The First European Elections Neo Functionalism And The European Parliament:

The First European Elections Jane P. Sweeney, 2019-07-11 The voice of the spirit of Europe is the European Commission's description of the Community's 434 member Parliament Four years after the European Parliament's historic first direct election by the citizens of nine countries that voice is barely audible and one must pause to wonder whether the spirit is equally weak The European Parliament is potentially one of the most interesting legislative bodies in the world because of the circumstances which created it its unique transnational composition and the power it may some day wield However the gap between the real and the possible is very large indeed **The First European Elections** Jane P. Sweeney, 2019

International Institutional Law Niels M. Blokker, 2025-03-24 This seventh revised edition of *International Institutional Law* covers the most recent developments in the field Although public international organizations such as the United Nations the World Trade Organization the World Health Organization the African Union ASEAN the European Union Mercosur NATO and OPEC have widely divergent objectives powers fields of activity and numbers of member states they also have many institutional characteristics in common There is unity within diversity Rather than being a handbook for specific organizations the book offers a comparative analysis of the institutional law of international organizations It includes chapters on the rules and practices concerning membership institutional structure decision making financing legal order supervision and sanctions legal status and external relations The book's theoretical framework and extensive use of examples from practice is designed to appeal to both academics and practitioners *European Foreign Policy and the European Parliament in the 1990s* Donatella M. Viola, 2019-06-04 This title was first published in 2000 This book investigates the European Parliament's stance vis à vis the 1990 1991 Gulf and 1991 1992 Yugoslav crises In unveiling the parliamentary multi faceted view of these events reference has been made to the positions taken by constituent political groups and their voting behaviour In particular the following questions have been addressed has the European Parliament sought to define and shape a common foreign policy with respect to the above crises What specific functions have the European Parliament political groups performed Have political groups succeeded in achieving an internal cohesion Has the European Parliament overcome divisions among its members through the formation of party coalitions despite the considerable flow of published material on external relations of the European Union and the European Parliament virtually no study has explored in depth the links between these two areas The purpose of this book is to fill the gap in the existing literature breaking new ground by combining a qualitative and qualitative analysis of parliamentary behaviour with foreign policy European Integration Hans J. Michelmann, Panayotis Soldatos, 1994 This text offers a multidisciplinary overview of theories of and academic approaches to European integration The authors include four political scientists an economist a historian and a legal scholar They examine critically the theories of European integration as well as related theoretical and empirical works in political science sociology and economics *International Institutional Law* Henry G. Schermers, Niels M. Blokker, 2011-08-11 This

book offers a comparative analysis of the institutional law of public international organizations covering issues such as membership institutional structure decisions and decision making legal status privileges and immunities It has been designed to appeal to both academics and practitioners **The European Parliament's Role in Closer EU Integration** R.

Corbett,2015-12-22 Nearly 20 years after it first became an elected institution it is time to assess the impact of the European Parliament on the process of European integration This book does so beginning with an analysis of what integration theorists expected of the directly elected Parliament when such an idea was still on the drawing board and then examining what the Parliament has achieved in practice It concludes that the Parliament has been extremely significant though not always in the ways initially expected **Baltic-Black Sea Regionalisms** Olga Bogdanova,Andrey Makarychev,2019-10-01 This edited

volume focuses on various forms of regionalism and neighborhoods in the Baltic Black Sea area In the light of current reshaping of borderlands and new geopolitical and military confrontations in Europe s eastern margins such as the annexation of Crimea and the war in Donbas this book analyzes different types and modalities of regional integration and region making from a comparative perspective It conceptualizes cooperative and conflictual encounters as a series of networks and patchworks that differently link and relate major actors to each other and thus shape these interconnections as domains of inclusion and exclusion bordering and debordering securitization and desecuritization This peculiar combination of geopolitics ethnopolitics and biopolitics makes the Baltic Black Sea trans national region a source of inspiring policy practices and in the light of new security risks a matter of increased concern all over Europe The contributors from various disciplines cover topics such as cultural and civilizational spaces of belonging and identity politics the rise of right wing populism region building under the condition of multiple security pressures and the influence and regional strategies of different external powers including the EU Russia and Turkey on cross and trans regional relations in the area European Union: The Basics Alex Warleigh-Lack,2008 **The European Parliament** Francis Jacobs,Richard Corbett,Michael Shackleton,1992 A textbook on the European Parliament covering every aspect of how it is organized its powers and its procedures The EU Political System After the 2019 European Elections Olivier Costa,Steven Van Hecke,2022-11-22 This

book assesses the impact of the May 2019 European elections as well as the Covid 19 pandemic on the EU s politics institutions and policies Special attention is paid to the impact of these events on the different political forces as well as on the Union s institutional balance its priorities and the reform of its budget and policies Because of the many post electoral uncertainties the book also takes into account how the relations between the Parliament the European Council and the new Commission have developed Furthermore it analyses the capacity of the von der Leyen Commission to implement an ambitious programme especially in the context of an unfolding pandemic The objective of this book is to study the 2019 electoral sequence parliamentary elections appointment of EU institutions leaders investiture of the Commission new legislative programme and determine its influence on the main institutional and political challenges for the 2019 2024

legislature In other words the volume deals with the question of who holds the EU's leadership after the 2019 elections and how it handles the 2020-2021 pandemic

The Impact of European Integration George A. Kourvetaris, Andreas Moschonas, 1996-01-30 Comprises 14 papers Provides essentially a political and social analysis of the changes that have brought into being the European Union and that will affect its future

The Politics of Legitimation in the European Union Christopher Lord, Peter Bursens, Dirk De Bièvre, Jarle Trondal, Ramses A. Wessel, 2022-04-19 This book examines and investigates the legitimacy of the European Union by acknowledging the importance of variation across actors institutions audiences and context Case studies reveal how different actors have contributed to the politics of re-legitimizing the European Union in response to multiple recent problems in European integration The case studies look specifically at stakeholder interests social groups officials judges the media and other actors external to the Union With this the book develops a better understanding of how the politics of legitimating the Union are actor dependent context dependent and problem dependent This book will be of key interest to scholars and students of European integration as well as those interested in legitimacy and democracy beyond the state from a point of view of political science political sociology and the social sciences more broadly
