Wright,2010-10-01 I have been asked to record plainly and without prejudice a brief history of the Forgotten Planet That this record when completed will be sealed in the archives of the Interplanetary Alliance and remain there a secret and rather dreadful bit of history is no concern of mine I am an old man well past the century mark and what disposal is made of my work is of little importance to me I grow weary of life and living which is good The fear of death was lost when our scientists showed us how to live until we grew weary of life But I am digressing an old man s failing The Forgotten Planet was not always so named The name that it once bore had been as every child knows stricken from the records actual and mental of the Universe It is well that evil should not be remembered But in order that this history may be clear in the centuries to come my record should go back to beginnings So far as the Universe is concerned the history of the Forgotten Planet begins with the visit of the first craft ever to span the space between the worlds the crude adventuresome Edorn whose name as well as the names of the nine Zenians who manned her occupy the highest places in the roll of honor of the Universe **The**

Forgotten Planet [Didactic Press Paperbacks] Murray Leinster,2017-05-29 Beneath dense gray clouds through which no sun shone lay a forgotten planet It was a nightmare world of grotesque and terrifying animal plant life Gigantic beetles spiders bugs and ants filled the putrid musty earth ready to kill and devour anything in sight There were men amidst this horror men who cringed and ran from the ravening monsters and huddled in the mushroom forests at night Burl was one of these creatures But one day inspiration hit Burl He would find a weapon he would fight back And with this idea the first step was taken in man s most desperate flight for freedom in this most horrible of all worlds But it was only a first step The Forgotten Planet - The Original Classic Edition Murray Leinster,2013-03-13 Finally available a high quality book of the original classic edition of The Forgotten Planet It was previously published by other bona fide publishers and is now after many years back in print This is a new and freshly published edition of this culturally important work by Murray Leinster which is now at last again available to you Get the PDF and EPUB NOW as well Included in your purchase you have The Forgotten Planet in EPUB AND PDF format to read on any tablet eReader desktop laptop or smartphone simultaneous Get it NOW Enjoy this classic work today These selected paragraphs distill the contents and give you a quick look inside The Forgotten Planet Look inside the book The human beings had forgotten not only their ancestors ship but very nearly everything their ancestors had brought to this world the use of metals the existence of fire and even the fact that there was such a thing as sunshine Sitting dismally upon his fungus raft floating in midstream an incongruous figure of pink skin and luridly tinted loin cloth with a greasy dead fish beside him he was filled with a panicky anguish because the river carried him away from the one girl of his tiny tribe whose glances roused a commotion in his breast About Murray Leinster the Author When the pulp magazines began to diversify into particular genres in the 1920s Leinster followed suit selling jungle stories to Danger Trails westerns to West and Cowboy Stories detective stories to Black Mask and Mystery Stories horror stories to Weird Tales and even romance stories to Love Story Magazine under the pen name Louisa Carter Lee Leinster s first science

fiction story *The Runaway Skyscraper* appeared in the February 22 1919 issue of *Argosy* and was reprinted in the June 1926 issue of Hugo Gernsback's first science fiction magazine *Amazing Stories* *The Forgotten Planet* Doug Wilhelm,1993 While on your communications job you discover the disappearance of a space probe near the planet Minos Should you investigate Only you can decide what happens next *The Forgotten Planet* George Henry Smith,1965 *The Forgotten Planet* Murray Leinster,2015-11-10 This is something of an oddity among fiction stories because some of its characters may be met in person if you wish Down at the nearest weed patch or thicket you are quite likely to see a large and unusually perfect spider web with a zig zag silk ribbon woven into its center Its engineer is the yellow banded garden spider *Epeira Fasciata* whose abdomen may be as big as your thumb I do not name it to impress you but to suggest a sort of science fiction experience Take a bit of straw and disturb the web Don't break the cables Simply tap them a bit The spider will know by the feel of things that you aren't prey and that it can't eat you So it will set out frightening you away It will run nimbly to the center of the web and shake itself violently The whole web will vibrate so that presently the spider may be swinging through an arc inches in length and blurred by the speed of its swing You are supposed to be scared When you are alarmed enough the spider will stop That spider very much magnified is in this book with crickets and grasshoppers and divers beetles you may not know personally But this is not an insect book but science fiction If the habits of the creatures in it are authentic it is because they are much more dramatic and interesting than things one can invent *The Forgotten Planet* Murray Leinster,2017-11-30 Beneath dense gray clouds through which no sun shone lay a forgotten planet It was a nightmare world of grotesque and terrifying animal plant life Gigantic beetles spiders bugs and ants filled the putrid musty earth ready to kill and devour anything in sight There were men amidst this horror men who cringed and ran from the ravening monsters and huddled in the mushroom forests at night Burl was one of these creatures But one day inspiration hit Burl He would find a weapon he would fight back And with this idea the first step was taken in man's most desperate flight for freedom in this most horrible of all worlds But it was only a first step ***The Forgotten Planet*** Murray Leinster,2023-09-18 In *The Forgotten Planet* Murray Leinster weaves a captivating narrative that merges science fiction with a profound exploration of human resilience and adaptability Set against the backdrop of an alien world Leinster's stylistically rich prose paints a vivid picture of both the mysterious planet and its inhabitants Utilizing intricate world building and an engaging plot structure the novel reflects the sociopolitical anxieties of the 1950s particularly regarding themes of colonization and the human condition in extraterrestrial settings Leinster's innovative use of dialogue and descriptive imagery enhances the immersive experience inviting readers to navigate the complex interplay of survival technology and morality on this uncharted world Murray Leinster a prolific author known as one of the pioneers of science fiction has a background in journalism that sharpened his narrative skills and ability to convey complex ideas in an accessible manner His diverse experiences from his early forays into pulp magazines to his work during the Golden Age of Science Fiction shaped his literary voice Leinster was particularly

fascinated by the intersection of humanity and technology a theme that is prevalent in *The Forgotten Planet* and speaks to his concerns about the future I highly recommend *The Forgotten Planet* to both seasoned fans of speculative fiction and newcomers alike Leinster's thought provoking narrative offers not just entertainment but also a lens through which to examine our own relationships with the unknown Prepare to be captivated by the challenges faced by its characters as you reflect on what it means to be human in the vast universe

The forgotten planet: Mystique Alain Costea, 2024-04-18 Earthly year 2833 Planet Mystique under the influence of the Solar Empire From the moment she set foot she couldn't get enough If she could she would have embraced it all in a single hug The endless fields of plants their soft green stems rising up to 50 70 cm leafless and ending in clusters of intensely luminous red to pink peonies the low grass forming a dense carpet of the same dark green all of it gave the impression that the flowers were actually floating above the ground She walked among them as if walking on water each touch creating ripples through the sea of blossoms Unaware she had come very close to the weeping willow wall She wasn't sure where the name came from but somehow it seemed to fit these trees perfectly up to 40 meters tall with trunks in the same omnipresent shade of dark green that turned almost fluorescent lime green toward the middle adorned with small pink streaks where countless thin branches originated These branches fell toward the ground creating an illusion of perpetual levitation

The Forgotten Planet Sewell Peaslee Wright, 2013-12-31 **Special Service Patrol** Sewell Peaslee Wright, 2011-06-01 This book includes all of the John Hanson Series *The Forgotten Planet* *The Terrible Tentacles of L 472* *The Dark Side of Antri* *The Ghost World* *The Man from 2071* *The God in the Box* *The Terror from the Depths* *Vampires of Space* *Priestess of the Flame* *The Death Traps of FX 31* Excerpt I have been asked to record plainly and

without prejudice a brief history of the Forgotten Planet That this record when completed will be sealed in the archives of the Interplanetary Alliance and remain there a secret and rather dreadful bit of history is no concern of mine I am an old man well past the century mark and what disposal is made of my work is of little importance to me I grow weary of life and living which is good The fear of death was lost when our scientists showed us how to live until we grew weary of life But I am digressing an old man s failing The Forgotten Planet was not always so named The name that it once bore had been as every child knows stricken from the records actual and mental of the Universe It is well that evil should not be remembered But in order that this history may be clear in the centuries to come my record should go back to beginnings So far as the Universe is concerned the history of the Forgotten Planet begins with the visit of the first craft ever to span the space between the worlds the crude adventuresome Edorn whose name as well as the names of the nine Zenians who manned her occupy the highest places in the roll of honor of the Universe Ame Baove the commander and historian of the Edorn made but brief comment on his stop at the Forgotten Planet I shall record it in full We came to rest upon the surface of this the fourth of the planets visited during the first trip of the Edorn eighteen spaces before the height of the sun We found ourselves surrounded immediately by vast numbers of creatures very different from ourselves and from their expressions and gestures we gathered that they were both curious and unfriendly Careful analysis of the atmosphere proved it to be sufficiently similar to our own to make it possible for us to again stretch our legs outside the rather cramped quarters of the Edorn and tread the soil of still another world No sooner had we emerged however than we were angrily beset by the people of this unfriendly planet and rather than do them injury we retired immediately and concluded our brief observations through our ports The topography of this planet is similar to our own save that there are no mountains and the flora is highly colored almost without exception and apparently quite largely parasitical in nature The people are rather short in stature with hairless heads and high foreheads Instead of being round or oval however the heads of these people rise to a rounded ridge which runs back from a point between and just above the eyes nearly to the nape of the neck behind They give evidence of a fair order of intelligence but are suspicious and unfriendly From the number and size of the cities we saw this planet is evidently thickly populated We left about sixteen spaces before the height of the sun and continued towards the fifth and last planet before our return to Zenia
