*The Formation of the Lutheran Church in America* Johannes Knudsen, 1978      The Lutherans L. DeAne Lagerquist, 1999-10-30 Lutheran churches in the United States have included multiple ethnic cultures since the colonial era and continue to wrestle with increasing internal variety as one component of their identity By combining the concerns of social history with an awareness for theological themes this volume explores the history of this family of Lutheran churches and traces the development from the colonial era through the formation of the Evangelical Lutheran Church in America in 1988 An introduction details the origins of Lutheranism in the European Reformation and the practices significant to the group's life in the United States Organized chronologically subsequent chapters follow the churches maturation as they form institutions provide themselves with leaders and expand their membership and geographic range Attention is given throughout to the contributions of the laity and women within the context of the Lutherans continued individual and corporate effort to be both authentically Lutheran and genuinely American Offering a rich portrayal of the Lutherans lives and their churches the social historical approach of this study brings the Lutheran people to the foreground The dynamic relationship between pietist orthodox and critical expressions of the tradition has remained among Lutherans even though they have divided themselves by several factors including ethnicity and confessional stance Of interest to scholars and researchers of Lutheran history and religion in America this engaging multifaceted work balances narrative history with brief biographical essays A chronological listing of important dates in the development of the Lutheran church is especially helpful

Oldenburg, 2011-10-10 The Reformation of the 16th century was a complex and multifaceted political social cultural and religious process Most historians agree however that in the framework of this process it was the religious and theological efforts to reform and renew the late medieval church decadent and irrelevant in many ways that were the initiating forces that set a broad historical movement in motion Among these reforming religious and theological forces the Lutheran reform movement was the most important and influential one It was the historical impact of the theological genius of the Wittenberg professor Martin Luther 1483-1546 that profoundly changed and shaped the face of Europe and beyond Today Lutheranism has become a worldwide communion of churches that stretches from Germany to Siberia Papua New Guinea Madagascar and Surinam The second edition of the Historical Dictionary of Lutheranism presents information on major theological issues historical developments of Lutheranism worldwide Lutheran ecumenical and missionary involvement and activities worship and liturgy spirituality social ethics inter religious and Jewish relations Lutheranism and the arts theology and important representatives of Lutheranism This is done through a detailed chronology an introductory essay an appendix of Lutheran Churches a bibliography and hundreds of cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about Lutheranism
