Forever and Ever Apologetics for Eternity is an original work written in defense of the Christian belief of Eternity the perpetual unending reality at the demise of temporal existence and the culmination of time It explains the concept of Eternity the eternal capabilities of the soul and spirit of man and the transformance from mortal to immortality This work also

examines various philosophies opinions and the societal mores that influence or contribute to disbelief or unbelief of the truth of Eternity espoused in Christian doctrine So why the need to offer apologetics for Eternity Where and why does faith take a metaphoric bow and allow a defense for something that will still hinge on that old human religious and spiritual apprehension called trust a trust that something is without evidence of proof without substance is intangible invisible yet attainable by believing what is not seen what is inconceivable or even can be Why defend something that is an inevitability that will become actuality For this discourse apologetics is simply a defense of the Christian belief that life never ends and at the end of this mortal course will assume an eternal destiny It means to challenge scientific theory and opinions that denounce intelligent design and deny the possibility of Eternity It means to examine witnesses to the veracity of Eternity It is the defense of forever that Parousia at the Escalon is closer now than ever before leading to the never ending vastness of a new beginning called Eternity
