## **The First Of Football:**

*Football: The First Hundred Years* Adrian Harvey, 2013-05-13 The story of the creation of Britain's national game has often been told. According to the accepted wisdom, the refined football games created by English public schools in the 1860s subsequently became the sports of the masses. *Football: The First Hundred Years* provides a revisionist history of the game, challenging previously widely accepted beliefs. Harvey argues that established football history does not correspond with the facts. Football as played by the masses prior to the adoption of the public school codes is almost always portrayed as wild and barbaric. This view may require considerable modification in the light of Harvey's research. *Football's First One Hundred Years* provides a very detailed picture of the football played outside the confines of the public schools, revealing a culture that was every bit as sophisticated and influential as that found within their prestigious walls. *Football: The First Hundred Years* sets forth a completely revisionist thesis, offering a different perspective on almost every aspect of the established history of the formative years of the game. The book will be of great interest to sports historians and football enthusiasts alike.

**The First 100 African Americans to Play in the National Football League** Jerome Watkins, 2024-11-05 Veterans Day Sunday November 11, 2001, eighty-one years after the gathering of the founding members of the National Football League in Canton, Ohio, I walked onto the historic Soldier Field in Chicago, Illinois, as a member of the officiating chain crew to work the football game between the Chicago Bears and the Green Bay Packers, which is the oldest rivalry in the NFL.

**The World's First Football Superstar** Owen Arthur, 2022-08-25 Buried in an unmarked grave in the churchyard of the small village of Benson in Oxfordshire lies the body of a footballing world champion from a bygone era, shrouded in the mists of time. His name was Stephen Smith. This footballer of the Victorian and Edwardian era could claim as many league title-winning medals as John Terry and Wayne Rooney, more league winners' medals than Eric Cantona, Frank Lampard, Cristiano Ronaldo, Thierry Henry, and Alan Shearer. This book is the never-before-told story of a footballer born at the end of the Industrial Revolution, son of agricultural labourers who became a miner working underground, combining that job with one as a professional footballer to rise to the top of the footballing world. Smith won trophy after trophy in the best and only professional league anywhere in the world at that time. He also scored the goal that made England World Champions in 1895. Smith, at the top of his game in a move that mirrored the Premier League breakaway of 1992 and the recent ill-fated European Super League, then joined the newly formed Southern League at a time when the Football League started to cap player wages. He did this in order to ensure his family's future as well as end his reliance on his part-time earnings from mining. Football's zeitgeist has fundamentally changed very little in the last 130 years for those inside the industry. This is the story of Stephen Smith and the quest to find the support and funds to mark and commemorate one of the most decorated yet underappreciated footballers in the history of the game.
