BOOK JACKET

The Provenance of the Pseudepigrapha James Davila, 2005-12-01 The Old Testament pseudepigrapha are ancient quasi biblical texts inspired by the Hebrew Bible Although frequently mined as Jewish background by New Testament specialists they were transmitted almost entirely in Christian circles often only in translation Christian authors wrote some pseudepigrapha and did not necessarily always mention explicitly Christian topics This book challenges the assumption that pseudepigrapha are Jewish compositions until proven otherwise It proposes a methodology for understanding them first in the social context of their earliest manuscripts inferring still earlier origins only as required by positive evidence while considering the full range of possible authors Jews Christians God fearers Samaritans etc It analyzes a substantial corpus of pseudepigrapha distinguishing those that are probably Jewish from those of more doubtful origins

[The Art of Reform in Eleventh-Century Flanders: Gerard of Cambrai, Richard of Saint-Vanne and the Saint-Vaast Bible](#) Diane J. Reilly, 2021-11-29 This study is the first detailed exploration of the events and personalities that inspired the early eleventh century Saint Vaast Bible s highly innovative miniature program Copied and illuminated in the venerable abbey of Saint Vaast Arras the Bible broadcast the political and theological beliefs of Bishop Gerard of Cambrai and Abbot Richard of Saint Vanne who cooperated in the sometimes contentious reform of a series of abbeys throughout Flanders While the miniature program defended royal and

episcopal hegemony and highlighted the importance of cooperation between secular and ecclesiastical government the layout of the Bible facilitated continuous reading during the monastic Office Illustrated with 46 figures and 10 color plates this book introduces one of the earliest and most important Romanesque Giant Bibles *The World-view of the Fourth Gospel* Thomas Wearing,1918 *Strange and Gaudy Fruit* Jeff Nicoll,2023-05-09 The history of Christianity includes many doctrines adopted and actions taken to meet immediate problems but which had unintended consequences they are bad fruit Matt 7 15 20 The oldest is antisemitism which arose from the competition of the early church with early Judaism It was built into the New Testament and was developed by the church fathers Having learned to dehumanize it was easy to apply the same techniques to other groups the church became complicit with enslavement misogyny and other forms of oppression One response to the bad fruit is to reject religion in the manner of Christopher Hitchens However the dogmas are part of our culture even if in secular form If the roots of marginalization are not understood they cannot be eliminated This work uses a range of critics and defenders of traditional Western Christianity to identify poisonous fruits and detoxify them The critical voices do not create a consensus Nevertheless a core can be perceived what Erasmus called the few truths Grounded in the religious tradition they can be shared with secular people as a basis for an ethical merciful and respectful society Although the history of Christianity is bloody there are ways to go forward **Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature** John McClintock,1891 **Jewish Paideia** Jason M.
