The Fountain Of Youth Is It Possible:

The Fountain of Youth Steve Shear, 2017-05-19 Two generations of dementia are enough Robert Glickman declares in his quest to die with dignity and the likelihood he will be next To that end he uses his grandson's sixth grade quiz book a locked away metal box and a secret weapon that eventually comes back to haunt him In the meantime he is embroiled in the lives of other residents his neurotic sister Essie who plots to steal his secret weapon for herself beautiful Christina Abernathy a retired psychotherapist he instantly falls in love with Hester a young server at the Fountain who suffers from progressive mutism Boyle a man of mystery with a questionable past for good or evil Glickman isn't sure which and Boyle's grandson Santini a troubled young man caught between the dope dealers he runs with and the FBI wanting to use him Will Glickman and Essie beat dementia Can he win over Christina And what about Hester Boyle and Boyle's grandson

The Gland Illusion John B. Nanninga, M.D., 2017-02-07 Testosterone and estrogen treatments are common today but in the late 19th and early 20th centuries the discovery of sex gland secretions led both physicians and the public to believe they had found the secret to bodily rejuvenation This led to bizarre human experimentation involving injections of glandular fluid ingestion of glandular tissues and the transplanting of testes and ovaries Stranger still the treatments supposedly worked with both men and women reporting enhanced vitality Only later would the truth about these placebo induced results be brought to light This book explores the early history and practices of organotherapy and how it provided important scientific insights despite its pseudoscientific nature

Ontology Dale Jacquette, 2014-12-18 The philosophical study of what exists and what it means for something to exist is one of the core concerns of metaphysics This introduction to ontology provides readers with a comprehensive account of the central ideas of the subject of being This book is divided into two parts The first part explores questions of pure philosophical ontology what is meant by the concept of being why there exists something rather than nothing and why there is only one logically contingent actual world Dale Jacquette shows how logic provides the only possible answers to these fundamental problems The second part of the book examines issues of applied scientific ontology Jacquette offers a critical survey of some of the most influential traditional ontologies such as the distinction between appearance and reality and the categories of substance and transcendence The ontology of physical entities space time matter and causation is examined as well as the ontology of abstract entities such as sets numbers properties relations and propositions The special problems posed by the subjectivity of mind and of postulating a god are also explored in detail The final chapter examines the ontology of culture language and art

Metaphysics, Mathematics, and Meaning Nathan Salmon, 2005-11-24 Metaphysics Mathematics and Meaning brings together Nathan Salmon's influential papers on topics in the metaphysics of existence non existence and fiction modality and its logic strict identity including personal identity numbers and numerical quantifiers the philosophical significance of G del's Incompleteness theorems and semantic content and designation Including a previously unpublished essay and a helpful new introduction to orient the reader the volume

offers rich and varied sustenance for philosophers and logicians **The New Human in Literature** Mads Rosendahl Thomsen, 2013-09-26 Twentieth century literature changed understandings of what it meant to be human Mads Rosendahl Thomsen in this historical overview presents a record of literature's changing ideas of mankind questioning the degree to which literature records and creates visions of the new human Grounded in the theory of Niklas Luhmann and drawing on canonical works Thomsen uses literary changes in the mind body and society to define the new human He begins with the modernist minds of Virginia Woolf Williams Carlos Williams and Louis Ferdinand Celine's discusses the society changing concepts envisioned by Chinua Achebe Mo Yan and Orhan Pamuk He concludes with science fiction discussing Don DeLillo and Michel Houellebecq's ideas of revolutionizing man through biotechnology This is a study about imagination aesthetics and ethics that demonstrates literature's capacity to not only imagine the future but portray the conflicting desires between individual and various collectives better than any other media A study that heightens reflections on human evolution and posthumanism

The Philosophy Major's Introduction to Philosophy Ken Akiba, 2020-08-25 Many philosophy majors are shocked by the gap between the relative ease of lower level philosophy courses and the difficulty of upper division courses This book serves as a necessary bridge to upper level study in philosophy by offering rigorous but concise and accessible accounts of basic concepts and distinctions that are used throughout the discipline It serves as a valuable advanced introduction to any undergraduate who is moving into upper level courses in philosophy While lower level introductions to philosophy usually deal with popular topics accessible to the general student such as contemporary moral issues free will and personal identity in a piecemeal fashion The Philosophy Major's Introduction to Philosophy offers coverage of important general philosophical concepts tools and devices that may be used for a long time to come in various philosophical areas The volume is helpfully divided between a focus on the relation between language and the world in the first three chapters and coverage of mental content in the final two chapters but builds a coherent narrative from start to finish It also provides ample study questions and helpful signposts throughout making it a must have for any student attempting to engage fully with the problems and arguments in philosophy Key Features Integrates topics from various areas of philosophy such as philosophy of language metaphysics epistemology ethics and philosophical logic Provides descriptions of logico mathematical tools necessary for philosophical studies such as propositional logic predicate logic modal logic set theory mereology and mathematical functions Makes connections with modern philosophy including discussions of Descartes's skepticism and dualism Locke's theory of personal identity Hume's theory of causation and Kant's synthetic a priori Includes well known entertaining puzzles and thought experiments such as the Ship of Theseus the Statue and the Clay a Brain in a Vat and Twin Earth Lists helpful Exercise Questions and Discussion Questions at the end of each chapter and answers selected questions at the back of the book **ANALYTIC AND LINGUISTIC TRENDS** Richard John

Kosciejew, 2014-04 The science of mind has grown rapidly since the mid twentieth century There is now a sizeable body of

empirical knowledge concerning the structures and processes of neurophysiological studies which are underpinning e.g. thoughts, sensations and emotions. More generally, the interdisciplinary fields of thought are burgeoning on several fronts. Contemporary philosophical reflection about mindful inquiries is quite intensive. Nonetheless, the philosophy of mind, as an aspect of reality and the faculty of thinking, reasoning and applying knowledge for the principle of intelligence, commits to the consciousness that brings an object or idea to mind. If not only to become aware as these liberating features are shielded away from writings that are heavy in formalism and dense argumentation. However, from an opened to a closed condition, we are found of a dilemma that much has been taken for granted and accepted for what it is. That there is some hope of gathering from the discerning fundamentals a reservoir of continuative phenomenon for which of us are to discover or rediscover that there are no radical dissimilarities in qualities or quantitative differences from those in vogue of previous eras as perhaps their lives existed for whatever the changelessness of self-mesmerizing amplification were to succumb of a life that simply is. Or should it be said do we live of our lives in the way that should be. *Normal Heights*, 1916 The Corpses of Times Generations Richard J. Koscijew, 2014-01-27. Anyone who has ever tried to present a rather abstract scientific subject in a popular manner knows the great difficulties of such an attempt. Either he succeeds in being intelligible by concealing the core of the problem and by offering to the reader only superficial aspects or vague allusions, thus of deluding the reader by arousing in him the deceptive illusion of comprehension. Or else he gives an expert account of the problem but as the untrained reader is unable to follow the exposition and becomes discouraged from reading any further. If these two categories are omitted from today's popular scientific literature, surprisingly little remains. But the little left is very valuable indeed. It is very important that the public is given an opportunity to experience consciously and intelligently the efforts and results of scientific research. It is not sufficient that each successive progression is taken up, elaborated and applied by a few specialists in the field. Restricting the body of knowledge to a small group deadens the philosophical spirit of these people and leads to spiritual poverty. *THE CORPSES OF TIMES GENERATIONS* represents a valuable contribution to popular scientific writing. The main ideas to Theory are extremely well presented. Moreover, the presents state of our knowledge in which the paradigms of science are aptly characterized. Mr Koscijew shows how the criterial growth of our factual knowledge with the striving for a unified conception comprising all empirical data has led to the present situation which is characterized despite all successes by an uncertainty concerning the choice of the basic theoretical concept. **The Book of Immortality** Adam Gollner, 2014-09-30. An exploration of one of the most universal human obsessions charts the rise of longevity science from its alchemical beginnings to modern day genetic interventions and enters the world of those whose lives are shaped by a belief in immortality. **FDA Consumer**, 1992 The Intruders Patty Wallis, 2012-07-08. Jake Jamison's life takes a dramatic turn when he encounters three aliens and their landed spacecraft in his parent's soybean field. The aliens win his trust after fitting him with an electronic headband and ankle bands that allow him to fly effortlessly around

the soybean field through mind control alone He has no idea that his life is about to be severely interrupted by the three intruders and he will pay a high price for this interaction The aliens desperately want to acquire Jake s secret knowledge for a fountain of youth application that will extend their lives indefinitely Jake becomes involved with the NASA Space program after sharing his story along with physical proof of the reality of the aliens and their devious plans for the moon and the earth Jake s new friend Woolley Hampton becomes an unlikely hero for Jake and his wife Julie and for NASA s top secret moon mission to save the earth and its inhabitants from the alien threat

The Hope and Despair of Human Bioenhancement Paschal M. Corby,2019-12-23 The Hope and Despair of Human Bioenhancement is a virtual dialogue between Transhumanists of the Oxford School and the thought of Joseph Ratzinger Set in the key of hope and despair it considers whether or not the transhumanist interpretation of human limitations is correct and whether their confidence in the methods of human enhancement especially through biotechnology corresponds to genuine hope To this end it investigates the philosophical foundations of transhumanism in modernity s rejection of metaphysics the triumph of positivism and the universalism of the theory of evolution which when applied to anthropology becomes the materialist reduction of the human person Ratzinger calls into question this absolutization of positive reason and its limitation of hope to what human beings can produce naming it a pathology of reason a mutilation of human dignity and a facade of a world without hope In its place he offers a richer concept of hope that acknowledges our contingency and limitations

Definite Descriptions Paul Elbourne,2013-06-27 This book argues that definite descriptions the table the King of France refer to individuals as Gottlob Frege claimed This apparently simple conclusion flies in the face of philosophical orthodoxy which incorporates Bertrand Russell s theory that definite descriptions are devices of quantification Paul Elbourne presents the first fully argued defence of the Fregean view He builds an explicit fragment of English using a version of situation semantics He uses intrinsic aspects of his system to account for the presupposition projection behaviour of definite descriptions a range of modal properties and the problem of incompleteness At the same time he draws on an unusually wide range of linguistic and philosophical literature from early work by Frege Peano and Russell to the latest findings in linguistics philosophy of

language and psycholinguistics His penultimate chapter addresses the semantics of pronouns and offers a new and more radical version of his earlier thesis that they too are Fregean definite descriptions *American Thresherman*, 1907 **The New Youth Corridor** Gerald Imber, M.D., 2017-01-16 **Proceedings of the ... Annual Meeting of the Florida State Horticultural Society** Florida State Horticultural Society. Annual Meeting, 1921 **The Fleeing Youth** Richard Distasi, 2009-07-17 It is commonly accepted that the mission of Christ was an act that was independent of any corresponding and requisite deed on the part of humanity Though in part this is true this book asserts that the future spiritual evolution of humanity was dependent on human comprehension and understanding of the Event of Golgotha Comprehension and understanding are defined in this work as one's capacity to spiritually follow Christ through His entire Passion Death and resurrection The Apostles were chosen for this very task but eventually failed at the critical hour Golgotha Esoteric Christianity Young Man in Tomb Birth of Jesus Evolution of Christ Richard Distasi **Ageing and Youth Cultures** Andy Bennett, Paul Hodkinson, 2020-05-11 What happens to punks clubbers goths riot grrls soulies break dancers and queer scene participants as they become older For decades research on spectacular youth cultures has understood such groups as adolescent phenomena and assumed that involvement ceases with the onset of adulthood In an age of increasingly complex life trajectories Ageing and Youth Cultures is the first anthology to challenge such thinking by examining the lives of those who continue to participate into adulthood and middle age Showcasing a range of original research case studies from across the globe the chapters explore how participants reconcile their continuing involvement with ageing bodies older identities and adult responsibilities Breaking new ground and establishing a new field of study the book will be essential reading for students and scholars researching or studying questions of youth fashion popular music and identity across a wide range of disciplines
