The Franco Texan Land Company:

The Franco-Texan Land Company Virginia H. Taylor,2011-05-18 The Franco Texan Land Company was formed ostensibly by the French bondholders of the Memphis El Paso and Pacific Railroad in an attempt to salvage their investments through sale of lands in the railroad s Texas land grant Most of the land company s wealth however went into the pockets of unscrupulous local managers and directors and another railroad eventually built a road across Texas along the Memphis El Paso and Pacific right of way Despite their unsavory histories the land company and its railroad parent played an important part in the development of Northwest Texas Virginia Taylor s account of their activities furthers the study of the role of land companies in the settlement of the United States and adds interesting sidelights on one of the immigrant groups that left the imprint of Europe on frontier Texas

Policy Lloyd J. Mercer, 2013-10-22 Railroads and Land Grant Policy A Study in Government Intervention attempts to replace a major part of the railroad land grant legend according to which the granting of federal and state land to private railroad firms benefitted these firms more than it contributed to society as a whole with some real numbers and analysis An attempt is made to put the income and wealth distribution impact of the railroad land grants in perspective but thorough analysis of this issue is not undertaken The primary question this study does try to illuminate is that of the effect of the railroad land grants on economic efficiency This emphasis was chosen because it seems clear that improvement of economic efficiency was the major goal that Congress and various state legislatures sought to attain and thus the examination of economic efficiency questions is fundamental to evaluation of railroad land grant policy This study will not completely replace the railroad land grant legend because much is not covered here but it does represent a considerable diminution of that legend
