evolved in school moral education and how and why school power affects school moral education Contrary to the common belief that Chinese schools are passively impacted by external forces in moral education curriculum development this book suggests that school power is a semi emancipatory relationship that acts as a major force shaping moral education This means that although both the Chinese Communist Party and the state are positioned to control schools and moral education schools nonetheless have the power to either negotiate for more influence or partly emancipate themselves by collaborating with other external forces responding to grass root needs empowering school teachers and adjusting internal school management style This helps to explain the influence of Chinese schools in moral education and suggests a broader theory of power relationships in curriculum The Development and Governance of Private Universities in China Xu Liu,2023-06-30 This book investigates the form and features of governance and the factors that shape governance in practice in private universities in China Building on an exploration of the growth of private universities in China after the Communist Party took over the power the study examines the specific context in China including the role of the Communist Party and integrates with shareholders and senior managers to achieve its governance role It shows that two distinct forms of institutional governance have developed namely the supervision form and the managerial form While external policies provide an impetus for change for each university how key actors in institutional governance understand these policies have significant effect on how the policies are implemented This can result in change that can be viewed as either symbolic alteration or as operational change The internal factors that act to shape institutional governance mainly relate to the different developmental stages of the private university the characteristics of shareholders and senior managers and the various ways the universities respond to the external policy *Educational Foundations* ,1904 Educational Governance in China Ming Yang,Hao Ni,2018-09-07 This book presents a comprehensive and cutting edge overview of the educational governance reform trajectory and the latest issues in China addressing several important topics such as administration internal management provision enrollment employment financing examinations evaluation and quality assurance In addition this important and timely book discusses the educational system at all levels from primary and secondary schools to colleges and universities and each chapter ends with a discussion of the status quo problems facing China and coping strategies for further reform The past 68 years 1949 2016 have seen a sea change in social economic cultural political and educational fields Systematically describing the educational landscape in China the book also reveals how the massive changes in China have shaped education and how education has responded to the new demands placed on it Offering essential insights into educational reform in China the book represents a valuable resource especially for researchers and graduate students in the field of education **Loyola Educational Index** ,1928 *Social Forces Influencing American Education* National Society for the Study of Education.
