## **The Federal Machine Beginnings Of Bureaucracy In Jacksonian America:**

*The Federal Machine* Matthew A. Crenson, 1975      *The Federal Machine* Matthew A. Crenson, 1975 0      *America's Three Regimes* Morton Keller, 2009-03-11 Hailed in The New York Times Book Review as the single best book written in recent years on the sweep of American political history this groundbreaking work divides our nation's history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American politics government and law The three regimes which mark longer periods of continuity than traditional eras reflect are Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present Praised by The Economist as a feast to enjoy and by Foreign Affairs as a masterful and fresh account of U S politics here is a major contribution to the history of the United States an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life      *The Militia and the National Guard in America Since Colonial Times* Jerry M. Cooper, 1993-07-27 This research guide fills a major gap in the literature about the citizen and volunteer soldier in American military history and explains how to conduct research on the subject and to explore fruitful areas for future study Professor Cooper gives a brief historiography and points to the 50 most important studies on America's militia and National Guard A carefully annotated bibliography provides basic information about 406 books dissertations and journal articles Chapters cover different historical periods and topics including African Americans for the easy use of students scholars and researchers in history and military studies as well as for history buffs wanting to learn more about the Guard Author and subject indexes add to the usefulness of the volume      *The Federal Civil Service--history, Organization, and Activities* United States Civil Service Commission. Library, 1977      **The Forging of Bureaucratic Autonomy** Daniel Carpenter, 2020-06-16 Until now political scientists have devoted little attention to the origins of American bureaucracy and the relationship between bureaucratic and interest group politics In this pioneering book Daniel Carpenter contributes to our understanding of institutions by presenting a unified study of bureaucratic autonomy in democratic regimes He focuses on the emergence of bureaucratic policy innovation in the United States during the Progressive Era asking why the Post Office Department and the Department of Agriculture became politically independent authors of new policy and why the Interior Department did not To explain these developments Carpenter offers a new theory of bureaucratic autonomy grounded in organization theory rational choice models and network concepts According to the author bureaucracies with unique goals achieve autonomy when their middle level officials establish reputations among diverse coalitions for effectively providing unique services These coalitions enable agencies to resist political control and make it costly for politicians to ignore the agencies ideas Carpenter assesses his argument through a highly innovative combination of historical narratives statistical analyses counterfactuals and carefully structured policy comparisons Along the way he reinterprets the rise of national food and drug

regulation Comstockery and the Progressive anti vice movement the emergence of American conservation policy the ascent of the farm lobby the creation of postal savings banks and free rural mail delivery and even the congressional Cannon Revolt of 1910

**Political Order and Political Decay** Francis Fukuyama, 2014-09-30 The second volume of the bestselling landmark work on the history of the modern state Writing in The Wall Street Journal David Gress called Francis Fukuyama's Origins of Political Order magisterial in its learning and admirably immodest in its ambition In The New York Times Book Review Michael Lind described the book as a major achievement by one of the leading public intellectuals of our time And in The Washington Post Gerard DeGroot exclaimed this is a book that will be remembered Bring on volume two Volume two is finally here completing the most important work of political thought in at least a generation Taking up the essential question of how societies develop strong impersonal and accountable political institutions Fukuyama follows the story from the French Revolution to the so called Arab Spring and the deep dysfunctions of contemporary American politics He examines the effects of corruption on governance and why some societies have been successful at rooting it out He explores the different legacies of colonialism in Latin America Africa and Asia and offers a clear eyed account of why some regions have thrived and developed more quickly than others And he boldly reckons with the future of democracy in the face of a rising global middle class and entrenched political paralysis in the West A sweeping masterful account of the struggle to create a well functioning modern state Political Order and Political Decay is destined to be a classic

**Comparative Administrative Law** Susan Rose-Ackerman, Peter L. Lindseth, 2010-01-01 This research handbook is a comprehensive overview of the field of comparative administrative law The specially commissioned chapters in this landmark volume represent a broad multi method approach combining perspectives from history and social science with more strictly legal analyses Comparisons of the United States continental Europe and the British Commonwealth are complemented by contributions that focus on Latin America Africa and Asia The work aims to stimulate comparative research on public law reaching across countries and scholarly disciplines Beginning with historical reflections on the emergence of administrative law over the last two centuries the volume then turns to the relationship of administrative and constitutional law with an additional section focusing on the key issue of administrative independence Two further sections highlight the possible tensions between impartial expertise and public accountability drawing insights from economics and political science as well as law The final section considers the changing boundaries of the administrative state both the public private distinction and the links between domestic and transnational regulatory bodies such as the European Union In covering this broad range of topics the book illuminates a core concern of administrative law the way individuals and organizations across different systems test and challenge the legitimacy of public authority This extensive interdisciplinary appraisal of the field will prove a vital resource for scholars and students of administrative and comparative law Historians of the state looking for a broad overview of a key area of public law reformers in emerging economies donor agencies looking for governance options and policy analysts with an interest in

the law policy interface will find this work a valuable addition to their library      *Personnel Management in Government*  
Katherine C. Naff, Norma M. Riccucci, Jay Shafritz, David H. Rosenbloom, Albert C. Hyde, 2001-05-15 A comprehensive guide  
this book covers employee relations and the legacy of quality and reengineering and discussions on the growth of public  
personnel management in state and local sectors The authors discuss affirmative action and equal opportunity case law work  
and family issues the Volcker Commission findings an analysis of federal pay reform and innovative classification and  
compensation systems currently implemented by federal agencies a discussion of constitutional and legal issues facing public  
personnel administration in areas such as AIDS and drug testing figures and tables on collective bargaining laws and trends  
and more      **U.S. Government Publication** John Spencer Walters, 2005-02-09 Examines the forces that have deflected U S  
Government publication from becoming the public enterprise that Congress had conceived in the nineteenth century Walters  
covers everything from the deeply embedded ideas of the American political consciousness and its inhibitive effect on the  
production distribution preservation and quality of U S Government documents to reasons why the executive department  
circumvented the U S Government Printing Office to the causes behind the conspicuous lawlessness of government  
publication to how the folkways of science served to constrict the sphere of government publication to a narrow strip      Fire  
and Light James MacGregor Burns, 2013-10-29 The Pulitzer Prize winning historian explores history s most daring and  
transformational intellectual movement the European and American Enlightenment In this engaging provocative history  
James MacGregor Burns illuminates the two hundred year conflagration of the Enlightenment when audacious questions and  
astonishing ideas tore across Europe and the New World They transformed thought overturned governments and inspired  
visionary political experiments Fire and Light brings to life the revolutionary leaders who armed with a new sense of human  
possibility created the modern world Burns traces the origins of a distinctive American Enlightenment to men like Benjamin  
Franklin John Adams Thomas Jefferson and James Madison and their early encounters with incendiary European ideas about  
liberty and equality It was these thinker activists who framed the United States as a grand and continuing experiment in  
Enlightenment principles Today the same principles have taken on new urgency around the world in the turmoil of the Arab  
world in the former Soviet Union and in China as well as in the United States itself What should a nation be What should  
citizens expect from their government Who should lead and how can leadership be made both effective and accountable What  
is happiness and what can the state contribute to it Burns s exploration of the ideals and arguments that formed the bedrock  
of our modern world shines a new light on these ever important questions Praise for Fire and Light With this profound and  
magnificent book Burns takes us into the fire s center Essential for deciphering the challenges of the world we will live in  
tomorrow Michael Beschloss New York Times bestselling author of Presidential Courage James MacGregor Burns is a  
national treasure and Fire and Light is the elegiac capstone to a career devoted to understanding the seminal ideas that  
made America for better and for worse what it is Joseph J Ellis Pulitzer Prize and National Book Award winning author of

Revolutionary Summer A captivating tale Briskly and beautifully told Superb Publishers Weekly **Indian Affairs and the Administrative State in the Nineteenth Century** Stephen J. Rockwell, 2010-06-07 Stephen J Rockwell analyzes the role of national administration in Indian affairs and other national policy areas related to westward expansion in the nineteenth century **Who Governs?** John H. Wood, 2020-01-28 When we start to perceive that there is a problem in the market such as monopoly fraud or speculation the legislature passes a law to correct it a bureaucracy is created to interpret and enforce the new law firms and other market participants comply and the problem is solved But is it Are politicians promises and textbooks stories to be believed This book examines US economic history to demonstrate how the applications of laws are uncertain affected by changing political and economic conditions as well as by legislators perceptions and the ability or willingness of bureaucracies to enforce laws The two cases developed in this book revolve around William McChesney Martin Jr who helped apply i the 1930s Securities Acts as president of the New York Stock Exchange and ii the Federal Reserve Act in the Keynesian era unforeseen by that Act As chairman of the New York Stock Exchange Martin served as private regulator of firms listed on the Exchange itself a publicly regulated entity As chairman of the Federal Reserve he then served as a public regulator This book thus offers an innovative approach to understanding and examining the various issues and incentives facing each of the three parties regulated private regulator and public regulator To Enlarge the Machinery of Government William James Hull Hoffer, 2007-08-16 How did the federal government change from the weak apparatus of the antebellum period to the large administrative state of the Progressive Era To Enlarge the Machinery of Government explores the daily proceedings of the U S House and Senate from 1858 to 1891 to find answers to this question Through close readings of debates centered around sponsorship supervision and standardization recorded in the Congressional Globe and Congressional Record during this period William James Hull Hoffer traces a critical shift in ideas that ultimately ushered in Progressive legislation the willingness of American citizens to allow and in fact ask for federal intervention in their daily lives He describes this era of congressional thought as a second state distinct from both the minimalist approaches that came before and the Progressive state building that developed later The second state era Hoffer contends offers valuable insight into how conceptions of American uniqueness contributed to the shape of the federal government **The Decline of Authority** Ray Gunn, 2019-05-15 From the Revolution until the Panic of 1837 Americans accepted state intervention in the economy as a legitimate even an essential function of government The Decline of Authority examines the transformation of New York State government between 1800 and 1860 a critical period during which governmental authority diminished as most state governments withdrew from interventionist economic policies and relinquished their role in the allocation of resources to the private sector Exploring the relationship between socioeconomic change public economic policy and political development L Ray Gunn offers an innovative explanation for the new configuration of politics and governance in New York State that emerged during this era **Personnel Management in Government** Norma M. Riccucci, Katherine C.

Naff, 2017-09-25 With over 20 million people on its payroll the government continues to be the largest employer in the country Managing people who do the nation's work is of critical importance to politicians and government leaders as well as citizens The great recession of 2008 put enormous strains on governments highlighting the key role personnel play in managing under times of austerity as well as prosperity A thorough examination of political and historical aspects Personnel Management in Government Politics and Process Seventh Edition provides students with a comprehensive understanding of human resource management within its historical and political context in the public sector It discusses the development of public sector human resource management the present status of best practices and important insights from current scholarship on all three levels of government federal state and local See What's New in the Seventh Edition Personnel reforms under the Obama administration Pension developments at state and local levels of government Labor relations reforms at state and local levels e.g. recent experiences in Michigan Ohio and other states making big changes to labor laws and policies Changes to diversity and affirmative action initiatives across the nation Developments in performance outcome initiatives at all levels of government During the 36 years since the publication of the first edition the authors have addressed issues that were not yet considered mainstream yet have become so over time The seventh edition is no different It examines progress that public personnel professionals are making to address changes in the political legal and managerial environment of the current decade Exploring developments and innovations in the management of people who carry out the government's work the book introduces students to public sector personnel management

**The Oxford Handbook of American Political Development** Richard M. Valelly, Suzanne Mettler, Robert C. Lieberman, 2016-09-15 Scholars working in or sympathetic to American political development APD share a commitment to accurately understanding the history of American politics and thus they question stylized facts about America's political evolution Like other approaches to American politics APD prizes analytical rigor data collection the development and testing of theory and the generation of provocative hypotheses Much APD scholarship indeed overlaps with the American politics subfield and its many well developed literatures on specific institutions or processes for example Congress judicial politics or party competition specific policy domains welfare policy immigration the foundations of inequality in American politics the distribution of wealth and income race ethnicity gender class and sexual and gender orientation public law and governance and representation What distinguishes APD is careful systematic thought about the ways that political processes civic ideals the political construction of social divisions patterns of identity formation the making and implementation of public policies contestation over and via the Constitution and other formal and informal institutions and processes evolve over time and whether and how they alter compromise or sustain the American liberal democratic regime APD scholars identify in short the histories that constitute American politics They ask what familiar or unfamiliar elements of the American past illuminate the present Are contemporary phenomena that appear new or surprising prefigured in ways that an APD approach can bring to the fore If a

contemporary phenomenon is unprecedented then how might an accurate understanding of the evolution of American politics unlock its significance Featuring contributions from leading academics in the field The Oxford Handbook of American Political Development provides an authoritative and accessible analysis of the study of American political development

Hyperpolitics Mauro Calise, Theodore J. Lowi, 2010-10 Hyperpolitics is an appealing book in print format that is enhanced by an interactive Web version Calise Univ of Naples Federico II and Lowi Cornell Univ define a hyperdictionary as a dictionary that uses a method for unpacking a dense concept by separating out its components a method of concept analysis Hyperpolitics provides an innovative way of defining political science topics It is a dictionary so readers can look up concepts that are organized in alphabetical order Using the Web site users can also for instance move from a definition to its Sources summaries from other dictionaries and online bibliographical sources The 67 terms are divided into main concepts short entries and cross entries The 18 main subjects include terms like citizen law and pluralism The 17 short entries cover subjects such as choice majority and participation Finally the 32 cross entries feature concepts like class conflict and democracy with matrices linking them to other concepts The book is very visual which should appeal to students However the matrices lend themselves very naturally to the Web where many readers will find additional value The Web site includes a users guide Summing Up Recommended Lower division undergraduates through researchers faculty Lower division Undergraduates Upper division Undergraduates Graduate Students Researchers Faculty Reviewed by K N Djourup City Trenches Ira Katznelson, 2013-10-02 The urban crisis of the 1960s revived a dormant social activism whose protagonists placed their hoped for radical change and political effectiveness in community action Ironically the insurgents chose the local community as their terrain for a political battle that in reality involved a few strictly local issues They failed to achieve their goals Ira Katznelson argues not so much because they had chosen their ground badly but because the deep split of the American political landscape into workplace politics and community politics defeats attempts to address grievances or raise demands that break the rules of bread and butter unionism on the one hand or of local politics on the other A fascinating record of the encounter between today s reformers the community activists and the powers they challenge City Trenches is also a probing analysis of the causes of urban instability Katznelson anatomizes the unique workings of the American urban system which allow it to contain opposition through machine politics and as a last resort institutional innovation and co optation for example the authorities own version of decentralization used in the 1960s as a counter to a community control Washington Heights Inwood a multi ethnic working class community in northern Manhattan provides the setting for an absorbing close up view of the historical evolution of local politics the challenge to the system in the 1960s and its reconstitution in the 1970s Technological Utopianism in American Culture Howard P. Segal, 2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal s acclaimed work on utopian visionaries
