Stout,1958      *NAACP Youth and the Fight for Black Freedom, 1936-1965* Thomas Bynum,2013-08-30 Historical studies of black youth activism have until now focused almost exclusively on the activities of the Congress of Racial Equality CORE and the Student Nonviolent Coordinating Committee SNCC However the NAACP youth councils and college chapters predate both of those organizations They initiated grassroots organizing efforts and nonviolent direct action tactics as early as the 1930s and in doing so made significant contributions to the struggle for racial equality in the United States This deeply researched book breaks new ground in an important and compelling area of study Thomas Bynum carefully examines the activism of the NAACP youth and effectively refutes the

perception of the NAACP as working strictly through the courts His research illuminates the many direct action activities undertaken by the young people of the NAACP activities that helped precipitate the breakdown of racial discrimination and segregation in America Beginning with the formal organization of the NAACP youth movement under Juanita Jackson the author traces the group s activities from their early anti lynching demonstrations through their post World War II withholding patronage campaigns to their participation in the sit in protests of the 1960s He also explores the evolution of the youth councils and college chapters including their sometime rocky relationship with the national office and shows how these groups actually provided a framework for the emergence of youth activism within CORE and SNCC The author provides a comprehensive account of the generational struggle for racial equality capturing the successes failures and challenges the NAACP youth groups experienced at the national state and local levels He firmly establishes the vital role they played in the history of the civil rights movement in the United States and in the burgeoning tradition of youth activism in the postwar decades

*Our War Too* Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation s entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women s Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America s entry into the war but supported it nevertheless By late 1941 the Women s Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women s pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs *Our War Too* is a story of American women

trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war     Faith of the Fallen Terry Goodkind,2000-08-22 Sword of truth novel     *Recruiting Poems* ,1919     Beacon ,2001-05     Opportunity Charles Spurgeon Johnson,1969
