Statistical Methods for Meta-Analysis Larry V. Hedges, Ingram Olkin, 2014-06-28 The main purpose of this book is to address the statistical issues for integrating independent studies There exist a number of papers and books that discuss the mechanics of collecting coding and preparing data for a meta analysis and we do not deal with these Because this book concerns methodology the content necessarily is statistical and at times mathematical In order to make the material accessible to a wider audience we have not provided proofs in the text Where proofs are given they are placed as commentary at the end of a chapter These can be omitted at the discretion of the reader Throughout the book we describe computational procedures whenever required Many computations can be completed on a hand calculator whereas some require the use of a standard statistical package such as SAS SPSS or BMD Readers with experience using a statistical package or who conduct analyses such as multiple regression or analysis of variance should be able to carry out the analyses described with the aid of a statistical package

Awang Mat, Nabilah Abdullah, Iswantir M, Robbi Rahim, 2021-03-25 The Faculty of Education and Teaching Institut Agama Islam Negeri IAIN Bukittinggi West Sumatera Indonesia organized the 2nd International Conference on Education BICED 2020 on 14-15 September 2020 in Bukittinggi West Sumatera Indonesia. The number of participants who joined the zoom room was recorded at 736 participants. 224 participants attended the conference via the zoom application and 539 participants via YouTube Channel. Participants came from 5 countries namely Indonesia, Malaysia, Kuala Lumpur, Brunei, Darussalam, Thailand, and Australia. BICED 2020 is implemented with the support of a stable internet network system and a zoom application. In the implementation, there were several technical obstacles encountered by the participants, namely the difficulty of joining the zoom application due to the unstable internet signal. The holding of a virtual conference felt less meaningful due to the lack of interaction between speakers and participants. The BICED 2020 committee 29 papers were presented and discussed. The papers were authored by researchers from Australia, Brunei, Darussalam, Thailand, Malaysia, United Kingdom, and Indonesia. All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections and thereafter contributed to the improvement of the quality of the papers. Teaching Oral Literature Masheti Masinjila, Duncan Okoth-Okombo, 1994. Contemporary Perspectives on Research in Assessment and Evaluation in Early Childhood Education Olivia Saracho, 2015-08-01. Researchers, educators, professional organizations, administrators, parents, and policy makers have increased their involvement in the assessment and evaluation of early childhood education programs. This interest has developed swiftly during the last decades. The National Association for the Education of Young Children (NAEYC) and the National Association of Early Childhood Specialists in State Departments of Education (NAECS SDE) developed a position statement titled Early childhood curriculum assessment and program evaluation. Building an effective accountable system in programs for children birth through age 8 to address related trends, issues, guiding principles, and values. Appropriate and well-designed evaluations need to address several audiences including researchers, educators, policy makers, children, and parents. They need to encourage the implementation of a strong foundation that improves the quality of the children's education. Child assessment and program evaluation can lead to effective results and better accountability for preschool, kindergarten, and primary school programs. The purpose of this volume is to share a collection of research strands on contemporary perspectives on research in assessment and evaluation in early childhood education. It provides a review and critical analysis of the literature on assessment and evaluation of programs, children, teachers, and settings. The volume begins with a brief introductory chapter that presents the reader with a map of the area, laying out the issues and alternatives and linking these to the chapters that follow. It addresses several areas including: 1. understanding assessment and evaluation with young children, 2. schools and assessment implications, 3. teacher evaluation and professional development, 4. social relationships and assessment, 5. content areas in early education assessment, 6. technology and assessment, and 7. conclusion with future research directions in assessment and evaluation in early childhood education. The volume is of interest to

researchers educators policy makers university faculty graduate students and general readers who are interested in research on assessment and evaluation in early childhood education The chapters are authored by established scholars in the field
