The Future Of Christianity:

The End of Christendom and the Future of Christianity Douglas John Hall, 2002-06-06 The thesis of this book is that the Christian movement can indeed have a significant future one that will be faithful to the original vision of the movement and of immense service to our beleaguered world But to have that future Christians will have to stop trying to have the kind of future that sixteen centuries of official Christianity in the Western world has conditioned them to covet Douglas John Hall examines the decline and fall of Christendom and looks at ecclesiastical responses to the end of Christendom He proposes that the churches make their disestablishment work for good and describes how the Christian movement might serve dominant societies classes and institutions in a post Christian era *The Future of Christianity* John Stenhouse, Brett Knowles, Antony Wood, 2004 This book written by a group of New Zealand scholars theologians historians and lawyers examines the question of New Zealand's Western culture and Christianity The contributors explore recent debates over secularisation exploring its merits and explanatory power while also showing its limitations

The Future of Christianity David Martin, 2016-03-16 This book offers a mature assessment of themes preoccupying David Martin over some fifty years complementing his book *On Secularization* Deploying secularisation as an omnibus word bringing many dimensions into play Martin argues that the boundaries of the concept of secularisation must not be redefined simply to cover aberrant cases as when the focus was more on America as an exception rather than on Europe as an exception to the furiously religious character of the rest of the world Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world Doubts are cast on the idea that religion has ever been privatised and has lately reentered the public realm The rest of the book deals with the relation of the Christian repertoire to the nexus of religion and politics including democracy and violence and sharply criticises polemical assertions of a special relation of religion to violence and explores the contributions of cognitive science to the debate **The Future of Christianity** Professor David Martin, 2013-06-28 This book offers a mature assessment of themes preoccupying David Martin over some fifty years complementing his book *On Secularization* Deploying secularisation as an omnibus word bringing many dimensions into play Martin argues that the boundaries of the concept of secularisation must not be redefined simply to cover aberrant cases as when the focus was more on America as an exception rather than on Europe as an exception to the furiously religious character of the rest of the world Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world Doubts are cast on the idea that religion has ever been privatised and has lately reentered

the public realm The rest of the book deals with the relation of the Christian repertoire to the nexus of religion and politics including democracy and violence and sharply criticises polemical assertions of a special relation of religion to violence and explores the contributions of cognitive science to the debate *The Future of Christianity* Arthur J. Bellinzoni, 2010-12-08 Professor Bellinzoni has written a thoughtful and challenging book which must be taken seriously by all those who take the continued influence of Christianity for granted A part of this challenge is to acknowledge the discrediting of central elements of the gospel history But the other challenge just as important is to identify those parts of that tradition which might be reformulated for a future in which the role of Christianity in ethics society and culture is greatly diminished R Joseph Hoffmann Chair Committee for the Scientific Examination of Religion at the Center for Inquiry Professor of Religion Emeritus Wells College Christianity has endured for two thousand years weathering the challenges of clerical corruption religious wars internal schism and scientific criticism Today however there is increasing evidence that institutional Christianity is succumbing to the growing secularism of contemporary society Both church attendance and the number of clergy have noticeably declined Will Christianity survive for another thousand years or even a hundred years In this probing assessment of the state of Christianity biblical scholar Arthur J Bellinzoni boldly asserts that Christianity must break with the past and offer a new vision of the future if it hopes to survive Addressing four issues of central concern Bellinzoni advocates a radical rethinking of the Christian message First he suggests that the God concept must move beyond obsolete notions of a personal God and take its inspiration from such diverse sources as science Taoism Moses Thomas Jefferson and Martin Buber Second Bellinzoni urges a more sophisticated approach to the Bible one that values its timeless elements but is not afraid to discard its many antiquated features Third he recommends a new emphasis on Jesus social ethic arguing that this could lead to a dramatic redistribution of the world s wealth and greater respect for the planet Fourth Bellinzoni criticizes the persistence of obsolete myth in Christianity demonstrating that without its mythical embellishments Christianity still offers a relevant understanding of the meaning of human existence A work of erudition that is also completely accessible to the lay reader *The Future of Christianity* provides a stimulating critique that forward thinking Christians will welcome Arthur J Bellinzoni Aurora NY is professor of religion emeritus at Wells College the author of *The Future of Christianity Can It Survive The Old Testament An Introduction to Biblical Scholarship The Sayings of Jesus in the Writings of Justin Martyr* and the editor of *The Two Source Hypothesis and The Influence of the Gospel of Saint Matthew on Christian Literature Before Saint Irenaeus*

The ^ANext Christendom Philip Jenkins, 2011-09-13 This new and substantially expanded edition of Philip Jenkins s influential book *The Next Christendom* tracks the remarkable expansion of Christianity in the global South in Africa Asia and Latin America and the implications of that shift in numbers and influence from the traditional Christian heartlands of Europe and North America **Nicaea and the Future of Christianity** George E Demacopoulos, Aristotle Papanikolaou, 2025-06-03 Commemorating the 1700th anniversary of the Council of Nicaea this volume offers an original examination of the enduring

impact of the single most famous gathering of Christians since the apostolic age Despite the longstanding historical and theological study of the Council of Nicaea several central questions remain Was Nicaea a theological event or a political one What does it mean if it was both Was Constantine s intervention without precedent or was he simply continuing a long standing role of a Roman emperor who was responsible for leading religious cult albeit now for a different faith tradition And what about the actual theological debates of Nicaea and our ability to understand them Scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades For many scholars and Christian activists today the significance of Nicaea centers around the idea of conciliarity and what this has meant both historically and theologically for the Christian community Why and how did Nicaea become foundational for thinking that the church operates in a conciliar manner How did that work historically in different parts of the Christian world And how should it work today Nicaea and the Future of Christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the Orthodox Catholic and Protestant traditions The great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which Nicaea continues to speak to the future of Christianity

Nicaea and the Future of Christianity George E. description of what makes for discerning and creative theology Written from the perspective of decades of experience and in close dialogue with theologians of other faiths Features a strong interfaith and public theology dimension and a contemporary portrait of the field from the inside A hopeful and illuminating search for wisdom and understanding in the increasingly complex religious and secular world of the twenty first century

The Future of Christian Realism Dallas Gingles, Joshua Mauldin, Rebekah L. Miles, 2023-04-15 In the world's most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin's account of Christian realism as a nuanced blend of theological moral and political realisms The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism

The Future of Christian Mission in India Augustine Kanjamala, 2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4:12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today's new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is challenged to become a living Bible that undoubtedly everyone will read

The Future of Christian Marriage Mark Regnerus, 2020-08-01 Marriage has come a long way since biblical times Women are no longer property and practices like polygamy have long been rejected The world is wealthier healthier and more able to find and form relationships than ever So why are Christian congregations doing more burying than marrying today Explanations for the recession in marriage range from the mathematical more women in

church than men to the economic and from the availability of sex to progressive politics But perhaps marriage hasn't really changed at all Instead there is simply less interest in marriage in an era marked by technology gender equality and secularization Mark Regnerus explores how today's Christians find a mate within a faith that esteems marriage but in a world that increasingly yawns at it This book draws on in depth interviews with nearly two hundred young adult Christians from the United States Mexico Spain Poland Russia Lebanon and Nigeria in order to understand the state of matrimony in global Christian circles today Regnerus finds that marriage has become less of a foundation for a couple to build upon and more of a capstone Meeting increasingly high expectations of marriage is difficult though in a free market whose logic reaches deep into the home today The result is endemic uncertainty slowing relationship maturation and stalling marriage But plenty of Christians innovate resist and wed and this book argues that the future of marriage will be a religious one **Exploring the**

Future of Christian Monasticisms Greg Peters, 2020-01-15 The institution of monasticism in the Christian Church is in general decline at least in so called first world nations Though there are many reasons for this monastic leaders are confronted by the reality of fewer communities monks and nuns nonetheless At the same time many younger Christians are rediscovering the rich heritage of the monastic tradition Though they themselves might not be called to join a traditional monastery they are eager to appropriate monastic practices in their own lives This has led to a movement known as the new monasticism or secular monasticism Despite lacking a unified vision and any central organization these new secular monastics are attempting in their own ways to carry on the tradition and practices of Christian monasticism As well there is a movement within historical Christian monasteries to pour new wine into old wineskins Traditional forms of monasticism are also generally flourishing in developing nations breathing new life into monasticism This volume looks at the current monastic landscape to assess where monasticism stands and to imagine ways in which it will grow in the future leading not only to a renewed Christian monasticism but to new monasticisms **Christianity and the Future** Mary Jean

Richardson, 2011-04-07 THE END TIMES SERIES A set of two books designed to warn and prepare Christians for the dangerous days ahead BOOK 1 Christianity and the Future The churches of Christianity have become divided As dark forces push the world toward the End Times only Christian unity can bring people to Christ Christianity and the Future uses a new reference frame for mapping conflicting Christian postures to discover ways to unite Christians churches and denominations by resolving divisive topics Christians can agree upon a common understanding of God's will as presented in the Holy Bible and revealed through the Holy Spirit **Feeling the Future at Christian End-Time Performances** Jill C.

Stevenson, 2022-02-01 The End is always near The Apocalypse has sparked imaginations for millennia while in more recent times highly publicized predictions have thrust End Time theology briefly into the spotlight In the 21st century fictional depictions of various apocalyptic scenarios are found in an endless stream of films TV shows and novels while real world media coverage of global issues including climate change and the migrant crisis often features an apocalyptic tone Feeling

the Future at Christian End Time Performances explores this prevalent human desire to envision the End by analyzing how various live End Time performances allow people to live in and through future time The book's main focus is contemporary Christian End Time performances and how they theatrically construct encounters with future time not just images or ideas of a future but viscerally and immediately real experiences of future time Author Jill Stevenson's examples are Hell Houses and Judgement Houses Rapture House a similarly styled walk through drama in North Carolina Hell's Gates an outdoor reality drama in Dawsonville Georgia Ark Encounter a full size recreation of Noah's Ark and Tribulation Trail an immersive thirteen scene drama ministry based on the Book of Revelation The book's coda considers similarities between these Christian performances and secular survivalist prepper events especially with respect to constructions of and language about time In doing so the author situates these performances within a larger tradition that challenges traditional secular sacred distinctions and illuminates how the End Times has been employed in our current social and political moment *The Future*

of Christian Marriage among the Igbo vis-a-vis Childlessness Augustus Chukwuma Izekwe, 2015-08-06 Marriage was ordained by God for the good of spouses and for procreation But how often does marriage turn out to bring unhappiness to partners And how often do even happy marriages end up childless Among the Igbo of South eastern Nigeria to whom offspring is the chief goal of marriage childlessness leads often to unhappiness in marriage and not less often to the break up of marriages or to polygamy In this work the author expounds the importance of marriage and its practice among the Igbo He explains the importance of children in Igbo understanding of marriage and identifies childlessness as the key factor which could endanger and sometimes do endanger the Igbo acceptance of the Catholic doctrine of the indissolubility of marriage Using the relevant clauses of the Code of Canon Law the author explains in detail the Catholic understanding of marriage and the goals of the Catholic doctrine on marriage He writes of the possibility of marriage impediments due to impotence and sterility that lead to childlessness and recommends not only a thorough pre marriage preparation but also a continual formation of marriage couples as efforts that could check the increasing rate of divorce and polygamy due to childlessness But the author knows that childlessness can still occur despite all precautions He therefore recommends adoption instead of polygamy as the ultimate panacea to childlessness in marriage The author condemns in unmistakable terms the mentality among the Igbo which blames and traumatizes the woman in cases of childlessness **The Christian Future** Eugen

Generosity and the Christian Future George M. Newlands, 2008-07-17

Based on the 1995 Henson Lectures delivered in the University of Oxford this study takes as its theme the Christian future and the development of a theology of generosity in response to the challenges likely to face Christian faith in the twenty first century In particular Professor Newlands wishes to explore the suggestion that Christ represents the ultimate generosity of God for humankind This leads him to concentrate on the contribution made by Christian doctrine to public issues and especially the relationship between Christology and human rights The author is centrally concerned that faith should remain in the public square and that the circle of faith should always be outward facing The result is a liberal pluralistic theology which regards the generous love of God in incarnation and reconciliation as a powerful stimulus to imaginative Christian thought and action In its robust portrayal of what Christianity ought properly to look like this book which emerges from the pen of the leading Scottish liberal theologian of his generation will be sure to stimulate and engage a wide variety of readers
