement came to a disastrous end both for the

royals and for France while ushering in a new era for Mexico In a bid to oust Ju rez Mexican conservatives appealed to European leaders to select a monarch to run their country Maximilian and Carlota s reign from 1864 to 1867 was marked from the start by extravagance and ambition and ended with the execution of Maximilian by firing squad with Carlota on the brink of madness This epoch moment in the arc of French colonial rule which spans North American and European history at a critical juncture on both continents shows how Napoleon III s failure to save Maximilian disgusted Europeans and sealed his own fate Maximilian and Carlota offers a vivid portrait of the unusual marriage of Maximilian and Carlota and of international high society and politics at this critical nineteenth century juncture This largely unknown era in the history of the Americas comes to life through this colorful telling of the couple s tragic reign Memory in Fragments Megan E. O'Neil,2024-07-02 Here in the US we re having difficult discussions about who we should monumentalize the political implications of our statues or what to do with monuments that no longer reflect our ideals In a way this book looks at how the Maya dealt with these and related issues The author explores how the ancient Maya engaged with their history by using reusing altering and burying stone sculptures O Neil shows for example how the ancient Maya repurposed stelae that were damaged by their enemies In some cases they would break the stelae to signify a change in their status and bury them with others so that the buried monuments connected with those still standing in specific sacred sites Infused with agency the sculptures retained ceremonial meaning O Neil explores how those breakages and other different human interactions amidst unstable religious political and historical contexts changed the sculptures lives **Cultural Hierarchy in Sixteenth-Century Europe** Carina L.
