The Gaa:

The GAA Marcus De Búrca, 1999 **The GAA v Douglas Hyde** Cormac Moore, 2012-09-07 On 13 November 1938 just months after his inauguration President Douglas Hyde attended a soccer match between Ireland and Poland In a passionate reaction the GAA declared that by attending a foreign game he had broken Rule 27 the Ban and they removed him as patron One of the most controversial incidents in recent GAA history it strained relations between the GAA and amon de Valera s Fianna F il government It also damaged the standing of the Ban and was used extensively by opponents to argue for its removal **The Political Economy of the Irish Welfare State** Fred Powell, 2017-09-13 The political economy of the Irish welfare state provides a fascinating interpretation of the evolution of social policy in modern Ireland as the product of a triangulated relationship between church state and capital Using official estimates Professor Powell demonstrates that the welfare state is vital for the cohesion of Irish society with half the population at risk of poverty without it However the reality is of a residual welfare system dominated by means tests with a two tier health service a dysfunctional housing system driven by an acquisitive dynamic of home ownership at the expense of social housing and an education system that is socially and religiously segregated Using the evolution of the Irish welfare state as a narrative example of the incompatibility of political conservatism free market capitalism and social justice the book offers a new and challenging view on the interface between structure and agency in the formation and democratic purpose of welfare states as they increasingly come under critical review and restructuring by elites **Who Owns Football?** David Hassan, Sean Hamil, 2013-09-13 The commercialization of sport since the 1990s has had a number of consequences The market forces that have defined commercialization notably pay per view television whilst initially welcomed as important new sources of revenue have also had the unanticipated consequences of de stabilizing many sporting competitions and institutions undermining the financial future of clubs in their traditional role as key social and cultural institutions This has been manifested in the paradox of chronic financial loss making amongst professional sports clubs in an era of exponential revenue growth a trend exemplified by the experience of Italy s Series A and the English Premier League both cases examined in detail in this book But at the same time some traditional sporting organizations have sought with some success to chart a middle way retaining traditional sporting movement objectives whilst also embracing a form of commercialism The Gaelic Athletic Association in Ireland the supporter owned FC Barcelona football club and New Zealand rugby union offer illustrative examples of such strategies examined in detail This book explores the background to this clash of commercial and traditional sporting objectives and debates the consequences for wider sports governance This book was published as a special issue of Soccer and Society **The Voice of the Provinces** Christopher Doughan, 2019 Ireland s regional and provincial newspapers have played a largely unrecognised role in Irish history this book charts their experiences in the dramatic and sometimes violent years leading up to independence They were not immune from the conflict they risked censorship suppression prolonged closure and sometimes

violent attack This book tells their story for the first time *The Good Enough Life* Daniel Miller, 2023-11-08 This book is a highly original exploration of what life could and should be It juxtaposes a philosophical enquiry into the nature of the good life with an ethnography of people living in a small Irish town Attending carefully to the everyday lives of these people the ethnographic chapters examine topics ranging from freedom and inequality to the creation of community and the purpose of life These chapters alternate with discussions of similar topics by a wide range of philosophers in the Western tradition from Socrates and the Stoics through Kant Hegel and Heidegger to Adorno Rawls MacIntyre and Nussbaum As an ethnography this book reveals just how much we can learn from a respectful acknowledgement of what ordinary modest people have achieved By creating community as a deliberate and social project that provides the foundation for a more fulfilling life where affluence has not led to an increase in individualism the people in this town have found a way to live the good enough life The book also shows how anthropology and philosophy can complement and enrich one another in an enquiry into what we might accomplish in our lives [Amphibian conservation action plan : proceedings IUCN/SSC Amphibian Conservation Summit 2005](#), 2007 [Depreciation Course \(2006\)](#) CCH Tax Law, 2005-12 **Business Taxpayer Information Publications**

, 2001 **Decoding The IRA** Tom Mahon, 2030-01-01 Historian Thomas Mahon With the aid of a former FBI code breaker Jim Gillogly has spent the past few years breaking the IRA s secret communications code used to pass messages back and forth between Ireland and America from the 1920s until the 1960s the results are explosive From discussions about mundane matters to considerations of deals with the USSR and China the IRA letters delve into just about every matter conceivable for a terrorist organisation Some of the ideas are harebrained or cracked but some like the proposal to source gas for use in Ireland are dangerous and unnerving With the eye of a historian and the tools of a professional code breaker Thomas and Jim have together created a wonderful and engrossing read **The SAGE Dictionary of Sports Studies** Dominic
